Business Status: Service-Disabled Veteran-Owned Small Business (SDVOSB)
HUBZone Certified

Customer Information

- 1a. **Special Item Numbers:**
SIN: 834-900 Petroleum, Oil, and Lubricants
- 1b. **Lowest Unit Prices (Based on unit of one):**
ELBF-05 EnviroLogic Bio-Flush - 5 gallon pail \$ 59.09
2. **Maximum Order:** \$ 50,000.00
3. **Minimum Order:** \$ 100.00
4. **Geographic Coverage:** Domestic: 50 states, Washington DC, PR, US Territories and to a CONUS port or consolidation port for orders received from overseas activities.
5. **Point of Production:** Ottawa, Ohio
6. **Discount from List Prices or Statement of Net Price:** See Attached Price List
7. **Quantity Discounts:** None
8. **Prompt Payment Terms:** Net 30 Days
- 9a. **Government Purchase Cards:** Are accepted at or below the micro-purchase threshold.
- 9b. **Government Purchase Cards:** Are not accepted above the micro-purchase threshold.
10. **Foreign Items:** None
- 11a. **Time of Delivery:** 10 - 15 days ARO
- 11b. **Expedited Delivery:** 3 - 5 days ARO (subject to stock availability).
- 11c. **Overnight & 2-Day Delivery:** Contact contractor for rates (subject to stock availability).
- 11d. **Urgent Requirements:** Agencies may contact the contractor's representative to possibly affect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

-
12. **FOB Point:** Origin; contact contractor for freight charges.
 - 13a. **Ordering Address:** S & L Products and Services, Inc
310 Court St
Huntsville, TN 37756
Phone: (423) 663-4625
Fax: (423) 663-3773
Email: slproducts@highland.net
 - 13b. **Ordering Procedures:** For ordering procedures, see FAR (8.405).
 14. **Payment Address:** S & L Products and Services, Inc
PO Box 538
Huntsville, TN 37756
Phone: (423) 663-4625
Fax: (423) 663-3773
Email: slproducts@highland.net
 15. **Warranty Provision:** Standard Commercial Warranty
 16. **Export Packing Charges:** N/A
 17. **Terms and Conditions of Government Purchase Card Acceptance:** Government commercial credit cards are accepted in accordance with government commercial credit card program guidelines.
 18. **Terms and Conditions of Rental, Maintenance and Repair:** N/A
 19. **Terms and Conditions of Installation:** N/A
 - 20a. **Terms and Conditions of Repair Parts:** N/A
 - 20b. **Terms and Conditions of Any Other Services:** N/A
 21. **List of Service Distribution Points:** N/A
 22. **List of Participating Dealers:** N/A
 23. **Preventative Maintenance:** N/A
 24. **Special Attributes:** Biodegradable Products - Environmentally responsible and non-toxic.
 25. **DUNS Number:** 361257673
 26. **Central Contractor Registration (CCR):** Valid through 12/30/2009. CAGE/NCAGE code is 39ZZ3.

ENVIROLOGIC BIODEGRADABLE LUBRICANTS

ENVIROLOGIC 39 MULTI-PURPOSE LUBRICANT

EnviroLogic 39 is an environmentally and consumer safe multi-purpose lubricant that prevents rust and corrosion, cleans, polishes and protects all types of metals. EnviroLogic 39 can be used to: prevent rust and corrosion on metal containing objects such as tools, sporting equipment and guns; lubricate moving parts such as wheels, bearings, gears, rollers, chains and hinges; penetrates frozen parts such as valves, bolts, and nuts; clean surfaces of grease, tar, adhesives, scuff marks and crayon.

ENVIROLOGIC 50 CONCRETE FORM OIL (ISO 6)

EnviroLogic 50 concrete form oil is readily biodegradable, and non-hazardous, ISO 6 viscosity grade form oil for use in the production of concrete precast forms. EnviroLogic 50 can be used as a concentrate or diluted using one part EnviroLogic 50 to four parts water.

