1. LIST OF AWARDED SPECIAL ITEM NUMBERS (SINs)

- 246-35(1)** Access Control Systems-Door Entry Controlled by Card Access, Magnetic Proximity – including, but not limited to, Biometric.
- 246-42(1)** Facility Management Systems (Including Accessories and Repair Parts). Computerized Systems for Surveillance, Monitoring, Controlling, Signaling and Reporting Multiple Functions, Security Functions (i.e., access control, fire detection, intrusion, etc.)
- 246-1000** Ancillary Services relating to Security/Facility Management Systems including services necessary to install the system (design through start-up), maintain the system (including maintenance agreements or training). Excludes construction.
- 246-51** Installation of Security/Facility Management Systems Requiring Construction.
- 246-52** Professional Security/Facility Management Services including security consulting, training and facility management consulting.
- 246-60(1)** Security Systems Integration and Design Services. Services involving the security integration and/or management discipline which supports security products or systems through their life cycle. Security Systems integration and design services may include, but are not limited to those associated with the design, test, production, fielding, sustainment, improvement of cost effective security and/or protection systems including the eventual disposal or salvage of these systems. Services may include studies and analysis such as - risk assessment, threat evaluation, and assessment (including resultant deliverables). Contractors may provide security or protection expertise in the pre-production or design phase of security or protection systems to ensure that the system can be supported through its life-cycle and that the infrastructure elements necessary for operational support are identified and acquired. These services may continue through the life cycle of the system or product and may include guidance, assistance and/or operational support. This includes all necessary security management elements.

246-35(1) RC, 246-42(1) RC, 246-1000 RC, 246-51 RC, 245-52 RC, 246-60(1) RC, ^{DISAST}RECOV Recovery Purchasing: The Defense Authorization Act of 2007 (Public Law 109-364) included Section 833 which permits GSA to open schedules up to state and local government use in response to a Presidential Declaration of a major disaster (under the Stafford Act) and to facilitate recovery from terrorism or nuclear, biological, chemical or radiological attack.

This does include advanced purchasing and pre-positioning in preparation for disaster.

State and local government entities means: the states of the United States, counties, municipalities, cities, towns, townships, tribal governments, public authorities (including public or Indian housing agencies under the United States Housing Act of 1937), school districts, colleges and other institutions of higher education, council of governments (Incorporated or not), regional or interstate government entities, or any other agency or instrumentality of the preceding entities (including any local educational agency or institution of higher education), and including legislative and judicial departments.

2. LOWEST PRICED MODEL NUMBER and PRICE for EACH SIN:

- 246-35(1):** Inkjet External PIN \$0.05
- 246-42(1):** ADACKBPC2000-AME \$4.52
- 246-1000:** Technician I \$50.00
- 246-51:** General Labor \$39.00
- 246-52:** Billing and Finance \$52.00
- 246-60(1):** Administration \$52.00

3. MAXIMUM ORDER

- GUIDELINE: 246-35(1):**
\$100,000
- 246-42(1):** \$150,000
- 246-1000:** \$150,000
- 246-51:** \$200,000
- 246-52:** \$200,000
- 246-60(1):** \$200,000

4. MINIMUM ORDER GUIDELINE: \$100

5. GEOGRAPHIC COVERAGE: 50 States, Washington, DC, US Territories

6. POINTS OF PRODUCTION: Bangladesh, Canada, Germany, Great Britain, Hong Kong, Ireland, Israel, Japan, South Korea, Mexico, Netherlands, Taiwan, United States

7. DISCOUNT FROM LIST PRICES: All prices herein are NET, discount has been taken.

8. QUANTITY DISCOUNTS: None

9. PROMPT PAYMENT TERMS: Net 30 Days

10. GOVERNMENT PURCHASE CARDS: Accepted below, at and above the micro-purchase threshold.

11. FOREIGN ITEMS: N/A

12a. TIME OF DELIVERY: 30 days after receipt of order

12b. EXPEDITED DELIVERY: Consult with Contractor

12c. OVERNIGHT AND 2-DAY DELIEVRY: Consult with Contractor

12d. URGENT REQUIREMENTS: Consult with Contractor

13. FOB POINT: FOB Destination, N/A Services

14a. ORDERING ADDRESS: **APL Access and Security, Inc.**
115 S. William Dillard Drive
Gilbert, AZ 85233-5525
Phone: 480.497.9471
Fax: 480.497.9371

