A-5 - Power Pack
Sku: GNTA5POWP

\$174.99

The Tippmann A5 Power Pack Paintball Kit comes with everything you need to get out and play some paintball! The Tippmann A-5 is a high performance paintball marker with the patented Cyclone Feed System. The Cyclone Feed System Links the Feeder Sprocket to the Air System. The Faster you shoot, the faster the Tippmann A-5 feeds. Pull the Trigger 15 times a second, and the Tippmann A-5 feeds 15 balls per second. The Tippmann A-5 is also easy to clean and maintain with its no tool field strip feature. Innovative technology, maximum firepower, unsurpassed accuracy and Tippmann durability are the core foundations of the all new Tippmann A-5. The A-5 can be field stripped AND re-assembled in less than 60 seconds without tools!

A-5 - Basic Camo
Sku: GNTA5DC

\$155.00

The Tippmann A-5 in Realtree Camouflage is all about speed. Its patented Cyclone® Feed System links the feeder sprocket to the air system, giving it the power to unleash a fury of balls as fast as you can fire them. And with the camouflage finish, they'll never see you coming. The A-5™ can also be completely stripped and reassembled in the field in 60 seconds - without tools. Combining technology, accuracy and durability, this high-end marker has everything, so you can concentrate on one thing - eliminating your opponent. With its all aluminum die cast receiver and new, extra-sturdy Realtree® Camouflage finish, the A-5™ is one of the toughest markers available and a must-have for woodsball and scenario play. Other features include a shock-absorbing end cap for reduced wear and recoil; front-cocking knob, which allows for a fully enclosed receiver; and a 200-round wide-mouth hopper.

A-5 with Response - Basic

A-5 with Selector Switch
eGrip - Basic
Sku: GNTA5ES

\$219.99

The black Tippmann A-5 Marker with E-Grip & Selector Switch is all about speed. Its patented Cyclone Feed System links the feeder sprocket to the air system, giving it the power to unleash a fury of balls as fast as you can fire them. It also features electronics with five firing modes (semi-auto, auto-response, full auto, 3-shot bursts, turbo) for rapid variable firing up to 17 balls per second. The Tippmann A-5 Marker with E-Grip combines technology, accuracy and durability and can also be completely stripped and reassembled in the field in 60 seconds - without tools.

98 Custom PS ACT Basic
Sku: GNTPLSTD

\$109.99

New Features Include: Split Receiver Design, which provides easier access to internal components for simplified installation of grip upgrades and modifications. Secure Front Sight Spring and Trigger Pins, which makes the marker easier to service and reassemble. Easy-to-Remove Power Tube Design with self-sealing/locking gas line secures the valve in place and eliminates two bolts from previous design making maintaining the marker quicker and easier. Full Depth Pockets for ASA, which eliminates the need to loosen the ASA bolts when disassembling the marker. New Barrel Porting and a Matte Finish, which improves marker air efficiency and reduces reflective glare. Picatinny Rails, which makes adding a carry handle, scopes and other accessories a snap. Redesigned, Vertical Front Grip, which offers improved stability and added texture for a more secure feel. Redesigned Sling Mount End Cap, which allows players to easily attach a variety of different sling styles. There is also a new Quick Thread Barrel, which attaches as easily as any other barrel to save players significant time and effort. The new Platinum Series maintains the core features of the original 98 Custom including, ACT (Anti Chop Technology), all aluminum die cast receiver and quick-release feeder elbow. It's fully compatible for CO2, compressed air, or nitrogen. *Hopper not included*

98 Custom PS ACT Power Pack
Sku: GNTPOWER

\$139.99

Power Pack includes: Tippmann 98 Custom Platinum Marker. Tippmann TP420 Single Lens Goggle. 12oz CO2 Tank. 200rnd Gravity Hopper. Marker Features: Split receiver design - provides easier access to internal components for simplified installation of accessories and upgrades. Easy to remove power tube - self sealing/locking gas line makes cleaning and maintaining your marker quick and easy. Full Depth Pockets for ASA - eliminates the need to loosen the ASA bolts when disassembling the marker. Secure Front Site Spring and Trigger Pins - Easier to service and reassemble. Matte Finish - Durable matte finish on ASA and barrel reduces reflective glare. Picatinny Rails - makes adding carry handles, scopes, or sites a snap. Vertical Front grip - redesigned front vertical grip for improved stability and added texture for a better feel. Redesigned Sling Mount End Cap - allows easy attachment of a variety of different style slings. ACT (Anti Chop Technology) is a patent pending design to help eliminate ball chopping and ensure consistent performance. Using a new technology that has the front and rear bolt working independently of each other, ACT virtually eliminates ball chopping and improves ball accuracy with less barrel cleaning. And unlike other anti chop systems, this system maintains ball velocity shot after shot and does not have to be re-cocked if the anti chop technology had to be engaged. Semi automatic, .68 caliber. 8 1/2 inch Quick Thread stone honed high performance barrel.

Fully customizable to enhance performance. All aluminum die cast receiver. Fully customizable receiver and electronics adaptable Heavy duty stainless steel braided gas line. Removable front grip to accept expansion chambers, vertical kits. Wide range velocity adjustment screw. Durable black finish. 150+ foot effective range. Trigger speed up to 8 shots per second.