ENVIROLOGIC 122 HYDRAULIC FLUID (ISO 22)

EnviroLogic 122 Hydraulic Fluid is readily biodegradable, and non-hazardous, ISO 22 viscosity grade hydraulic oil for general-purpose hydraulic systems. EnviroLogic 122 is formulated for high antiwear performance, excellent water separation, low foaming and air release characteristics, excellent corrosion and rust protection, and high oxidative stability for long fluid use. It also has a high viscosity index and will permit fluid operation over an extremely broad temperature range.

ENVIROLOGIC 132 HYDRAULIC FLUID (ISO 32)

EnviroLogic 132 Hydraulic Fluid is readily biodegradable, and non-hazardous, ISO 32 viscosity grade hydraulic oil for general-purpose hydraulic systems, formulated on unique biodegradable base oil technology with excellent antiwear characteristics. EnviroLogic 132 is ideal for mobile hydraulic systems operating in environmentally sensitive areas and exhibits enhanced wear protection, cleanliness and longer life than conventional hydraulic oils. It also meets the requirements for Type I, II, and III hydraulic tools.

ENVIROLOGIC 146 HYDRAULIC FLUID (ISO 46)

EnviroLogic 146 Hydraulic Fluid is readily biodegradable, and non-hazardous, ISO 46 viscosity grade hydraulic oil for general-purpose hydraulic systems. EnviroLogic 146 demonstrates outstanding low temperature viscometric properties, has excellent antiwear characteristics and will meet or exceed the requirements of most major hydraulic equipment manufacturers.

ENVIROLOGIC 168 HYDRAULIC FLUID (ISO 68/SAE 5W40)

EnviroLogic 168 Hydraulic Fluid is readily biodegradable, and non-hazardous, ISO 68/SAE 5w40 multiviscosity grade hydraulic oil for general-purpose hydraulic systems. EnviroLogic 168 demonstrates excellent low and high temperature viscosity performance and has superior antiwear characteristics. EnviroLogic 168 is approved against Jacobsen requirements and meets or exceeds the requirements of Toro, Ransome-Cushman, Deere and others.

ENVIROLOGIC 1100 HYDRAULIC FLUID (ISO 100)

EnviroLogic 1100 Hydraulic Fluid is readily biodegradable, and non-hazardous, ISO 100 viscosity grade hydraulic oil for general-purpose hydraulic systems. EnviroLogic 1100 is based on natural ester technology and is a direct replacement for petroleum oil based hydraulic fluids of similar viscosity. EnviroLogic 1100 demonstrates excellent low and high temperature viscosity performance and has superior antiwear characteristics.

ENVIROLOGIC 268 BAR, CHAIN AND SPROCKET OIL (ISO 46)

EnviroLogic 268 Bar, Chain and Sprocket Oil readily biodegradable and non-toxic ISO 46 (30w) grade chain oil for use in heavy-duty chain drives. EnviroLogic 268 can be used on bars and chains in high-speed application. EnviroLogic 268 contains a special tackiness agent to reduce "sling off" during high-speed chain saw operations and contains a corrosion inhibitor for protection from moisture.

ENVIROLOGIC 268A BAR, CHAIN AND SPROCKET OIL (ISO 68)

EnviroLogic 268A Bar, Chain and Sprocket Oil readily biodegradable and non-toxic ISO 68 (40w) viscosity grade chain oil, for use in heavy-duty chain drives. EnviroLogic 268A can be used on bars and chains in high-speed applications, and reduces harmful effects to soil and water. EnviroLogic 268A contains a special tackiness agent to reduce "sling off" during high-speed chain saw operations and contains a corrosion inhibitor for protection from moisture.

ENVIROLOGIC 268B BAR, CHAIN AND SPROCKET OIL (ISO 100)

EnviroLogic 268B Bar, Chain and Sprocket Oil is a readily biodegradable and non-toxic ISO 100 (50w) viscosity grade chain oil for use in heavy duty chain drives. EnviroLogic 268B can be used on bars and chains in high-speed applications, and reduces harmful effects to soil and water. EnviroLogic 268B contains a special tackiness agent to reduce "sling off" during high-speed chain saw operations and contains a corrosion inhibitor for protection from moisture.

