## 16 CHANNEL UHF MULTIMEDIA AMPLIFIER

### MULTIMEDIA AMPLIFIER

Cordless, portable 50-Watt multimedia amplifier; wireless, dynamic, condenser mic inputs, line in with separate volume & tone controls; line out (8-1/2-in x 8-1/2-in x 3-1/4-in.)

### WIRELESS MULTIMEDIA AMPLIFIER

50-Watt multimedia stereo amplifier with built-in Wireless 16 Channel UHF Receiver, wireless, dynamic, condenser mic inputs, line in with separate volume & tone controls; line out (8-1/2-in x 8-1/2-in x 3-1/4-in.) **Frequencies: 584MHz - 608 MHz.**

Model #

S805A

SW805A

**New!**  
 New Featuring 16 Channel UHF Wireless Frequencies

**Never Run Out of Power Guarantee.**  
 10 D-Cell alkaline batteries for up to 200 hrs talk time - S1460 International AC Adapter/Recharger (110/240V; 50/60Hz) - S1465 Nicad Battery Pack Rechargeable - up to 20 hrs talk time (requires S1460). All sold separately.

**DUAL WIRELESS MIC INPUTS** - Dynamic, wireless or condenser with volume control

**LINE IN** - for Iphone, Ipod, Ipad, MPS, MP4, projector, CD, etc with separate volume control

Wall Charger with USB, 3.5 mm Audio Connector, 30 Pin Connector, USB charger adapter

**New!**

## AMPLIFIER INCLUDED IN EVERY SOUND SYSTEM LECTERN - SW Models.

**SW-Models** include: SW805A Amplifier: 50-watt multimedia stereo amplifier with built-in Wireless 16 Channel UHF Receiver and your choice of a wireless microphone with transmitter. 3 mic inputs (dynamic, condenser, wireless) that can be used simultaneously; auxiliary input jack with separate tone & volume controls for CD/tape player, LCD Computer Projector; two speaker jacks - total of 4 speakers possible (using Y-connectors); auxiliary line out to record your presentation in real time. All S/SW lecterns include: professional cardioid/unidirectional, dynamic gooseneck microphone and/or cardioid/Unidirectional, dynamic handheld microphone with 15-ft. cord.

**AMPLIFIER POWER SOURCES (sold separately):** 10 D-Cell alkaline batteries for up to 200 hrs talk time - S1460 International AC Adapter/Recharger (110/240V; 50/60Hz) - S1465 Nicad Battery Pack Rechargeable - up to 20 hrs talk time (requires S1460). Never Run Out of Power Guarantee.

### STEREO MULTIMEDIA 50 WATT AMPLIFIERS

The **SW805A** works with most microphones, including condenser, dynamic and wireless units. The condenser (electret) input includes phantom power. All 3 mic Inputs can be used simultaneously. Tape record your mixed multimedia presentations as it is happening - or provide a mixed output to the room's built in sound system that you control. Connect one, two or with optional Y-jacks, up to 4 speakers such as our S1201 Dual Module Companion Speaker. Speaker jacks can support between 4 to 16 Ohms.

**Make your own computer or Video projector programs heard** - by connecting them to the stereo line input with separate volume and tone control, or add pre-recorded music and sound effects via CD or tape player, MP3 or IPod.

# DIGITAL AUDIO TRAVEL PARTNER PLUS - 250 Watts

## DIGITAL AUDIO TRAVEL PARTNER PLUS

▪ **250 Watts** ▪ Built-in Digital UHF 16 channel wireless receiver **PLUS your Choice** of Wireless Mic with Transmitter - Choose either Flesh Tone - Single Over-ear/Headset Electret Mic, Handheld, Headset or Lapel mic (unit will be shipped with Lapel mic unless another mic is specified) ▪ operating frequencies 584 to 608 MHz ▪ wireless range up to 300-ft ▪ Wired Professional dynamic handheld mic with 25-ft. cord ▪ Built-in Media Player with SD card slot, USB Thumb drive slot ▪ built-in Bluetooth module ▪ 3 Neutrik Combo XLR 1/4" mic Inputs with Phantom power switch ▪ One stereo input, one 3.5mm, one 1/4" output ▪ Mute ▪ Reverb/Echo ▪ Talk-over (Ducking) - Automatic reduction of music when mic is used ▪ Voice/Music selection ▪ Separate volume, bass & treble controls ▪ Digital pre amp ▪ Standard USB charging port - 500mA ▪ Two 6-1/2" NEO woofers & dynamic compression tweeter, SPL 127 dB ▪ Can plug in any Smart Audio devices ▪ AC Power cord & rechargeable batteries for up to 10 hours of run time ▪ A specially tooled & molded plastic enclosure for exceptional durability with built-in tripod mount (1-1/2-in.) & retractable handle & wheels ▪ Power supply: 110/220 volt. 50/60 Hz ▪ Can handle up to 3 internal receivers ▪ **Maximum Options:** 3 wireless mics & choice of CD player or Bluetooth ▪ Dimensions: 23in.H x 11-1/2-in.W x 11-1/2-in.D ▪ **OPTIONAL:** S1995 Protective Cover.

Our wireless microphones allow you to speak from anywhere in the room. Wireless microphones can be added to allow multiple presenters to speak simultaneously.