Includes maintenance pack: allen wrench set, spare tank o ring, marker lubricant, cleaning cable

**98 Custom Ultra Basic (No
ACT or Hopper)
Sku: GNTPLUB**

\$94.99

Player's View: Tippmann has been setting the standard for entry level paintball guns since the beginning of time. The Tippmann 98 Platinum has to be their flagship gun as it can be seen in just about every store and paintball field in the world. This paintball gun is the field owner's rental paintball gun of choice, as it is one of the easiest guns on the market to maintain and fix if anything does go wrong. The Tippmann 98 Custom Platinum can hold up to a beating. These guns are meant to withstand any condition - rain, sleet or snow. The Tippmann 98 Custom Platinum also has a great feel in your grip with the front handle setup away from the hosing. If you want a paintball gun that can stand up to any condition, takes minimal maintenance, and still shoots like a mid level gun, then the 98 Custom Platinum is the way to go. If you're entering the paintball world for the first time and want a gun in the entry level price range that's going to perform at par or better, than this gun's for you. Tippmann's new 98 Custom Platinum Series is now easier to upgrade, modify and maintain. New Features Include: # Split Receiver Design, which provides easier access to internal components for simplified installation of grip upgrades and modifications # Secure Front Sight Spring and Trigger Pins, which makes the marker easier to service and reassemble # Easy-to-Remove Power Tube Design with self-sealing/locking gas line secures the valve in place and eliminates two bolts from previous design making maintaining the marker quicker and easier # Full Depth Pockets for ASA, which eliminates the need to loosen the ASA bolts when disassembling the marker # New Barrel Porting and a Matte Finish, which improves marker air efficiency and reduces reflective glare # Picatinny Rails, which makes adding a carry handle, scopes and other accessories a snap # Redesigned, Vertical Front Grip, which offers improved stability and added texture for a more secure feel # Redesigned Sling Mount End Cap, which allows players to easily attach a variety of different sling styles There is also a new Quick Thread Barrel, which attaches as easily as any other barrel to save players significant time and effort. Developed in collaboration with Hammerhead, the Tippmann Straight Line Barrel combines Hammerhead's popular spiral rifling and reverse porting to give you one of the most accurate paintball barrels you will ever put on your marker! The Tippmann Straight Line Barrel features: # Gun-Drilled Barrel Improves Accuracy Through Unmatched Consistency in Bore Size # True Spiral-Rifling Provides Scientifically-Proven Rotation for Accuracy and Control # Three Sizers (.688, .686, .683) with Patent-Pending Seamless Connection, Matches Ball Dimensions with Barrel Radius for Optimal Air Efficiency # Removable, Reverse-Ported, Counter-Bore Muzzle Break Improves Accuracy by reducing Turbulence at the Barrel Exit # Mean milsim look = instant style points # Deluxe Padded Case Provides Protection for Barrel and Sizers # Barrel Case Included # Aluminum construction # Length: 16 inches # Fits the Tippmann A5 and X7

**X7 Double Trigger Kit
Sku: TRTXDT**

\$13.50

Increase your trigger speed with the X7 Double Trigger. Ergonomic design helps prevent fatigue. This is one of the top ordered upgrades for the Tippmann X7.

**X7 Response Trigger™ Kit
Sku: TRTXRT**

\$49.99

X7 Response Trigger is a patented rapid air-assisted firing system that can shoot up to 15 BPS without batteries. An easy add on accessory that is a perfect match for the X7 Cyclone Feed System.

**X7 eGrip Electronic Upgrade
Kit
Sku: GRPTEX7**

\$99.00

The X7 e-Grip can shoot up to 20BPS and features 5 firing modes including semi auto, turbo, 3-shot safety burst, auto response and full safety auto. Requires 9 volt battery, not included.

**X7 X36 Style Mod Kit
Sku: AKTX7X36**

\$134.99

This is a complete X36 Upgrade Kit for the Tippmann X7. This package includes the following: # X7 X36 Carry Handle # X7 X36 Foregrip # X7 X36 Mag # X7 X36 Folding Stock X36 Carry Handle The X36 Carry Handle has great looks and functionality. Features include a sight peep hole, weaver rail mount and the rail cutout accommodates a hopper. Length at base: 12 inches X36 Foregrip The X36 Foregrip accommodates up to six rail mounts, contains pre-molded rail slots, has a free-floating design (attaches firmly without set screws) and is built to last a lifetime. X36 Folding Stock The X36 Folding Stock provides a stable mil-sim platform and enhances accuracy. This folding stock optimizes performance in tight, urban settings and is convenient and reliable in the field. X36 Mag The X36 Mag is extremely durable. The ultra short mag also fits the Stock X7 Mag well.

**X7 XP5 Style Mod Kit
Sku: AKTX7XP5**

\$141.99

This is a complete XP5 Upgrade Kit for the Tippmann X7. This package includes the following: # X7 XP5 Shroud # X7 Air-Thru Commando Stock # X7 XP5 Mag Air-Thru Commando Stock Integrated high-pressure steel air line that seals directly to the marker's air system, allowing easy "plug and play" operation. Premium construction has ergonomic design and carved-out

groove enhances the shooter's sightline. Has quick-disconnect air that is ideally angled. XP5 Shroud The XP5 Style Shroud has mil-sim looks and durability. The free-loading design does not require set screws or compression rings that can damage your barrel. Contains a pre-molded Picatinny bottom rail and built in front sight. XP5 Mag The XP5 is made from a high-impact composite and is strong enough to be used as a grip. This features a push-button release and fits the 9mm Mag well.