14b. ORDERING PROCEDURES: For Supplies and Services, the ordering procedures and information on Blanket Purchase Agreements (BPAs) are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. PAYMENT ADDRESS: Same as ordering address

15. WARRANTY PROVISIONS: Standard Commercial Warranty

16. EXPORT PACKING CHARGES: N/A

17. TERMS AND CONDITIONS OF GOVERNMENT PURCHASE CARD ACCEPTANCE: No additional discounts are offered.

18. TERMS AND CONDITIONS OF RENTAL, MAINTENANCE AND REPAIR (IF APPLICABLE): N/A

19. TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE): Installation is available under SIN 246-1000, 51, 246-60 (1)

21. TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICES (IF APPLICABLE): N/A

22. TERMS AND CONDITIONS FOR ANY OTHER SERVICES (IF APPLICABLE): See page 10 SIN 246-60 (1) Security Convergence

23. LIST OF SERVICE AND DISTRIBUTION POINTS (IF APPLICABLE): N/A

24. LIST OF PARTICIPATING DEALERS (IF APPLICABLE): N/A

25. PREVENTATIVE MAINTENANCE (IF APPLICABLE): Available under SIN 246-1000, 246-60-1

26. SPECIAL ATTRIBUTES SUCH AS ENVIRONMENTAL ATTRIBUTES (e.g. recycled content, energy efficiency and/or reduced pollutants): N/A

27. SECTION 508 COMPLIANCE FOR EIT: N/A

28. DUNs NUMBER: 18-254-6234

29. REGISTRATION IN SAM DATABASE: Registration is valid.

SPECIAL ITEM NUMBER 246-1000 - ANCILLARY SERVICES

Includes, but is not limited to: services necessary to install the system (from design through start-up), maintain the system (including maintenance agreements, which may not exceed the term of this contract), or training.

Ancillary Service **excludes:**

- Construction (construction is defined as alteration, or repair of buildings, structures, or other real property)
- Architectural Engineering Services (A&E) under the Brooks Architect-Engineers Act as stated in Federal Acquisition Regulation (FAR) Part 36. These services shall be ordered only in accordance with Part 36 and agency procedures, and shall not be included on a GSA contract order as an open market item.
- Personal services.
- Stand-alone services which are applicable to the Service Contract Act (SCA)

Contractors are responsible for the following when performing services under this SIN:

- Contractors may subcontract any ancillary services ordered under this Special Item Number, unless specifically prohibited by the contracting officer issuing the order against the Multiple Award Schedule contract.
- Contractors are responsible for insuring that the scope of work is completed and all warranties are honored.
- Subcontractors must be licensed and bonded, as applicable.
- Compliance with all local laws, regulations, and ordinances are the responsibility of the prime contractor.
- The prime contractor shall accept full responsibility and liability for all work performed by subcontractors, at any level or tier.
- The Government reserves the right to apply liquidated damages whenever the required delivery date is not met.
- Contractors are required to maintain insurance in accordance with Clause 52.228-5, Insurance – Work on a Government Installation.
- Agencies' Scope of Work will inform the Contractor of the required insurance amounts. Clause 52.228-5 is made part of this contract by reference.
- The contracting officer for the ordering agency may insert any agency unique requirements for the job, including employee suitability determination requirements (security checks), into the scope of work.
- Contractor quotations shall specifically detail all products and services with the contract price and provide a single price for services.
- Sales of ancillary services shall not be combined or reported with the product SIN. The

ordering agency is responsible for:

- Defining and issuing the statement of work for ancillary services. Accurate definition of the scope and statement of work is essential to facilitate realistic quotations. The statement of work shall also inform the contractor of any applicable insurance requirements.
- Ordering agencies shall obtain pricing information from the schedule contractors, and will negotiate for ancillary services on an order by order basis, based on complexity and level of effort. Ancillary services shall be priced as separate line items on each order.

