On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!®, a menu-driven database system. The INTERNET address GSA Advantage!® is: GSAAdvantage.gov.

Multiple Award Schedule
Code I: Scientific Management and Solutions
I05. Search and Navigation Subcategory

Code G: Miscellaneous
G06. Complimentary SINs Subcategory

Contract number: GS-07F-0069U

For more information on ordering from Federal Supply Schedules go to the GSA Schedules page at GSA.gov.

Contract period: November 01, 2017 through October 31, 2022
Pricelist current through Supplement # PS-0078, effective June 27, 2022

Leica Geosystems Inc.
5051 Peachtree Corners Circle Suite 250
Norcross, GA 30092
Phone number: (770) 326-9500
Fax number: (770) 447-0710
Web Site: www.leica-geosystems.com

Contract Administration: Andrew Hurley
Phone: 770-326-9551
Email: andrew.hurley@leicaus.com

BUSINESS SIZE: Large Business
CUSTOMER INFORMATION

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s):

<table>
<thead>
<tr>
<th>SIN</th>
<th>SIN Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>334511</td>
<td>Search, Detection, Navigation, Guidance, Aeronautical and Nautical Systems and Instruments</td>
</tr>
<tr>
<td>OLM</td>
<td>Order-Level Materials (OLM)</td>
</tr>
</tbody>
</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply:

<table>
<thead>
<tr>
<th>SIN</th>
<th>PRODUCT NAME</th>
<th>Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>334511</td>
<td>CCP for Leica Cyclone - Server-Client (1yr)</td>
<td>$142.67</td>
</tr>
</tbody>
</table>

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item: N/A

2. Maximum order:
   Special Item Number (SIN) 334511: $250,000
   Special Item Number (SIN) OLM: $250,000

   *Ordering activities may request a price reduction at any time before placing an order, establishing a BPA, or in conjunction with the annual BPA review. However, the ordering activity shall seek a price reduction when the order or BPA exceeds the simplified acquisition threshold. Schedule contractors are not required to pass on to all schedule users a price reduction extended only to an individual ordering activity for a specific order or BPA.

3. Minimum order: $100

4. Geographic coverage (delivery area): Domestic

5. Point(s) of production (city, county, and State or foreign country):
   Leica Geosystems, Inc.
   5051 Peachtree Corners Circle Suite 250
   Norcross, GA 30092

6. Discount from list prices or statement of net price: Government Net Prices (discounts already deducted.)

7. Quantity discounts: Not Applicable
8. **Prompt payment terms:** Net 30 Days

9. **Foreign items:** Not Applicable

10a. **Time of delivery:** 30 Days ARO

10b. **Expedited Delivery:** 20 Days ARO

10c. **Overnight and 2-day delivery:** To be negotiated with the ordering agency on each task order.

10d. **Urgent Requirements:** Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery. To be negotiated with the ordering agency on each task order.

11. **F.O.B. point(s):** Destination

12a. **Ordering address(es):**
Leica Geosystems, Inc.
Attn: Andrew Hurley
5051 Peachtree Corners Circle Suite 250
Norcross, GA 30092

12b. **Ordering procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3:
For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s), are found in the Federal Acquisition Regulation (FAR) 8.405-3

13. **Payment address(es):**
Leica Geosystems, Inc.
Attn: Andrew Hurley
5051 Peachtree Corners Circle Suite 250
Norcross, GA 30092

14. **Warranty provision:** Standard Commercial Warranty. (One year)

15. **Export packing charges, if applicable:** NONE

16. **Terms and conditions of rental, maintenance, and repair (if applicable):** Not Applicable

17. **Terms and conditions of installation (if applicable):** Not Applicable

18a. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable):** Not Applicable

18b. **Terms and conditions for any other services (if applicable):** Not Applicable

19. **List of service and distribution points (if applicable):** Not Applicable

20. **List of participating dealers (if applicable):** Not Applicable
21. Preventive maintenance (if applicable): Not Applicable

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants): Not Applicable

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/: Not Applicable

23. Unique Entity Identifier (UEI) number: QAX4PS4VTD61

24. Notification regarding registration in System for Award Management (SAM) database:
Leica Geosystems, Inc is registered in SAM and the registration is current. CAGE Code: 35643
**SIN DESCRIPTIONS**

**334511 --- Search, Detection, Navigation, Guidance, Aeronautical and Nautical Systems and Instruments** - SUBJECT TO COOPERATIVE PURCHASING – Includes telecommunications equipment and accessories, such as radar (except airborne), underwater, light, and laser equipment.

