Explanation of Services

On-Site Hard Drive and Tape Shredding
PC Recycler’s mobile on-site shredding provides clean, quiet and secure destruction of all types of media. The process may be witnessed by a designated client representative to ensure all organizational protocols are met and without leaving office. We can shred on-site 1000lbs of metal per hour which translates into 500 hard drives per hour. Onsite shredding can be used for all types of products including tapes, hard drive and much more.

Audit and Accountability
The record of the destruction can be vital, for oversight and audit documentation. Our inventory tracking system, records and stores serial numbers of the devices destroyed. This can satisfy any accounting audit or government review. PC Recycler’s notarized certificate of destruction signed by a company officer, with the detailed inventory attached provides the assurance and transparency needed for this process.

Collection Bins
Not securely storing sensitive data storage devices is a liability waiting to happen. PC Recycler can provide your agency with secure marked collection totes that can hold all of your hard drives and backup tapes that are waiting to be destroyed. We will set the customer on a regular destruction schedule either monthly or quarterly. When we come to your location a new tote will be exchanged. PC Recycler does not charge for the use of collection bins.

Degaussing Service
While degaussing services are not necessary for every situation sometimes they are required under the secure destruction process of Federal Law. PC Recycler uses an industrial degausser that is approved by the National Security Agency (NSA), National Institute of Standards and Technology (NIST) Special Publication Series 800-88, and The Department of Defense (DoD). Degaussing services can be done on-site at a customer’s location or off-site at PC Recycler facility.

Off-Site Shredding and Degaussing Service
All of PC Recycler’s shredding and degaussing services are available as an off-site solution at the PC Recycler facility.

If you have any questions or concerns, please contact a PC Recycler Representative via the phone at (703) 436-1967 or email at info@securis.com.