- Pricing of services has been determined fair and reasonable by GSA. However, ordering agencies shall make a determination that the total price is fair and reasonable based on the level of effort and the mix of labor proposed.
- Ordering agencies will comply with all appropriation laws and ensure that the correct types of funds are obligated on each order.

Reference FAR 8.4 for an explanation of ordering procedures used when purchasing through a Multiple Award Schedule contract.

All proposed services must be within the scope of this SIN on the contract. Furnish a full and detailed description of the services offered and a pricing proposal in accordance with the Services Pricing Proposal (page 03-10) of the solicitation.

OFFERORS MAY ONLY OFFER THIS SPECIAL ITEM NUMBER IN CONJUNCTION WITH SYSTEMS OFFERED UNDER THIS SCHEDULE. THE PRINCIPAL PURPOSE OF THIS SCHEDULE IS FOR THE PURCHASE OF ALARM AND SIGNAL SYSTEMS/FACILITY MANAGEMENT SYSTEMS.

| |
|---|
| <p>SIN 246-51 - INSTALLATION REQUIRING CONSTRUCTION (If you are offering this SIN, review clauses regarding Construction in Appendix 1 of this Attachment)</p> |
|---|

INCLUDES: Installation that requires construction.

Note: Ancillary services involving installation which do not meet the definition of construction as defined in FAR 2.101 shall be covered under SIN 246-1000.

Note: This SIN specifically EXCLUDES Architectural Engineering Services (A&E) under the Brooks Architect-Engineers Act as stated in Federal Acquisition Regulation (FAR) Part 36. These services shall be ordered only in accordance with Part 36 and agency procedures, and shall not be included on a contract order as an open market item.

Contractors are responsible for the following when performing services under this SIN:

- Contractors must comply with Construction Clauses and Davis-Bacon Regulations. The clauses shown in Appendix 1 to Attachment 3 of this solicitation will apply to agency orders placed against the schedule contract.
- Compliance with all local laws, regulations and ordinances are the responsibility of the GSA prime contractor. The prime contractor shall accept full responsibility and liability for all work performed by subcontractors under a resultant contract.
- Contractors shall review the statement of work issued by the ordering agency and provide a separate quote for services to be performed under this SIN based on the ordering agency's requirements. Should the contractor not be able to meet requirement(s) in the statement of work, the contractor's quote must specifically identify the items which have not been included in the quoted price.
- Contractors must provide bonding and insurance as required by the ordering agency's statement of work.
- Contractors may serve as a prime contractor and subcontract any services, including installation or site preparation, unless specifically prohibited by the ordering contracting officer. Subcontractors must comply with any licensing and bonding requirements specified in the statement of work.
- The contractor shall be responsible, accountable and liable for all work performed, including work performed by subcontractors (at all tiers), and for ensuring the work performed is completed in accordance with the ordering agencies statement of work.

- The contractor shall ensure all warranties are honored. All construction work must be guaranteed for any defect in workmanship and materials.
- The Government reserves the right to apply liquidated damages whenever the required delivery is not met in accordance with clause 52.211-12, Liquidated Damages – Construction.