**OLM --- Order-Level Materials (OLM)** - SUBJECT TO COOPERATIVE PURCHASING – OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs.

OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level.
Company Overview

Capturing, measuring, modeling and mapping spatial information in our three-dimensional world is critical in today’s ever-changing environment. Whether it is for surveying, civil engineering, construction, mining and exploration, or transportation, Leica Geosystems solutions enable customers to complete their work with accuracy, precision, speed and maximum productivity.

With nearly 200 years of pioneering solutions to measure the world, Leica Geosystems instruments, software and systems are trusted by professionals throughout the Americas to help them capture, analyze and present spatial information.

With a tradition of leading-edge innovation, a focus on solving customers’ problems, and a wealth of real-world application expertise, Leica Geosystems provides unique solutions to the geospatial industry.

Markets

- Surveying and Civil Engineering
- Building and Construction
- Excavating and Earth Moving
- Structural Monitoring
- Mining and Exploration
- Transportation
- Assets and Facilities Management
- Rail and Tunneling

Products

- Total Stations
- GPS Systems
- GPS Reference Networks and Software
- Machine Automation Systems
- Mining Solutions
- Digital and Optical Leveling
- Construction Lasers and Layout Tools
- High Definition Laser Scanners
- Aerial Photogrammetry
- Application Software

Service & Support

- Extensive network of Leica Geosystems certified service centers
- Technical training & support center
- Customer Care Program
- Network of local technical support
- Customized local training
Surveying and Civil Engineering

Leica Geosystems provides measuring equipment and software for use in cadastral surveying, such as property boundaries, topographic surveys and land development, as well as for use in civil engineering projects, including building bridges, roads and other critical infrastructure.

Building and Construction

Even on the toughest jobsites, Leica Geosystems construction products enable workers in the construction, building, and surveying fields to measure with accuracy and ease. Whether you’re constructing a highrise building, excavating for laying pipes or setting footings, or moving dirt for site preparation, Leica Geosystems construction tools and 3D machine automation systems are there to work hard and make you more productive.

Structural Monitoring

In today’s environment, security, safety and structural integrity are critical issues facing those organizations entrusted to build and maintain the infrastructure and health of our bridges, dams, tunnels, elevated road systems, and highrise buildings. Leica Geosystems’ solutions enable you to measure, model and analyze movements in real-time 24/7 and from remote locations via the internet. In addition to monitoring man-made structures, natural phenomenon such as earthquakes, volcanoes, landslips and crustal movement can also be measured with extreme accuracy.

Mining and Exploration

Above and below ground, mining activities involve the extraction of huge amounts of natural resources. This process requires precise measurements—for drilling, extraction, hauling, and processing—to maximize the mine’s enormous investment. Leica Geosystems solutions provide measurements for the basis of planning and controlling mine operations in order to improve return on investment. Leica GPS systems are also heavily used in the seismic industry in the exploration for oil and gas resources.

Transportation Infrastructure

Precise measurements are required for the development and maintenance of every country’s infrastructure of roads, bridges, rail systems and tunnels. Surveyors and engineers trust Leica Geosystems instruments and software to provide them with the highly accurate spatial information required to perform their precise work.

Assets and Facilities Management

Geographic spatial information is needed for the laying out and documenting of utility and communication lines, mapping municipal infrastructure, and providing location data for emergency response services. Leica Geosystems systems are used for surveying, remote sensing, mapping and GIS to ensure all the necessary positioning data for infrastructure and assets are contained and managed in a spatial database to support our growing populations.
