Rust Bullet's low VOC coatings have been specifically engineered to exceed all Federal, State, and local air quality management district standards. Rust Bullet products are at or below any other rust inhibitive coating product currently found in either the GSA Advantage Environmental Aisle or FEMP. This has been accomplished by using greener technologies in a unique way to exceed VOC limits and avoid ozone depletion while still giving industry best performance. Rust Bullet has filed for patents on its new, non-ozone depleting technologies. Rust Bullet is free of lead, zinc, acids, and heavy metals.

324191	856084000128	RUST BULLET STANDARD – PINT	Rust Bullet STANDARD / INDUSTRIAL Coating - A high performance, professional grade, industrial strength, single component, rust inhibitive, protective paint. Rust Bullet has been awarded an unprecedented two United States Patents for two unique technologies in corrosion control. Ideal for industrial, commercial, and marine applications, or anywhere rust and corrosion is a problem. Can be applied directly over rusted and clean surfaces. No basecoat, primer, or topcoat needed. Superior adhesion. Scratch, chip, chemical and UV resistant. Simple to apply and low maintenance. Apply by brush, roller, or spray equipment. ECO friendly - contains no lead, no zinc, no chromates, no acids, and no heavy metals. VOC compliant. Color: Metallic Gray.	\$25.34
324191	856084000524	RUST BULLET AUTOMOTIVE - PINT	Rust Bullet AUTOMOTIVE Coating - A high performance, professional grade, industrial strength, single component, rust inhibitive, protective paint. Rust Bullet has been awarded an unprecedented two United States Patents for two unique technologies in corrosion control. Can be applied directly over rusted and clean surfaces. Superior adhesion. No basecoat, primer, or topcoat needed. Scratch, chip, chemical, and UV resistant. Simple to apply and low maintenance. Apply by brush, roller, or spray equipment. ECO friendly - contains no lead, no zinc, no chromates, no acids, and no heavy metals. VOC compliant. Designed to flow easily through an HVLP spray system. Contains more metal, providing a smoother finish, usually desired for automotive projects. VOC compliant. Color: Metallic Gray.	\$25.34
324191	856084000623	RUST BULLET BLACKSHELL – PINT	Rust Bullet BlackShell Coating - A high performance, professional grade, industrial strength, single component, gloss black, rust inhibitive, protective paint. BlackShell provides outstanding surface protection when used as a standalone coating or can be applied as a topcoat over any patented Rust Bullet coating for unbeatable protection with a gloss black finish. Can be applied directly over rusted and clean surfaces. Scratch, chip, chemical, and UV resistant. Simple to apply and low maintenance. Apply by brush, roller, or spray equipment. Color: Gloss Black.	\$25.34

324191	856084000715	RUST BULLET RAPID FIRE – 6.4 OZ	Rust Bullet RAPID FIRE Accelerator - Rapid Fire Accelerator is a professional grade, 100% solids, proprietary additive for all Rust Bullet Coatings. Rapid Fire Accelerator significantly reduces paint re-coat and overcoat times up to 80%, and effectively reduces completion times even in temperatures as low as 10 F (-12 C). Dry time is reduced from approximately 4 hours to approximately 30 minutes while maintaining optimal coating performance. Rust Bullet Rapid Fire also helps eliminate CO2 bubbling typically caused by excessive coating film application. Designed for spray applications.	\$23.97