When placing orders for services under this SIN, Ordering Agencies shall follow the procedures at FAR 8.405: The ordering agency is responsible for:

- Complying with all Federal Appropriation Laws and ensuring the correct types of funds are obligated on the order.
- When construction, alteration or repair of public buildings or public works is to be performed under this SIN, Ordering Agencies must comply and ensure contractor compliance with the Construction Clauses and Davis-Bacon Regulations. See Appendix 1 of the GSA solicitation for a complete listing of the FAR and GSAM Clauses incorporated by reference for all schedule contractors awarded this SIN. Ordering agencies shall utilize these clauses as a guideline and shall incorporate the applicable clauses into the statement of work for orders issued against the Federal Supply Schedule contract. The ordering agency is responsible for including the most current version of these clauses and any other applicable clauses into the order. Clauses which require "fill-ins" shall be completed by the ordering agency. Any agency specific clauses which may apply based on agency regulations or requirements shall be incorporated in the agency task order.
- Defining and issuing the statement of work for services, including installation and site preparation. It is essential that the ordering agency's statement of work includes an accurate description of the work requirement to facilitate realistic quotations.
- The statement of work shall clearly inform the contractor of all bonding requirements and any required insurance amounts.
- The ordering agency will provide the local Davis-Bacon wage rates to contractors. Applicable wage determinations will be incorporated into the statement of work and resulting task order.
- Reviewing quotations from schedule contractors to ensure the work proposed meets the statement of work requirements. The ordering agency should request the contractor to submit fixed price quotes to perform the services.
- The ordering agency shall evaluate all responses received using the evaluation criteria provided to the schedule contractors. The ordering agency is responsible for considering the level of effort and the mix of labor proposed to perform a specific task being ordered, and for determining that the total price is reasonable.
- Performance clauses shall be modified for each job by the ordering agency.
- Administration of orders issued under this Special Item Number.
- All orders and payments must be made to the schedule contractor or their designee. Example: A contractor may designate a participating dealer to receive payment.

All proposed services must be within the contract scope. Furnish a full and detailed description of the services offered and a pricing proposal in accordance with the Services Pricing Proposal (See Pricing Proposal Attachment to this solicitation) of the solicitation. Upon award, the contract will specifically state those services accepted for this SIN.

OFFERORS MAY ONLY OFFER THIS SPECIAL ITEM NUMBER IN CONJUNCTION WITH SYSTEMS OFFERED UNDER THIS SCHEDULE. THE PRINCIPAL PURPOSE OF THIS SCHEDULE IS FOR THE PURCHASE OF ALARM AND SIGNAL SYSTEMS/FACILITY MANAGEMENT SYSTEMS.

| |
|--|
| SIN 246-52 - PROFESSIONAL SECURITY/FACILITY MANAGEMENT SERVICES, AND SIN 246-60 (1) – SECURITY CONVERGENCE SERVICES |
|--|

Includes, but is not limited to:

SIN 246-52: Security Consulting/Training and Facility Management Consulting. Professional Services offered under this SIN shall be for the support of security systems (including access control, intrusion alarms, fire alarm systems, etc.) and Facility Management Systems (including security and energy management) only. Excludes personal services.

SIN 246-60-1: Security Systems Integration and Design Services. Services involving the security integration and/or management discipline which supports security products or systems through their life cycle. Security systems integration and design services may include, but are not limited to those associated with the design, test, production, fielding, sustainment, improvement of cost effective security and/or protection systems including the eventual disposal or salvage of these systems. Services may include studies and analysis such as - risk assessment, threat evaluation, and assessment (including resultant deliverables). Contractors may provide security or protection expertise in the pre-production or design phase of security or protection systems to ensure that the system can be supported through its life-cycle and that the infrastructure elements necessary for operational support are identified and acquired. These services may continue through the life cycle of the system or product and may include guidance, assistance and/or operational support. This includes all necessary security management elements.

Offerors should submit their method of commercial pricing for any proposed professional services. The Government anticipates award based on the offeror's commercial pricing policies. Other pricing methods may be evaluated.

Tasks for these and related services may be ordered. Orders shall be placed in accordance with FAR 8.4 – Federal Supply Schedules.

Prime contractors may subcontract services ordered under this Special Item Number unless specifically prohibited by the contracting officer issuing the delivery order against this Multiple Award Schedule contract. The prime contractor shall be responsible, accountable, and liable for all work performed by any subcontractor, level, or tier.

