Labor Pricing and Requirements

Design Consultation: \$105.79 per hour

Design Consultants use computer technology and tools, such as Auto Cad, to create effective and customized solutions for customers. They are responsible for being familiar with current standard methods and practices within the audio visual industry. The Design Consultants role is integral for efficient audio visual design and integration.

Education and Experience:

Design Consultants must have a Bachelor's Degree and training in the field of audio visual and control systems, or have a minimum of five years professional engineering experience. Master's Degrees may be substituted for up to two years of related experience.

Installation Technician II: \$65.49 per hour

Level 2 Installation Technicians are responsible for the installation of all technology equipment and control systems. They are also responsible for directing Level I Installation Technicians as to how to install equipment, and use Level I Installers as they see fit to complete the job at hand.

Education and Experience:

Level 2 Installation Technicians must have a high school or technical school diploma, with at least 5 years of related work experience.

Installation Technician I: \$45.34 per hour

Level I Installation Technicians are responsible for aiding in installing all equipment with the help of and under the supervision of Level 2 or Level 3 Installers.

Education and Experience:

Level 1 Installation Technicians must have a high school or technical school diploma, with 0-1 year of related work experience.

Engineering: \$105.79 per hour

Engineers provide consultations with customers, the project manager, and sales representatives in order to design fully incorporated projects in conjunction with the customer's desires. It is their duty to make sure all necessary components are included when designing any job, whether it be a CSI specified project or a project specified by the customer themselves. Engineers must work hand-in-hand with the sales representatives to actualize the customer's wishes for each design.

Education and Experience:

Engineers must have a Bachelor's Degree, with at least 7 years of related work experience.

Training: \$75.57 per hour

The Trainer is responsible for training on all interactive software and basic audio visual equipment functionality. It is the duty of the Trainer to create an understanding of all software and equipment for the customer so that the customer is easily able to use the technology with their own applications.

Education and Experience:

The Trainer must have a Bachelor's Degree, with at least 1 year of related work experience.

Maintenance: \$80.60 per hour

It is the duty of the maintenance technician to service or contact the proper manufacturer for all damaged or non-working units under warranty. The Maintenance Technician will also service any customer who approaches CSI asking for service on a unit not covered by warranty.

Education and Experience:

Maintenance Technicians must have a high school or technical diploma, with at least 1 year of related work experience and appropriate required certifications.

Programmer: \$94.79 per hour

Programmers program fully integrated control units with touch panels, full wall plate control and switchers in order to control all technology within the room, including lighting, projection, sound, etc. Programmers also handle all room separating and combining applications and AMX, Crestron, and Extron programming.

Education and Experience:

Programmers must have a Bachelor's Degree, with at least 3-5 years of related work experience.

Project Manager: \$80.60 per hour

The Project Manager is responsible for the completion of all assigned projects. As manager, he/she serves as the project Point of Contact, performs site surveys, and develops manpower. The Project Manager works directly with customers, sales representatives, engineers, and technical teams to ensure the proper completion of all jobs.

Education and Experience:

Project Managers must have a high school or technical school diploma, with at least 5 years of related work experience in mechanical or electrical disciplines, 3 years of which in audio, visual, or related discipline.