X7 M16 Style Mod Kit
Sku: AKTX7M16

\$149.99

This is a complete M16 Upgrade Kit for the Tippmann X7. This package includes the following: # X7 M16 Carry Handle # X7 M16 Foregrip # X7 M16 Mag # X7 M16 Sight M16 Carry Handle The M16 Carry Handle has accurate mil-sim looks, includes a sight peep hole and is constructed to provide a lifetime of reliable performance. Length at base: 7 inches M16 Foregrip The M16 Foregrip has great looks, functionality, and durability. Accommodates two rail mounts and has a free-floating design (attaches firmly without the use of set screws). M16 Mag The M16 Mag is made from a virtually "unbreakable" composite material and is realistic with its mil-sim design. The mag is 4 inches in height and fits the X7 Mag well. M16 Sight The M16 Sight features a 1 inch bottom rail mount, fits all standard Tippmann barrels and extends 2 inches above the barrel.

X7 AK47 Style Mod Kit
Sku: AKTX7AK47

\$154.95

This is a complete AK-47 Upgrade Kit for the Tippmann X7. This package includes the following: # X7 Air-Thru Commando Stock # X7 AK-47 Foregrip # X7 AK-47 Mag # X7 AK-47 Sight Air-Thru Commando Stock Integrated high-pressure steel air line that seals directly to the marker's air system, allowing easy "plug and play" operation. Premium construction has ergonomic design and carved-out groove enhances the shooter's sightline. Has quick-disconnect air that is ideally angled. AK-47 Foregrip The AK-47 has mil-sim looks and durability. The free-loading design does not require set screws or compression rings that can damage your barrel. Contains pre-molded rail slots and attaches easily and securely. AK-47 Mag The AK-47 Mag is made from a high-impact composite and is strong enough to be used as a grip. Features a push-button release and fits the stock X7 Mag well. AK-47 Sight The AK47 features a 1 inch bottom rail mount and fits all standard Tippmann barrels. The sight extends 2 inches above the barrel and is built to withstand rugged woodsball play.

X7 XP5SD Style Mod Kit
Sku: AKTX7XP5SD

\$154.99

This is a complete XP5-SD Upgrade Kit for the Tippmann X7. This package includes the following: # X7 XP5-SD Shroud # X7 Air-Thru Commando Stock # X7 XP5-SD Mag Air-Thru Commando Stock Integrated high-pressure steel air line that seals directly to the marker's air system, allowing easy "plug and play" operation. Premium construction has ergonomic design and carved-out groove enhances the shooter's sightline. Has quick-disconnect air that is ideally angled. XP5-SD Shroud The XP5-SD-SD Shroud is a versatile, two-piece construction that allows you to run with two distinct mil-sim looks. The shroud can easily be "unlocked" and removed (or reattached) if desired. Also includes foregrip end cap. XP5-SD Mag The XP5-SD is made from a high-impact composite and is strong enough to be used as a grip. This features a push-button release and fits the 9mm Mag well.

X7 / A5 Low Profile Cyclone Hopper (Bulk)
Sku: HPRTX7

\$4.99

Low profile hopper for your X7 or A5.

X7 Expansion Chamber Magazine
Sku: XCTX7

\$53.99

Allows the liquid CO2 in your tank to expand into a gas before it enters your gun, which will improve the gas efficiency of your marker and will help with consistency in your shots. Includes all necessary components for your Tippmann X7.

X7 O-Ring Kit
Sku: MTPKOX7

\$3.99

Includes all basic O-Rings to fix your X7 Marker

X7 Universal Parts Kit
Sku: MTPRKUX7

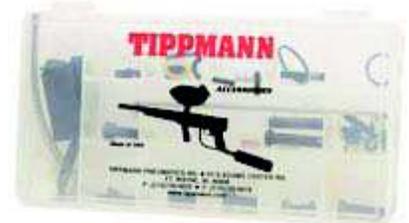

\$7.50

Includes a full-range of replacement parts for the Tippmann X7 paintball markers. This kit includes everything and anything you would need to maintain your paintball gun.

X7 Deluxe Parts Kit
Sku: MTPRKXY

\$33.00

Includes a full range of replacement parts. Includes: (1) Front bolt O-Ring (1) Rear bolt O-Ring (1) Push Pin (1) Ball Latch (1) Valve O-Ring (large) (1) Trigger Plate Pin (1) Valve Spring Washer (1) Velocity Screw (2) Body Nut (2) Receiver Bolt (short) (1) Feeder Ratchet (1) Sear Roll Pin (1) Marker Oil (1) Drive Spring

A-5 Flatline™ Barrel
Sku: BRTFA5

\$52.99

The Tippmann patented A-5 Flatline Barrel System puts backspin on the ball, which allows for upto 100 feet of increased firing distance, while still maintaining breaks on impact. The Flatline Technology produces a level and accurate shot which carries 50% farther than traditional barrels. Grab this barrel system and increase the amount of targets you can hit which would ordinarily be out of range. The flat trajectory created by the Flatline Barrel allows you to shoot under tree branch canopies and through holes in brush where a normal arcing shot cannot go! Features: # - Patented Tippmann Flatline Technology # - Installs in a minute with no modification necessary # - Puts backspin on the paintball, giving it lift like an airplane wing to produce a flat trajectory # - Increases your effective range to 150 feet and beyond!