Administration

Functional Responsibilities:

Contract Administration, Accounting which includes; receivables, payables, invoicing, corporate finance, insurance, safety, and administrative contract paperwork. Contact person for projects, U.S. Government projects. Shipping and receiving, answering phones, parts ordering, assisting account reps as required, contract processing and creation, research and coordinate insurance coverage, etc.

Performs administrative duties where assignments require substantial interpretation, judgment or discretionary action.

Education and General Experience: High school diploma and 2 years general administrative experience required.

CAD/Design Engineer

Functional Responsibilities:

Project Design and Engineering. CAD Design. Take-Offs. Submittals. O&M Manuals. Point-to-Point Drawings. Project Specs. Read and label project prints.

Education and General Experience: Associate's degree or equivalent experience of 5 years in the physical security field and demonstrated proficiency in required CAD software package.

IT Systems Integrator

Functional Responsibility:

Manages a broad range of hardware and software development project and the translation of design specifications into an application meeting stated performance criteria. Participates in testing, redesign, debugging, and software refinements to produce the required product. Supervises the preparation of required technical documentation and reports, including both program-level and user-level documentation. Creates either mechanical, electrical or software enhancements to reduce operating time or improve efficiency. Leads the modification of legacy systems and software as well as develops the concept for special-purpose applications to ensure efficiency and integrity between systems. Implements the requirements for design, programming, documentation and implementation of hardware and software applications that requires knowledge of legacy technologies and systems for effective development and deployment of new and redesigned systems and supporting software. Manages and supervises all phases of hardware and software development with emphasis on analysis, design, packaging, producibility, coding, testing, documentation, and acceptance. The person ensures the application of new and emerging technologies to support strategic planning initiatives required to meet customer needs. Leads assessments, evaluations, selections, site surveys, requirements analysis and definition, technology prototyping, and cost analysis related to the application of new technologies. Organizes and manages the preparation of technical reports and documentation to record results.

Education and General Experience: The qualified individual shall have a Bachelor's degree in computer science, information systems, telecommunications, business or other related analytical, scientific or technical discipline. The minimum/general experience may be reduced by two (2) years for a Master's degree in a technical discipline. An additional two (2) years of experience over and above the minimum/general requirement can be substituted with an Associates degree. An additional four (4) years experience can be substituted over and above the minimum/general requirement without a degree. This additional experience must be gained from a combination of education, training, or certification (technical diploma) that provides the requisite knowledge, skills, and abilities. Individuals shall have acquired the education and experience in one or more of the following areas of specialization:

Electronics

Systems Engineering
Telecommunications
Network Security
Network Modeling/Simulation
Enterprise Systems
Encryption Technology
Information Engineering
Systems Integration
Software Engineering

Project Manager

Functional Responsibilities:

Manage technical and schedule performance of work teams under the direction of a program manager. May act as program manager on small short term projects. Functional Responsibilities: Serves as a technical manager, and the clients authorized representative, government management personnel and agency representatives. Responsible for providing technical and managerial leadership of a major program in a specialized area of technology and overall task performance. Basic responsibilities include:

1. Ensuring appropriate staffing required for major programs, projects and tasks.
2. Managing and tracking programs, projects and tasks.
3. Developing subordinate personnel for programs, projects and tasks.
4. Leading a program, project or task by outlining, assigning and co-ordination work.
5. Scheduling and allocating work, providing advice and guidance, and resolving problems to meet technical performance and financial objectives.
6. Developing new and refining existing processes to enhance quality and productivity.
7. Reviewing and evaluating work of staff and preparing periodic performance reports.
8. Ensuring the product quality and timeliness of installations

Education and General Experience: Minimum two years experience as lead technician and additional two years experience in technical management

Quality Assurance Manager

Functional Responsibilities:

Check for quality control on all projects for installation quality of equipment and materials, how the wire was ran. Walk through with customer and create punch list for items that need to be fixed or adjusted. Review project acceptance and completion sheet with customer. Follow up with customer at future dates to check how everything is going with the work completed and if there are any issues or questions on items.

Education and General Experience:

10 years experience in field work in the security industry.