ENVIROLOGIC 440 TWO CYCLE ENGINE LUBRICANT

EnviroLogic 440 is a biodegradable and non-toxic two-cycle engine lubricant for use in air-cooled engines requiring ISO GD, JASO FC, or API TC performance and contains a fuel stabilizer. EnviroLogic 440 demonstrates excellent low temperature viscometric properties for applications such as logging and construction. This product conforms to all current legislation concerning air, land, and water pollution and is suitable for uses such as chain saws, weed trimmers, lawnmowers, and motorcycles.

AQUALOGIC 450 TWO CYCLE ENGINE LUBRICANT

AquaLogic 450 is a biodegradable and non-toxic two-cycle marine engine lubricant for use in water and air-cooled engines. The National Marine Manufacturers Association (NMMA) has certified AquaLogic 450 as a TC-W3 branded oil. This product has extremely low pour point for cold temperature applications and addresses the concern for biodegradability of oils incidentally released into waterways and aqueous systems.

ENVIROLOGIC 500 DUST SUPPRESSANT

EnviroLogic 500 is a biodegradable and non-toxic dust suppressant that works. Dust and its undesirable results are apparent to everyone. Most dust control methods are either unsuitable for the environment or are ineffective. The specialty performance additives safely coat dust particles and prevent them from becoming airborne. The natural ester technology allows biodegradation keeping waterways and greens clean.

ENVIROLOGIC 500A ASPHALT RELEASE AGENT

EnviroLogic 500A is a readily biodegradable and non-toxic asphalt release agent that is soy-based, water-soluble and environmentally safe. When applied to asphalt equipment, EnviroLogic 500A keeps asphalt from sticking, leaving no petroleum residue, has no buildup, and washes away easily.

ENVIROLOGIC 700 UNIVERSAL TRACTOR FLUID (ISO 46/SAE 5W30)

EnviroLogic 700 Universal Tractor Fluid is readily biodegradable and non-toxic ISO 46/SAE 5W30 (J-20-C) multiviscosity grade tractor oil for use in heavy-duty brake, transmission and hydraulic systems. EnviroLogic 700 is a direct replacement for petroleum oil based tractor fluids and has excellent antiwear characteristics. EnviroLogic 700 meets John Deere, Caterpillar, Vickers, Denison and Military specifications.

ENVIROLOGIC 802A EP GREASE NLGI #2

EnviroLogic 802A is a multi-purpose, Al-Complex, biodegradable NLGI #2 EP grease. It demonstrates excellent dropping point, water resistance, and structure stability over an extremely wide range of temperatures. EnviroLogic 802A is formulated to possess excellent oxidation stability, corrosion protection, and EP/antiwear protection. This package of performance allows for a wide range of industrial and equipment applications.

ENVIROLOGIC BIO-CLEAN SOLVENT & CLEANER

EnviroLogic Bio-Clean is an environmentally safe, non-toxic biodegradable fluid. EnviroLogic Bio-Clean is designed as an effective low viscosity, low volatility base fluid that has excellent penetrating/wetting, cleanability, solvency, lubricity and residual surface film characteristics. It delivers anti-rust protection to ferrous metallurgies, and removes most hydrocarbon and organic base surface residues.

ENVIROLOGIC 200 GEAR OIL (ISO 68)

EnviroLogic 200 is environmentally safe biodegradable gear oil for use in industrial applications. EnviroLogic 200 is an ISO 68 viscosity grade, AGMA 2EP oil, having high AW/EP properties, excellent corrosion and rust protection, and outstanding system cleanliness characteristics. EnviroLogic 200 is suitable in a wide variety of industrial gear applications such as offshore marine, steel mill, mining, and power utility operations.

ENVIROLOGIC 210 GEAR OIL (ISO 100)

EnviroLogic 210 is environmentally safe biodegradable gear oil for use in industrial applications. EnviroLogic 210 is ISO 100 viscosity grade gear oil that has high AW/EP properties, excellent corrosion and rust protection, and outstanding system cleanliness characteristics. EnviroLogic 210 is suitable in a wide variety of industrial gear applications such as offshore marine, steel mill, mining, and power utility operations.