- A - Setup our Audio Portable Buddy SW222 outside the circle aimed towards participants.
- B - Setup our Roving Rostrum Podium PA SW124 in the front of the classroom. With 180 Degree sound coverage from its angled speakers, you will be heard no matter where you place the unit in the classroom.
- C - Setup our iPod Portable PA System SW720 in the front of the class and plug-in projector to video-out. Voice priority feature allows you to interrupt DVD or music by lowering the volume level so you can be heard on the media you're showing.
- D - Setup our Victoria Solid Hardwood Lectern SW3020 to one side of the banquet hall, and additional a wireless powered speaker at the opposite side. Wireless will let you roam the room to maintain eye contact with every table.
- E - Setup our Modular Tabletop Lectern SW250 on the desk at the front of the room, and plug audio out from projector into built-in sound system for full multimedia presentation.
- F - Setup our Multimedia Computer Lectern SW3230 with projector, computer and document camera on appropriate surfaces. Securely store laptop and multimedia equipment in locking storage. Built-in speakers and wireless mic allow multiple presenters to be heard anywhere in the room.
- G - Setup our Presidential Plus Lectern SW450 at the front of the room with wireless powered speakers placed at the other side. Speak from behind the lectern or anywhere in the room with wireless microphones.
- H - Setup our Adjustable Sound Column Lectern SW505A at the front of the classroom, and wireless powered speakers at the four corners of the room. Wireless mic allows you to roam the aisles. Great for audiences of 250 to over 5,000.

**About Us**

*AmpliVox Sound Systems is one of the leading manufacturers of portable sound systems, lecterns, and multimedia workstations in the United States. Our goal is to provide top quality professional presentation equipment that sets up easily, delivers perfect performance, and stands the test of time for reliability and durability.*

Businesses and organizations across the country, including hospitality, education, health care, public safety, and religious entities, choose AmpliVox as their portable audio solution. The versatility of our portable public address systems, elegant lecterns and integrated wireless sound systems provide the perfect complement to any presentation, meeting, training seminar, classroom, conference, and other indoor or outdoor event.

In recent years, AmpliVox has experienced unparalleled success with strong double-digit growth in sales. Our recent move to an expanded headquarters in Northbrook, Illinois enables us to serve our customers more efficiently than ever. Our success is a result of our commitment to innovative product development, superior engineering, exceptional service, and comprehensive knowledge of our customers' sound system needs.

All AmpliVox products are designed with functionality and versatility in mind to meet your specific audio requirements. Customizable by style, color and logo, our sound systems will help you communicate with audiences from 10 to 10,000 people. Our products meet stringent UL standards and come with a six year warranty.

AmpliVox has launched dozens of new products and systems over the last few years, including our current 12 for 2012-13 new product line-up. We invite you to tour our site and learn more about how AmpliVox Sound Systems can help make your voice heard.

**History**

Don Roth acquired AmpliVox, Perma Power in 1995. PermaPower was founded by Norm Ackerman in 1952 and introduced the AmpliVox line of portable PA systems in the 1960s. The company also introduced one of the first residential radio-controlled garage door openers, supplying Craftsman garage door openers to Sears. In the late 1970s, the company added power outlet strips, surge suppressers, power conditioners and uninterruptible power systems (UPS) for computers.

Prior to owning PermaPower, Don Roth was regional vice-president for Xerox and executive vice-president of Apeco and Numeridex Cad/Cam systems.

**AmpliVox Office Staff**

## Preserve the World's Natural Resources

Doing their part to protect the environment, AmpliVox Sound Systems manufactures their PA systems and lecterns to be RoHS (Restriction of Hazardous Substance) and WEEE (Waste Electrical and Electronic Equipment) Compliant.

*"Our lecterns and podiums are forest friendly—no trees were cut down to produce AmpliVox products. We believe that everyone can positively affect their impact upon the environment and we're dedicated to doing our part.*

*We care about the world around us, so we have invested in products, people, and services that exemplify that concern. At AmpliVox, the quality of our products and the protection of our environment go hand-in-hand", says Don Roth, CEO of AmpliVox.*

Our PA systems and lecterns are made with environmentally friendly particleboard and use recycled post-industrial wood residues. Urban or post-consumer recycled wood fibers are used within the Tafisa panel production mix, which enables the recycled fibers to have an extended life.

Green Cross has certified AmpliVox's raw particle board panels as being 100% recycled and recovered wood fibers.

Moreover, striving to do their part to reduce, reuse and recycle to conserve energy, AmpliVox has switched to using recycled packaging and biodegradable packing peanuts.

- "Forest Friendly" - No trees are cut to produce AmpliVox products. Recovered and recycled post-industrial wood residues are used, which helps to stretch forest resources. Composite wood panels made with resins aid timber conservation since they enable wood waste (chips and sawdust) to be used in 5x more construction panels than solid wood or plywood panels. Solid chain-of-custody wood fiber supply practices have also enabled AmpliVox wood Suppliers to secure the Forest Stewardship Council (FSC) Mixed Sources accreditation (SW-COC-003089).
- Made from Recycled Materials - "Urban or post-consumer recycled wood fibers are used within the AmpliVox wood Supplier panel production mix, which enables these recycled wood fibers to have an extended life instead of ending up in landfills or being burned in incinerators. Green Cross has certified our raw particleboard panels as being 100% recycled and recovered wood fiber."
- Our Lecterns are CARB Compliant - "Finished Goods Comply With CARB California 93120 Phase 1 Formaldehyde Emission Standard"
- We also offer LEED Credits: Materials and Resources 4.1 & 4.2: Recycled Content: •7.5% in Canada and 10% in the US –1 credit •15% in Canada and 20% in the US –1 credit

Materials and Resources 5.1 & 5.2: Regional/Local Materials: % of all project materials are extracted, harvested/recovered and manufactured within a 500-mile radius of site •Minimum of 10% –1 credit •Minimum of 20% -1 credit

Indoor Environmental Quality 4.4: Low Emission Materials: Materials or laminate adhesives do not contain any additional urea-formaldehyde resins –1 credit

Indoor Environmental Quality 4.5: Low Emission Materials: Low-emitting Office Furniture Systems and Seating –1 credit