A-5 Response Trigger™ Kit
Sku: TRTRA5

\$49.99

Full Auto Performance under \$100.00 for Your A-5!* The response trigger is a drop-in kit for the A-5. The response trigger kit increases your trigger speed by resetting the trigger and sear with excess gas during use. This kit uses a cylinder behind the trigger which is just a simple piston instead of a complex computer board, so it is going to be easy to work on and more reliable. * On-The-Fly rate of fire controls--simply change the pressure on the trigger for normal adjustments and adjust the gas-flow knob to set the upper limit * Too complicated to install? No problem. With free-installation from Tippmann Pneumatics Factory you are in control. (You only pay shipping) Note:*For installation on a A-5 you must send the kit with your gun into the Tippmann Factory and they will install it for free. (Tippmann Factory-800-533-4831)

**A-5 E-Grip Selector Switch
Electronic Upgrade Kit
Sku: GRPTEA5SS**

\$99.99

The Tippmann A5 E-Grip Kit with Selector Switch is a serious upgrade for your Tippmann A5 marker. A right side thumb switch lets you switch from Safe to Semi to your choice of firing mode on the fly. A new Hall Effect magnetic switch activation last seven times longer than the previous physical microswitch activation and allows for resistance-free trigger activation. A new rear access battery door means no more having to take the gripframe apart to change the battery and less pinched wires. A serious re-design for one of the most serious upgrades you can do to your Tippmann A5 ! Firing Modes Include: # Semi Auto (1 shot per pull) # Safety 3 Shot Burst (3 pulls then 3 shot burst) # Safety Full auto (3 shots then full auto) # Turbo (ramping) # Auto Response (1 shot on pull, 1 shot on release) Features: # Three position external selector switch for changing modes on the fly # Magnetic Hall Effect trigger activation for lighter triggerpull and last seven times longer than traditional microswitches # Rear access battery door for easier battery changes # Weatherproof design doesn't fear a little rain # Runs off one 9vt battery (not included)

**A-5 200 Rd. Loader
Sku: HPRA5**

\$4.75

Custom A-5 Hopper fits cyclone feed system.

**A-5 Expansion Chamber Kit
Sku: XCTA5**

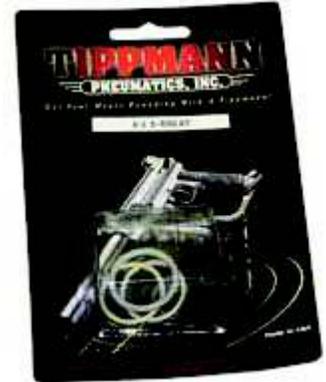

\$20.99

Improves accuracy, comfort and CO2 performance by providing separate chambers for liquid CO2 to 'boil off' before entering your marker's valve. Allows the liquid CO2 in your tank to expand into a gas before it enters your gun, which will improve the gas efficiency of your marker and will help with consistency in your shots. Includes all components necessary to upgrade your marker.

A-5 O-Ring Kit
Sku: MTPKOA5

\$4.75

A-5 Replacement O-Ring Kit.

A-5 Universal Parts Kit
Sku: MTPRKUA5

\$7.50

Includes a full-range of replacement parts for the Tippmann A5 paintball markers. This kit includes everything and anything you would need to maintain your paintball gun.

A-5 Deluxe Parts Kit
Sku: MTPRKA5

\$33.00

Deluxe Parts Kit, includes a full range of replacement parts. Includes: (1) Front bolt O-Ring (1) Rear bolt O-Ring (1) Push Pin (1) Ball Latch (1) Valve O-Ring (large) (1) Trigger Plate Pin (1) Valve Spring Washer (1) Velocity Screw (2) Body Nut (2) Receiver

Bolt (short) (1) Feeder Ratchet (1) Sear Roll Pin (1) Marker Oil (1) Drive Spring

**98 Custom 3pc Tactical
Conversion Kit (AK Style)
Sku: BDTTAK98**

\$54.99

This new Tippmann 3 piece Conversion kit includes a stock, foregrip and magazine to provide a great new AK-47 style look to your Tippmann 98 Custom. Made from high impact, composite material, these new lightweight mods are a great choice for the paintballer looking for a full kit at a great low price. Features: # Light weight and durable # AK Style Magazine that mounts authentically behind the existing 98 Custom front grip # AK Style Front Foregrip that covers the existing 98 Custom front grip # Authentic "Wire" AK Style stock # NOTE: This kit WILL NOT WORK on the new Platinum Series Tippmann markers.

**98C Flatline™ PS Barrel
Sku: BRTF98PS**

\$52.99

The Flatline Platinum Series Barrel features quick thread design that easily attaches like any other barrel. The Flatline Barrel System is the first production back spin barrel ever produced. The principle behind the system is Tippmann's newly designed slightly curved barrel, which applies centrifugal force to the ball, creating backspin. Not only does this system offer increased accuracy and distance but also offers flat trajectory for thick brush and canopy play. By minimizing trajectory of the ball and increasing accuracy, you increase the amount of targets which would ordinarily be out of range. The Flatline Barrel System adds 100 feet of distance.

**98C Tactical Rail Kit-For Use
with Flatline™ PS Barrel
Sku: BRTF98PTR**

\$7.50

Need some more rails for mounting lasers, sights or tactical flashlights. This rail kit is designed to attach to the Tippmann 98 Platinum Series Flatline Barrel, giving you more options for your marker !

