SCA MATRIX - Securis

SCA Eligible

Labor Category	SCA Equivalent Code	Title/WD Number	Minimum Wage
Driver - Lead Security Tech	31362 - Truck Driver Medium Truck	05-2103, Wage Determination No.: 2005-2103, Revision No. : 13, Date of Revision: 06/19/2013	\$17.90
Assistant Security Tech	21410 Warehouse Specialit (Warehouse Worker)	05-2103, Wage Determination No.: 2005-2103, Revision No. : 13, Date of Revision: 06/19/2013	\$18.02

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated (**) SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCA matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

Explanation of Services

On-Site Hard Drive and Tape Shredding

Securis' mobile on-site shredding provides clean, quiet and secure destruction of all types of media. The process may be witnessed by a designated client representative to ensure all organizational protocols are met and without leaving office. We can shred on-site 1000lbs of metal per hour which translates into 500 hard drives per hour. Onsite shredding can be used for all types of products including tapes, hard drive and much more.

Audit and Accountability

The record of the destruction can be vital, for oversight and audit documentation. Our inventory tracking system, records and stores serial numbers of the devices destroyed. This can satisfy any accounting audit or government review. Securis' notarized certificate of destruction signed by a company officer, with the detailed inventory attached provides the assurance and transparency needed for this process.

Collection Bins

Not securely storing sensitive data storage devices is a liability waiting to happen. Securis can provide your agency with secure marked collection totes that can hold all of your hard drives and backup tapes that are waiting to be destroyed. We will set the customer on a regular destruction schedule either monthly or quarterly. When we come to your location a new tote will be exchanged. Securis does not charge for the use of collection bins.

Degaussing Service

While degaussing services are not necessary for every situation sometimes they are required under the secure destruction process of Federal Law. Securis uses an industrial degausser that is approved by the National Security Agency (NSA), National Institute of Standards and Technology (NIST) Special Publication Series 800-88, and The Department of Defense (DoD). Degaussing services can be done on-site at a customer's location or off-site at Securis facility.

Off-Site Shredding and Degaussing Service

All of Securis' shredding and degaussing services are available as an off-site solution at the Securis facility.

If you have any questions or concerns, please contact a Securis Representative via the phone at (800) 731-1909 or email at info@securis.com.
