Company Background

With 10 full time staff and offices in Boulder, CO, Washington, DC, and Ridgewood, NJ, K2 Audio is a full service audio, video and acoustics consulting firm. Built from a vision to never become so large that we lose focus and pay more attention to the design than the people it serves, we rely on our agile, experienced staff to draw from a diverse portfolio of projects and deep industry knowledge. Our reputation originated with technologically-advanced designs for numerous U.S. government hearing rooms and chambers in Washington, DC, and while our involvement in the legislative sector continues to thrive, we boast consulting links to all channels of society. Rich Zwiebel, K2's President, was instrumental in the development of MediaMatrix™ and CobraNet™, two of the most widely used technologies in sound systems installed around the world. Deb Britton, K2's CEO and co-owner was honored with the first ever InfoComm "Women in AV" award. Members of the K2 technical team possess CTS, CTS-D and AMX ACE Control Systems programming certifications.

Our belief in teamwork provides our clients with the full benefits of each individual's area of expertise. Our commitment to being a client-focused company has earned us an industry reputation for responsiveness and reliability, and the long-term relationships we have with our clients reflect this.

Contact K2 Audio before you begin your next project, and find out why we're the best at what we do.