**16" Straightline (98) with 3
Fins, M16 Muzzle Break and
Soft Case
Sku: BRTSBK98**

\$99.99

Developed in collaboration with Hammerhead, the Tippmann Straight Line Barrel combines Hammerhead's popular spiral rifling and reverse porting to give you one of the most accurate paintball barrels you will ever put on your marker! The Tippmann Straight Line Barrel features: # Gun-Drilled Barrel Improves Accuracy Through Unmatched Consistency in Bore Size # True Spiral-Rifling Provides Scientifically-Proven Rotation for Accuracy and Control # Three Sizers (.688, .686, .683) with Patent-Pending Seamless Connection, Matches Ball Dimensions with Barrel Radius for Optimal Air Efficiency # Removable, Reverse-Ported, Counter-Bore Muzzle Break Improves Accuracy by reducing Turbulence at the Barrel Exit # Mean milsim look = instant style points # Deluxe Padded Case Provides Protection for Barrel and Sizers # Barrel Case Included # Aluminum construction # Length: 16 inches # Fits the Tippmann Model 98 Custom and Custom Pro

**98C Response Trigger™ Kit
Sku: TRTR98**

\$49.99

Developed in collaboration with Hammerhead, the Tippmann Straight Line Barrel combines Hammerhead's popular spiral rifling and reverse porting to give you one of the most accurate paintball barrels you will ever put on your marker! The Tippmann Straight Line Barrel features: # Gun-Drilled Barrel Improves Accuracy Through Unmatched Consistency in Bore Size # True Spiral-Rifling Provides Scientifically-Proven Rotation for Accuracy and Control # Three Sizers (.688, .686, .683) with Patent-Pending Seamless Connection, Matches Ball Dimensions with Barrel Radius for Optimal Air Efficiency # Removable, Reverse-Ported, Counter-Bore Muzzle Break Improves Accuracy by reducing Turbulence at the Barrel Exit # Mean milsim look = instant style points # Deluxe Padded Case Provides Protection for Barrel and Sizers # Barrel Case Included # Aluminum construction # Length: 16 inches # Fits the Tippmann Model 98 Custom and Custom Pro

98C E-Grip Electronic Upgrade Kit - For markers with serial # 893000 or higher
Sku: GRPTE98

\$69.99

The E-Trigger™ Electronic Upgrade Kit includes five firing modes (semi-auto, auto-response, full-auto, 3-shot burst, turbo) that can be changed in seconds for rapid (up to 17 balls per second) firing. Requires 9-volt battery. Fits the 98 Custom ACT, Custom Pro and Platinum Series. Modes: # Semi - one shot per pull # Auto Response - one shot on pull, one shot on release # Full Auto - three pulls at semi auto, then fires as long as trigger is held # 3-round burst - three pulls at semi, then fires three rounds per pull # Turbo - adds extra shots when a programmed rate of trigger pull is reached

Piccatinny Rail Kit For Non PS Markers
Sku: SGTTPR

\$10.99

Great new Tactical rail for the tactical look and feel. This will fix both the Tippmann Model 98 and Custom Pro. This will certainly give your gun that beefy look.

98C Cyclone Feed System
Sku: HPRT98ABCY

\$45.00

The Cyclone™ Feed System links the feeder sprocket to the air system (no batteries required!) for synchronized ball feed for reduced breakage and jamming. It feeds up to 15 balls per second and includes a wide mouth 200 Round Hopper that attaches via quick release elbow. No more shaking the marker to unjam paintballs and virtually eliminates ball chopping, even on Response Trigger and Egrip models. Installs easily on any Tippmann Model 98 Custom, Custom Pro or Alpha Black and yes, you can still hinge the feed off to the side so you can run your squeegee through the breech!

98C Vertical & Exp. Chamber Kit for Platinum Series
Sku: XCTPS98

\$34.99

Improves accuracy, comfort and CO2 performance by providing chambers for liquid CO2 to 'boil off' before entering your marker's valve. Allows the liquid CO2 in your tank to expand into a gas before it enters your gun, which will improve the gas efficiency of your marker and will help with consistency in your shots. Includes all components necessary to upgrade your marker. Available for the Platinum Series 98 Custom, Ultra Basic and Custom Pro.

98C Vertical & Exp. Chamber Kit for NON Platinum Series Markers
Sku: XCTM98

\$35.99

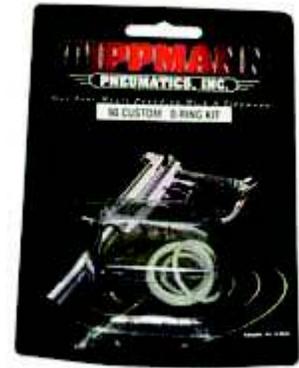

Improves accuracy, comfort and CO2 performance. Allows the liquid CO2 in your tank to expand into a gas before it enters your gun, which will improve the gas efficiency of your marker and will help with consistency in your shots. Includes all components necessary to upgrade your marker. # For use on: Custom Pro™, 98 Custom™, Model 98™ # Does not work on the

Platinum series markers.

98C O-Ring Kit
Sku: MTPKO98

\$3.40

Replace all the o-rings in you Tippmann Model 98 or Custom Model 98.

