PROTECTING AMERICA'S GREATEST ASSETS

Integrated Security Solutions, Inc. (ISS) is a certified HUBZone, Veteran-Owned Small Business (VOSB).

Originally established in 2001 in Whitefish, MT, as an LLC, the managers of ISS have over thirty (30) years of experience in the security industry. The past twelve (12) years have been dedicated to quality design, assembly, testing, installation, checkout, commissioning, inspection, maintenance and management of high-level integrated security systems.

We have experience in the installation, and servicing of electronic asset protection, Closed Circuit TV (CCTV) and Access Control Systems. ISS brings to the table the experience of having installed numerous integrated systems worldwide, consisting of very large and high profile customers.

As a vendor-independent integrator, ISS provides worldwide support to commercial, federal and state government agencies. Our integrated Electronic Security Systems (ESS) consist of combinations of the following: Intrusion Detection Systems (IDS), Video Analytics, CCTV, Access Control Systems (ACS/EECS), Data Transmission Systems (DTS), Intercom, Security Networks, and Physical Security Systems (PSS).

Components are chosen from a range of high quality commercial off-the-shelf products and integrated according to end-user requirements and specifications. All systems are subjected to extensive quality control testing before, during and after installation. ISS also provides complete system documentation and on-site training. ISS has dealership relationships with the largest security equipment and software companies in the industry to provide our customers with a wide variety of integration options.

Our experienced engineering and security professionals can travel and have traveled worldwide to conduct security surveys and make security recommendations for our customers. In addition to our engineering and installation staff, ISS also has the ability to customize the training to meet customer's specific needs on a system-by-system basis.

Our approach to successful project realization is designed to accomplish your goals, both on time and within budget.

ISS has the resources and expertise to provide a complete solution for virtually any security application: from commercial, industrial, governmental and law enforcement facilities, to medical, academic and financial institutions.

With our outstanding capabilities, ISS can give its customer unrivaled integration from a single point of control.

ELECTRONIC SECURITY

Providing integrated electronic security solutions supporting access control, intrusion detection with CCTV alarm assessment and surveillance capabilities, infrared imagery, video content analysis and more to our customers.

PHYSICAL SECURITY

Providing physical security solutions for physical security needs supporting elements such as fences and reinforced fences, crash resistant bollards, gates and reinforced gates, reinforced doors and Department of State rated burglar resistant doors, reinforced windows and window film.

CONSULTING

Providing recommended solutions and advice on security matters taking into consideration issues like operational needs, management security requirements and security management criteria.

DESIGN & ENGINEERING

In accordance with current industrial and governmental security standards, we provide a thorough and complete design analysis. Our analysis identifies critical assets, vulnerabilities and includes recommendations for security improvements. Our design/build team engineers the security system optimal for your needs.

TRAINING

The ISS training philosophy is based on providing your company with the knowledge and skills necessary to operate and manage your security system. Our educators have the advantage of field experience as well as certification in their areas of expertise. We provide standard and customized training courses to meet our customer's needs.

INSTALLATION

With sharp attention to detail and over 25 years of field experience, the ISS professionals work to install accurate and reliable systems. We specialize in integrating access control, intrusion detection, CCTV, communication media, lighting, and physical security subsystems into a complete integrated system that protects your valuable assets. With a perfect safety record, ISS is committed to bringing stability and quality to every job site.

MAINTENANCE

ISS provides a full scope of services and equipment necessary for preventative and emergency maintenance according to your needs. When performing scheduled or emergency maintenance, ISS works to minimize impact on all facility operations.