ENVIROLOGIC 215 GEAR OIL (ISO 150)

EnviroLogic 215 is environmentally safe biodegradable gear oil for use in industrial applications. EnviroLogic 215 is ISO 150 viscosity grade gear oil that has high AW/EP properties, excellent corrosion and rust protection, and outstanding system cleanliness characteristics. EnviroLogic 215 is suitable in a wide variety of industrial gear applications such as offshore marine, steel mill, mining, and power utility operations.

ENVIROLOGIC 222 GEAR OIL (ISO 220)

EnviroLogic 222 is environmentally safe biodegradable gear oil for use in industrial applications. EnviroLogic 222 is ISO 220 viscosity grade gear oil that has high AW/EP properties, excellent corrosion and rust protection, and outstanding system cleanliness characteristics. EnviroLogic 222 is suitable in a wide variety of industrial gear applications such as offshore marine, steel mill, mining, and power utility operations.

ENVIROLOGIC 3032 HP HYDRAULIC FLUID (ISO 32)

EnviroLogic 3032 is a high performance, semi-synthetic, readily biodegradable, non-hazardous ISO 32 grade hydraulic fluid. It is intended for severe service, extreme high temperature (400° F), low temperature (-40° F) and high-pressure applications. It exhibits enhanced wear protection, cleanliness and longer life than conventional petroleum hydraulic oils. EnviroLogic 3032 can directly replace petroleum oil based hydraulic fluids, yet has reduced environmental impact in the event of a leak or spill.

ENVIROLOGIC 3046 HP HYDRAULIC FLUID (ISO 46)

EnviroLogic 3046 is a high performance, semi-synthetic, readily biodegradable, non-hazardous ISO 46 grade hydraulic fluid. It is intended for severe service, extreme high temperature (400° F), low temperature (-40° F) and high-pressure applications. It exhibits enhanced wear protection, cleanliness and longer life than conventional petroleum hydraulic oils. EnviroLogic 3046 can directly replace petroleum oil based hydraulic fluids, yet has reduced environmental impact in the event of a leak or spill.

ENVIROLOGIC 3068 HP HYDRAULIC FLUID (ISO 68)

EnviroLogic 3068 is a high performance, semi-synthetic, readily biodegradable, non-hazardous ISO 68 grade hydraulic fluid. It is intended for severe service, extreme high temperature (400° F), low temperature (-40° F) and high-pressure applications. It exhibits enhanced wear protection, cleanliness and longer life than conventional petroleum hydraulic oils. EnviroLogic 3068 can directly replace petroleum oil based hydraulic fluids, yet has reduced environmental impact in the event of a leak or spill.

ENVIROLOGIC 3100 HP HYDRAULIC FLUID (ISO 100)

EnviroLogic 3100 is a high performance, semi-synthetic, readily biodegradable, non-hazardous ISO 68 grade hydraulic fluid. It is intended for severe service, extreme high temperature (400° F), low temperature (-40° F) and high-pressure applications. It exhibits enhanced wear protection, cleanliness and longer life than conventional petroleum hydraulic oils. EnviroLogic 3100 can directly replace petroleum oil based hydraulic fluids, yet has reduced environmental impact in the event of a leak or spill.

ENVIROLOGIC BIO-FLUSH

EnviroLogic Bio-Flush is a carefully designed fluid that helps to flush and remove petroleum oil from hydraulic systems. This is done when converting hydraulic systems to the use of environmentally safe, biodegradable fluids. EnviroLogic Bio-Flush will condition the internal hydraulic system to help optimize both overall system performance and fluid biodegradability.

LUBRICANTS:

The units of issue are:

- Tote: 275 gallon
- Drum: 55 gallon
- Pail: 5 gallon
- Case: 1 gallon / 6 each
- Case: 6.5 oz bottle / 24 each

GREASE:

The units of issue are:

- Pail: 35 lbs.
- Case: 14 oz. tubes / 10 each