98C Universal Parts Kit
Sku: MTPRKU98

\$7.50

N2 SYS- Pure Energy 3K 48
AL
Sku: TKNP348

\$49.99

The 48 is Pure Energy's entry level air-system. This system combines a compact bottle and the top of the line Pure Energy Reactor regulator. The Pure Energy Reactor regulator has a preset output pressure set between 800-900 PSI this air-system works great with any marker on the market from Piranhas to Angels. With Pure Energy Reactor regulators now being re-buildable this system is the user-friendliest screw-in air-system in paintball. On most markers you can expect to get 400-600 shots from a full fill. With the CFT piston and a streamlined setup this air-system is both extremely consistent over the chronograph and has very little drop off as you shoot the gas out of the tank (life of the fill). These are attributes sometimes

found in much more expensive air-systems packaged into a smaller, easier to use screw-in system. Features: # 48cu aluminum bottle # Consistent Flow Technology piston # Mil-spec Belleville springs # dual safety rupture plugs for both bottle and downstream safety # mechanical gauge # nickel plated brass bonnet # certified fill nipple # dual locking set screws Specs: # Preset screw-in air-system # 48cu/in aluminum bottle # Compressed air or Nitrogen # Length: 11 inches # Weight: 3.1lbs # Warranty: 1 year for manufacturer defects

**Tiberius Tac 8 Pistol
Sku: GNT8PIS**

\$209.99

Player's View: The Tiberius Arms Pistol sets the standard for paintball pistols to date. You use to have to hold your paintballs and co2 cartridge on top of your paintball pistol making for a bigger target and a bulkier setup. The Tiberius has gotten rid of that idea and puts your paintball clip and your co2 cartridge in the grip without making it to big to fit around your hand comfortably. The trigger is setup very smooth for some fast rates of fire, so don't get carried away unless you have a few backup clips on your person. The Tiberius Arms Pistol is built out of a tough urethane so it can take any beating you throw at it. The people at Tiberius know everyone likes to have a unique gun so the gun is setup to accept upgrades and additional sights and

lasers. This gun is a necessity for any paintball player especially the woods ball/ tactical enthusiast. No one wants to be left alone when there primary gun runs out of air or breaks paint... with the Tiberius Arms pistol at your hip you know you'll have that added sense of security. Here is the pistol that is taking the scenario scene by storm! Rugged construction and hot looks let everyone else at the field know you mean business. The 8 round magazine houses both the paint and the 12gr CO2 cartridge and loads through the grip just like the real thing for fast reloading (the gas is sealed when the magazine is out of the grip so you get several reloads from one charge). This puts the bulk of the weight in the palm of your hand for superior balance. The micro polished barrel combined with the front and rear sights allow for superb accuracy when you need it. The styling is streamlined to allow a smooth draw from a holster. The Tiberius 8 is THE new benchmark for paintball pistols! Features: # Highly accurate, advanced regulator makes velocity fully adjustable # Gun operates below 200 psi, ensuring constant performance despite weather or shot rapidity # Quick-release barrel for cleaning, no mess, no tools required # Safety valve relieves extra pressure in chamber, ensuring consistent velocity # Sites are extremely easy to locate for fast targeting and exact calculation of distance # Handle composed of high-impact urethane, all parts are stainless steel and aircraft aluminum

**Tiberius Tac 8 Pistol
Package
Sku: GNT8PAC**

\$270.00

Includes: Tiberius 8 paintball pistol # Tiberius Arms pistol holster pistol # Tiberius Arms mag # hard case # Tiberius Arms single mag holster # Tiberius Arms barrel cover Tiberius 8 Pistol: Magazine-fed paintball pistol from Tiberius Arms. Features: # Highly accurate, advanced regulator makes velocity fully adjustable # Gun operates below 200 psi, ensuring constant performance despite weather or shot rapidity # Quick-release barrel for cleaning, no mess, no tools required # Safety valve relieves extra pressure in chamber, ensuring consistent velocity # Sites are extremely easy to locate for fast targeting and exact calculation of distance # Handle composed of high-impact urethane, all parts are stainless steel and aircraft aluminum

**Tiberius Tac 8 SOCOM Pistol
Sku: GNT8PSOC**

\$255.00

The hottest pistol in paintball just got hotter with the SOCOM editon Tiberius 8! All the groundbreaking features of the standard pistol with two new additions. The barrel is threaded at the muzzle to accept a screw on mock silencer for that mean Special Forces look. A tac rail mounted laser sight with pressure switch makes those quick shots possible. Nothing demoralizes your opponent more than that glowing red dot pinpointed on their chest! A must for that special mission in your next scenario game. Includes: Tiberius Arms Tiberius 8 Paintball Pistol # Hard case # Mock Silencer # Laser sight

Tiberius Tac 9 CQB ST Rifle
Sku: GNT8STCQB

\$329.99

The T9 line of paintball guns can be used one of 3 ways: 1. Magazine fed - each magazine houses a 12 gram CO2, and 8 paintballs. 2. Hopper Fed - all T9 ST rifles can be hopper fed by attaching a remote adapter and hopper adapter 3. Pistol - all T9 ST rifles can be broken down to just a pistol if desired. Features Standard Features: # Tri-Rail Riser System with 4 independent side mounts # Hopper adapter # Quick release adjustable stock # Remote air adapter # Soft touch firing bolt system # Removable top tac rail CQB ST Features: # Undermount tac rail # Mock silencer tip # Compact folding fore grip # Adjustable laser sight with pressure switch # Dual illumination open dot sight # Hard shell carrying case

**Handheld RadarChron
Sku: FSCHNRD**

\$59.99

RADARchron® USES PROVEN TECHNOLOGY Direct adaptation of our patented Glove Radar® which is field proven by over 9000 users. Employs microwave Doppler technology implemented via very clever circuits and design techniques, which achieve accurate performance in a small size, at a low cost. Microwave operation of the RADARchron® eliminates problems due to light, shadows, loud noise and associated environmental effects that are deleterious to many other paintball velocity sensors.