Senior Technician

III

Functional Responsibilities:

Performs installation, repair, testing and troubleshooting of electronic security equipment and systems, including system infrastructure. Provides on-site direction to security technicians I and II in completion of installation tasks.

Education and General Experience: Minimum 4 years experience in electronic physical security installation and/or service, proficiency in equipment troubleshooting, and completion of manufacturers training programs as required for the specific project. Certified in at least 4 of major security systems.

Systems Engineer

Functional Responsibilities:

Engineers electronic physical security systems based on contract requirements, site conditions, and manufacturer specifications and building codes. Verifies system design concept and equipment required for complex, multi-site systems. May supervise other security engineers and draftspersons. Must possess strong organizational skills and strong interpersonal skills to understand client requirements. Functional responsibilities: applies engineering skills in the analysis, specification, development, integration, production, testing, and acquisition of systems and components. Evaluates and recommends commercial off the shelf (COTS) applications and products. Prepares electrical schematics, mechanical layouts, and wiring diagrams; develops design solutions and prepares relevant procurement and design documentation. Implements performance and technical standards and conducts appropriate tests to assess and validate system performance. Develops block diagrams and logic flow charts. Assists in the management of projects including preparation and delivery of presentations. Oversees Security Designers and Draftspersons. Assists in the end user training and on-going technical support as needed.

Education and General Experience: Bachelor's degree or equivalent experience of 5 years plus four years experience in physical security or a closely related field.

Technician I

Functional Responsibilities:

Performs installation, repair, testing and troubleshooting of electronic security equipment and systems including system infrastructure. Works mainly under supervision. High School diploma required. Functional Responsibilities: pull cable, install designated field devices, assist the technician 2 and lead tech as required.

Education and General Experience: High School diploma required.

Technician II

Functional Responsibilities:

Performs installation, repair, testing and troubleshooting of electronic security equipment and systems including system infrastructure. Able to read and follow installation drawings and work independently. High school diploma plus 2 years experience in electronic physical security installation and/or service and completion of manufacturers training programs as required for the specific project. Functional Responsibilities: install devices, manage Tech 1 staff, make terminations, program systems, and train users.

Education and General Experience: High school diploma plus 2 years experience in electronic physical security installation and/or service and completion of manufacturers training programs as required for the specific project. Certified in at least 2 major security systems.

Corporate Capabilities Statement

Who We Are:

APL Access & Security, Inc specializes in all aspects of Security Systems Integration in Access Control, CCTV/IP Video, Door Hardware, and Security Systems Technology Integration, including Engineering/Design, Sales, Installation, Service, and Repair. APL is committed to providing cutting-edge security, security technology, and superior customer service to commercial, industrial, and government clients. APL currently holds a GSA Schedule 84 Contract #GS-07F-0017V, and is also UL 2050 Certified.

-APL is headquartered in Gilbert, Arizona with a 13,000 sq. ft. state of the art facility that allows us to provide our customers with a wide array of product demos and information.

-APL Toll Free: 866-873-2288

-For Service please email: service@aplsecurity.com For Sales: sales@aplsecurity.com For Tech Support: support@aplsecurity.com

-APL Tucson: APL opened its fully staffed 7,000 sq. ft. facility in Tucson, Arizona in January of 2007. APL Tucson will be leading the Southern Arizona Region in Security Integration for Commercial and Government entities. APL Tucson is located at: 3400 East Global Loop, #170 Tucson, Arizona 85706 Phone: 520-294-9471

Expertise:

APL has over 25 Years of business excellence and provides a full array of leading edge security technology and services. As a leading security integrator covering the entire State of Arizona as well as internationally for U.S. Federal Government Projects, our staff of over 30 full-time employees, including teams of highly-skilled, factory certified security experts can handle simple to complex applications. APL does not subcontract any of our work as we have our own local in-house Systems Engineers, Technicians, Installers, CAD Designers, Project Managers, and Administration with many years of hands-on experience. Our Service Technicians & Technical Support is available 24 hours a day, 7 days a week for live technical support and on-site emergency service.

