Senior Project Manager	\$194.96
Specialty Engineer	\$136.02
Senior Engineer	\$117.88
Technician	\$63.48
Clerical	\$49.12

LABOR CATEGORY DESCRIPTIONS

Senior Project Manager – An owner of the firm who has achieved this position by virtue of experience, ability and investment. The Senior Project Manager carries ultimate responsibility for a project. They provide high-level technical guidance, management oversight, and quality assurance. The Senior Project Manager ensures appropriate company resources are available for projects/tasks.

Specialty Engineer – an engineer with an engineering degree and a minimum of 6 years of experience, or an individual with a significant amount of experience (10 or more years) in AV system design. Functions as the project manager and lead engineer for AV projects. Makes decisions independently regarding system design. Has full responsibility for project planning, organization and successful completion. Acts as technical liaison between project team and client.

Senior Engineer – an engineer with an engineering degree and less than 6 years of experience, or an individual with less than 10 years of experience in system design. Provides support for Specialty Engineers. Evaluates and applies standard engineering techniques and procedures while completing project objectives/tasks. May make minor adaptations and modifications as necessary. Conducts research in areas of considerable scope and complexity.

Technician – an individual with education equivalent to a technical school degree, and experience in supporting the technical work of engineers, or a cooperative education student pursuing an engineering degree. Provides drafting and research support for engineers.

Clerical – an individual with experience in the use of office systems to support the technical work of engineers. Assist in performing research or implementation tasks overseen by more senior members of the staff. Provides documentation control, office coordination, word processing, and other office administration functions.