CONVENIENCE Rugged, compact design makes it easy to carry and use to check any Marker in the field. (2 ½" w; 3 ½ lg; 1 3/16" th; 2.7 oz.) **BE SURE THAT YOUR MARKER IS OPERATING WITHIN SAFE LIMITS!! EASY TO USE** Referees use it in the field during competition. Just hold the small RADARchron® within 1/2 inch of the Marker barrel, about 2 inches behind the marker barrel exit and read the velocity of the expelled paintball. Simple one-button operation turns on the radar transmitter and feet per second paintball exit velocity is indicated on the LCD. Individual players monitor their marker performance by loosely attaching the RADARchron® to the barrel with a hook & loop strap. **ACCURACY** Microwave Doppler accuracy is within ± 2% **AFFORDABLE**

**Field Radar Chronograph
Sku: FSCFRC**

\$199.99

Here is a serious paintball chronograph as used at professional fields and tournaments around the world. Utilizing radar waves instead of light, this chronograph delivers accurate readings regardless of light conditions or paintball shell color. This lightweight and compact unit stows away securely and sets up quickly. Its aluminum frame features a rubber padded barrel rest for consistent shot placement and thus more accurate readings. A must for commercial field owners and a wise investment in safety and more enjoyment for private fields. Features: # Radar technology for optimum results in all light conditions. # Consistent results regardless of paintball shell color. # Emits loud beep when over 300 fps. # Low battery indicator. # Balls Per Second Counter # Aluminum frame holds radar unit securely. # Rubber barrel rest ensures proper barrel placement without marring barrels. # Rubber feet to prevent slippage. # A wise investment in safety and a more enjoyable game. # Great for airmen and home tinkers.

JT Paintball Vision Headshield Full Protection Goggles The Elite™ HeadShield™ is one of our newest additions to the JT® family of protection and safety. The full coverage style goggle system is like no other entry-level goggle on the market. This totally original and industry first brings together all-around protection with comfort and innovation. The fully adjustable rear occipital plate is designed to cradle the users head at the same time as it keeps it totally protected against the possible random paintball striking you from behind or from on top. Ideal for first time players or those just looking for added protection. JT® is always on the forefront of innovation and this is just one more creation from the company that cares.

JT QLS Thermal Lens - Clear
Sku: GGJLQTH CLR

\$16.99

JT lenses pass the American ASTM standard and the European EC Standard, but testing doesn't stop there. JT shoots them, stomps them, hits them with 1/4 inch steel balls at 700 fps, runs over them, and lets the dog chew them. And that proves one thing - JT lenses meet an even higher standard - the JT Standard. With a fog-resistant coated thermal inner lens that can be

cleaned with micro fiber cloth, the standard has been lifted even higher to include pure optical style. # Thermal replacement lens that fits all models of the QLS Series Goggle Systems. # Dual pane lens offers the best fog resistance available.

The JT Raptor Goggle is a great choice for paintballing on a budget ! # Elite Lens System For 180 Degree Field Of Vision. # Fog Resistant Lens For Clear Vision # Integrated Visor For Play In All Weather Conditions. # Compact For Quick & Easy Storage With Other Gear # Flexible Structure For Improved Comfort & Safety

**JT Spectra - Flex 8 Thermal -
Olive
Sku: GGJSP8 OLV**

\$40.99

The JT Spectra Flex-8™, the latest evolutionary step in the JT Flex family. This goggle system uses the most widely used goggle and lens combination in the industry (260 degree Spectra 2). The revolutionary exoskeleton frame is created using JT's exclusive state of the art "Dual-Fusion" technology, which allows the system to be structurally efficient while maintaining the softness, flexibility and ventilation winning players demand. Features: # - Spectra Clear Thermal Lens with 260 degrees of distortion free vision. # - Spectra 2 Goggle Frame # - "Dual Fusion" technology allows near seamless transition of rigid and flexible mask sections. This allows for a mask that flexes for comfort yet retains its structure for impact protection. # - Silicon-beaded goggle strap retains its adjustment without slippage. # - Removable visor to keep sun and rain off of lens. Angled for paintball deflection. # - Chinstrap included.

VL 12V Vlocity SF Loader -
Smoke
Sku: HPRVLV SMK

\$74.99

The VLocity™ Select Force™ electronic loader is here. The VLocity™ Select Force™ electronic loader features an on gun feed rate of up to 28 BPS and a free fall rate up to 35 BPS. The VLocity™ speed is driven by the new Select Force™ technology and an electronically controlled anti-jam propeller. Select Force™ allows you to adjust the force that the loader places on the paintballs. The Select Force is adjustable from off through 7 levels of force to allow the player to set the desired force based on

the type of paintballs being used. Select Force™ allows the player to maximize the out-of-the-gate speed without breaking paintballs. The electronically controlled anti-jam propeller will automatically reverse and reset once a jam is detected using the exclusive double vision system. The VLocity™ also incorporates reprogrammable software to allow you to customize the select force™ and anti-jam settings. The VLocity™ also features a light weight and small profile, offers a large capacity of 200 ct paintballs, a flip cap spring loaded lid and Viewloader® quality you can trust. The VLocity™ is available in Black Onyx and Smoke Crystal. Key Features: # Feed rate of up to 28 BPS on the marker # Free fall rate up to 35 BPS # Adjustable Select Force™ Technology (zero through 7) # Electronically controlled anti-jam propeller # Reprogrammable software # Double vision system # Engineered with light weight, extreme impact resistant polymer making it the largest capacity and lightest weight loader on the market today.