| 246 35 1 | DSX-DP232 | DSX | RS-232 Data Surge Protection Module - Single unit price per each, used in pairs. | US | \$103.38 |
| 246 35 1 | DSX-DP485 | DSX | RS-485 Data Surge Protection Module - Single unit price per each, used in pairs. | US | \$103.38 |
| 246 35 1 | DSX-FRB8 | DSX | Fused Relay Board provides 8 Form-C relay outputs fused at 1A. Each relay has a 1A fuse in line with the common terminal. The module requires a constant +12V and a switched negative for activation of each relay. Connects to the open collector 2nd outputs of the 1042/44 and mounts in the expansion slot of the 1040E enclosure. | US | \$137.83 |
| 246 35 1 | DSX-HSCS | DSX | Hot Swap Comm Server Software. The DSX-HSCS program manages the operation of a Redundant Comm Server PC for the WinDSX SQL Software. It allows two Comm Servers (the primary and backup PCs) to be online and ready at all times. The HSCS software monitors the Primary Comm Server and when it fails brings the Backup Comm Server online in its place. For SQL Only. The SQL Server program must be run on a separate PC or cluster of PCs. The Hot Swap Software is only available with the WinDSX SQL software. This feature must be enabled in the DSX Features Key used for the SQL Software. Contact DSX to Coordinate Hot Swap Key Requirements. | US | \$4,824.18 |
| 246 35 1 | DSX-LAN | DSX | Auto-sensing 10/100BaseT communications interface for DSX Controllers powered from DSX Controller with 12VDC at 300ma. (This is the LAN only) | US | \$206.75 |
| 246 35 1 | DSX-LAN(M) | DSX | Auto-sensing 10/100BaseT communications interface for DSX Controllers powered from DSX Controller with 12VDC at 300ma. (This is the LAN only). Same interface but with Dialup Modem backup capability. Requires DSX Modem – Not included. Works for PC to Master Communications. | US | \$516.88 |
| 246 35 1 | DSX-MCI | DSX | Single Channel RS-232 to RS-485 Converter | US | \$96.48 |
| 246 35 1 | DSX-MUX | DSX | 6 Channel RS-232 Communications Mux | US | \$237.76 |
| 246 35 1 | DSX-OX4 | DSX | This Output Extender provides 4 – Form C relay outputs fused at 1A each. This Module communicates via RS-232 or RS-485 and can be connected to any DSX-1022 and DSX-1042 Slave Controller. This module can also be connected to a serial port on the Comm Server and controlled with the ASCII output from input alarms and status change. The OX4 operates only with Slave Controllers. | US | \$220.53 |
| 246 35 1 | DSX-RKM | DSX | ReadyKey/PAC Reader Interface, 2 readers | US | \$103.38 |

