CUSTOMER INFORMATION

1a. Special Item Numbers

SIN 246 01 Smart Buildings Systems Integrator “New” - Includes the comprehensive integration of building systems and technology using a non-proprietary and open architecture. Typical building systems to be integrated include: building automation, life safety, telecommunications, facilities management, security, energy and environmental control, HVAC, lighting, building envelope, access control, power management, cabling infrastructure/wireless, VOIP, video distribution, video surveillance, data network, etc. Typical integration functions include, but are not limited to: requirements analysis, strategic systems planning, system configuration, implementation alternatives, integration planning, system component acquisition, component integration, testing and analysis, interaction with Building Operations Centers, collection/manipulation of smart building component data, configuration management and control, design-guide development, operational training and support, monitoring, reporting and managing of the systems, and systems maintenance.

SIN 246 1000 Security, Alarm & Signal Systems – Ancillary Supplies and/or Services – Ancillary supplies and/or services are support supplies and/or services which are not within the scope of any other SIN on this schedule. These supplies and/or services are necessary to compliment a contractor’s offerings to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this schedule. ***This SIN EXCLUDES purchases that are exclusively for supplies and/or services already available under another schedule.***

SPECIAL INSTRUCTIONS: ***The work performed under this SIN shall be associated with existing SIN(s) that are part of this schedule. Ancillary supplies and/or services shall not be the primary purpose of the work ordered, but be integral part of the total solution offered. Ancillary supplies and/or services may only be ordered in conjunction with or in support of supplies or services purchased under another SIN(s) of the same schedule. Offeror may be required to provide additional information to support a determination that their proposed ancillary supplies and/or services are commercially offered in support of one or more SIN(s) under this schedule.***

SIN 246 42 2 Facility Management Systems – Including Accessories and Repair Parts, Computerized Systems for Surveillance, Monitoring, Controlling, Signaling and Reporting Multiple Functions, Energy and Facility Management Functions and Services, Building Automation Control systems (including lighting, HVAC controls and sensors), Building Comfort Systems (including heating, ventilation, air conditioning and chillers).