Elite Grade # Metallic Shell # Designed with Special Forces training in mind # Featuring SEAL (blue fill)

**Nel-Splat Paintballs 2000ct -
Blue
Sku: PBNS BU**

\$36.25

Lots of performance at a low price from Nelson, the world's first commercial manufacturer of paintballs. The Nel-Splat line was designed to compete in price with products from lesser known companies, but without any reduction in performance. If price and performance matter, try a 2,000 round case of Nel-Splat. The fill color is the same as the shell

**M4 Collapsible Stock - 98
Custom
Sku: STKP98ACT**

\$21.99

Designed to fit on the Tippmann Model 98 ACT Manufactured out of military grade composite to ensure high quality and strength # Includes stock and tube # 6 position stock easily adjusts to desired length # Ergonomically designed for better comfort # Made in the U.S.A. # Lifetime Tapco warranty

**M4 Collapsible Stock w/
Aluminum Tabs - A5
Sku: STKPA5AL**

\$21.99

Liberty Stocks examined where the majority of competitor's stocks failed on the field and determined that the main point where breakage occurred was the tabs holding the pins in place. Based on the excellent reputation of their X7 stock design they now introduce their Collapsible M4 Stock with Aluminum Tabs. Threaded aluminum tabs now slide into the marker body for a stronger, nearly indestructible connection between stock and marker. A threaded bolt and locking nut replace the pushpins for a secure fit and no more snapped pushpins or bent springs. Made in the USA with a Limited Lifetime Warranty, you can be assured that you are getting the best A5 collapsible stock money can buy!

**M4 Collapsible Stock - A5
Sku: STKPA5FX**

\$22.99

Tactical, Practical and Economical. The T6 adjustable stock... just like the ones used by military special operation forces. Priced well below many lower quality alternatives, this T6 adjustable stock is virtually unbreakable. Manufactured from the same heavy-duty composite plastic used in military stocks, the tube is made specifically for paintball markers. You will never have to

worry about rusting or screws coming loose. Improve your shooting accuracy – the T6 adjustable stock quickly and easily adjusts to 6 different positions. This insures each individual gets a perfect fit, even when wearing protective gear. Made in the USA.

M4 Collapsible Stock - X7
Sku: STKPX7COL

\$29.99

This M4 Collapsible CAR stock is made by Tapco, one of the most trusted names in military/ law enforcement supply. The weakest point on any X7 stock is where the tabs insert into the marker body, often snapping or breaking when you least need it to. Tapco identified this and designed their X7 stock with aluminum tabs, threaded to accept bolts that screw through the frame pin holes. After scrambling through the dirt or against the base of that fort you know you won't look down to see your stock in pieces. Adjust to 6 positions so you can find that right fit. Made in the USA and includes all hardware needed to install.

SAW LMG Stock - A5
Sku: STKA5SAW.

\$21.99

Designed to fit on the Tippman A-5, the SAW stock was modeled after the M249 SAW (Squad Automatic Weapon). Features: # Reduces reload time – flip-up butt plate allows easy reloading while marker still rests on your shoulder # Cutout design allows easy target acquisition even when wearing protective gear Made in the U.S.A.

Folding Stock - 98 Custom
Sku: STKTFS

\$20.99

Choose the Tapco Folding Stock when maneuverability is the key in your game. Features: # Designed with a high tension locking system for better control when fully extended # Ribbed butt plate prevents slips when aiming for your target # Conveniently folds down to a compact size for easy transport and agility when you need it most # Constructed of a sturdy military grade composite and is extremely light Made in the U.S.A. # Sorry SP-1 shooters, this will not fit the SP-1 Stock Adapter Plate.

Scott Voltage XP Thermal
Lens Goggle
Sku: GGSVXP BLK

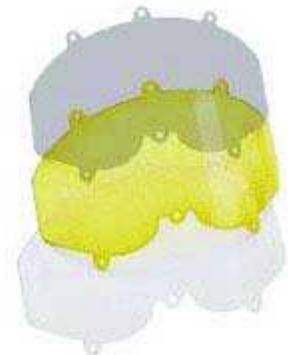

\$24.99

The Voltage XP represents the culmination of Scott's years designing and manufacturing the world's best performing goggles. The Voltage XP has been built from the ground up to handle the most challenging conditions paintball has to offer. This goggle defines a new level of performance, function, fit and value. Thermal Anti-Fog Lens, ET 200 Face Foam, Silicone Lined Strap, Panorama II Max Flow Frame, Voltage XP Mask, Coolite Adjustable Visor.

Scott Panorama Thermal
Lens Clear
Sku: GGSLP TC

\$10.00

Fits the Scott Strike, Vectra and Voltage goggles. Thermal lenses eliminate fogging up during a game. The manufacture recommends replacement after all direct lens hits and once a year.