| SIN | PART NUMBER | MANUFACTURER | DESCRIPTION | CoO | GSA NET |
|----------|-----------------|--------------|---|-----|------------|
| 246 35 1 | DSX-SPS | DSX | Serial Port Switcher. The DSX-SPS is the hardware required to switch physical serial port connections from the Primary Comm Server PC to the Backup Comm Server PC. The DSX-SPS consists of a DSX-1040E rail mount enclosure, DSX-1040 PDP, the DSX-SPST serial port switch trigger module, and a single DSX-2PC two port controller. The DSX-SPS provides everything necessary to switch two comm ports. For more than two Comm Ports use additional DSX-2PCs. The Hot Swap Software is only available with the WinDSX SQL software. This feature must be enabled in the DSX Features Key used for the SQL Software. Contact DSX to Coordinate Hot Swap Key Requirements. If communications to all Location Master Controllers is performed using TCP/IP there is no additional hardware required. Master Controllers with LAN communications that are configured for a dynamic connection will automatically communicate to the Backup Comm Server. If Direct Serial Ports connections and/or Dial-up Modems are used for Location Master Controller communications a DSX-SPS Serial Port Switcher is required. The Backup Comm Server must have the same number of serial ports as the the Primary Comm Server plus 1 additional serial port for the connection to the DSX-SPST Serial Port Switch Trigger Module. | US | \$1,309.42 |
| 246 35 1 | DSX-TDM | DSX | Time Display Module (TDM) 4 Digit, 1 inch LED TDMs work between the PC and Master using a Direct or LAN connection, or on any Slave Controller. | US | \$237.76 |
| 246 35 1 | DSX-TDM5 | DSX | Time Display Module - LARGE (TDM) 4 Digit, 5 Inch LED Requires 16.5V Transformer (sold separately). TDMs work between the PC & Master using a Direct or LAN connection, or on any Slave Controller. | US | \$861.46 |
| 246 35 1 | DSX-USB | DSX | Single Channel USB to RS-232/485 communications interface. Comes with removable terminal blocks & 36 inch USB Cable. 12V | US | \$120.60 |
| 246 35 1 | DVR Integration | DSX | Digital Video Recorder Integration can be enabled as a feature in the DSX Soft Key. With the Soft Key installed at the Comm Server, the DVR integration is available at all WinDSX Workstations. For more information see page 11. The DSX Features Key with DVR Integration enabled comes with a driver disk that has some of the drivers available from DSX. Most drivers must be obtained from the DVR manufacturer. | US | \$1,137.13 |

| SIN | PART NUMBER | MANUFACTURER | DESCRIPTION | CoO | GSA NET |
|----------|---|--------------|---|-----|------------|
| 246 35 1 | Export Names | DSX | Card Holder Data Export - This program will export Card Holder data in a separate text file for each location group. Each file will be located in the same directory that this program is run from and will be named Names#.txt. The # sign will be the location group number. The fields are tab separated and the first line is the name of each field Feature is compatible with Microsoft Access & SQL versions of WinDSX. | US | \$482.42 |
| 246 35 1 | Kone Elevator | DSX | Special Drivers: (Add To The Base Cost of Soft I/O) Kone Elevator High Level Interface: Cost per Landing (per Cab specific Floor Select Button) | US | \$42.73 |
| 246 35 1 | MOV22 | DSX | 12 Volt MOV Lock Surge Suppressor Bag of 100 only | US | \$61.20 |
| 246 35 1 | MOV38 | DSX | 24 Volt MOV Lock Surge Suppressor Bag of 100 only | US | \$61.20 |
| 246 35 1 | PC Master | DSX | Allows for LAN communications to each Slave or cluster of Slave Controllers instead of just the Master Controller. This software allows a PC to emulate a Master Controller of a single location and communicate with slave panels using TCP/IP over a LAN/WAN. This is not required for typical PC to Master Controller communications using TCP/IP and a DSX LAN module. The Comm Server communicates to the PCM over the LAN. It downloads the Location data to the PCM as if it were a Master Controller. The PCM then communicates and Polls the Slave panels just like a Master Controller. The only difference is the Slave Controllers are connected to the Network using LAN Serial Devices such as the DSX LAN module. The PCM can communicate with up to 63 Slave controllers each with its own LAN connection or multiple Slave Controllers can be connected to the same LAN serial device. The PCM supervises the communication to these LAN Slave panels and performs all global communication duties such as Linking and Anti-Passback. Each PCM represents 1 Location. Multiple PCM can be used to represent Multiple Locations with diverse LAN and serial port connected controllers. This Now Runs As A Service. | US | \$0.00 |
| 246 35 1 | ResourceCD | DSX | DSX Technical documents on USB. This USB contains all DSX documents in PDF format and all drawings in Visio file format. Sample Reports and help projects are also included on the USB. (Yes - Old Part Name on New Medium.) | US | \$51.69 |
| 246 35 1 | SIA/6500 Automation Interface from Digital Receiver | DSX | Special Drivers: (Add To The Base Cost of Soft I/O) SIA/6500 Automation Interface from Digital Receiver | US | \$1,206.05 |
