13. Payment address: 40 Hudson Street, Suite 112, Annapolis, MD 21401-3158.
14. Warranty provision:

LIMITED WARRANTY

For the warranty period indicated below, Blue Can, (“Manufacturer”), warrants to the purchaser that the Manufacturer will, subject to the Terms, Conditions, and Limitations set forth below, provide replacement water sufficient to replace existing unopened product of the same batch.

TERMS, CONDITIONS, AND LIMITATIONS What This Warranty Covers

This warranty covers drinkability as established by FDA standards and determined by an FDA certified lab. Additionally, this warranty covers manufacturer’s defects in materials and workmanship in the packaging of Blue Can Water, specifically for the aluminum container.

What This Warranty Does Not Cover This warranty does not cover any problems which result from improper transportation or storage based on manufacturer’s recommendations specifically 1) if the product is stored below 34 degrees Fahrenheit (the formation of ice could rupture the container) or above 160 degrees Fahrenheit. 2) if the product in its original package is not stored in a dry location, the cardboard could deteriorate and expose the aluminum cans to oxidation thereby compromising the cardboard packaging and drinkability of the container.

How Long The Warranty Lasts: The coverage of this warranty is fifty years from the date of manufacture.

How To Get Warranty Service In the event the water, in its original container, I determined undrinkable by an FDA Certified laboratory, Blue Can will replace the entire batch of unopened water in the possession of the customer; upon request, Blue Can will replace all water, with drinkable water of equal value.

15. Export packing charges: Not applicable.

16. Terms and conditions of rental, maintenance, and repair: Not applicable.

17. Terms and conditions of installation: Not applicable.

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices: Not applicable.

18b. Terms and conditions for any other services: Not applicable.

19. List of service and distribution points: Not applicable.

20. List of participating dealers: Not applicable.

21. Preventive maintenance: Not applicable.

22a. Special attributes such as environmental attributes: Not applicable.

22b. If applicable, indicate that Section 508 compliance information: Not applicable.

23. Unique Entity Identifier: LGE6GAC7XWT6.

<td>Blue Can Case 50 year water for emergencies, preparedness or disasters</td>
<td>Standard Case Pack of 50 Year Blue Can drinking Water for emergency use, preparedness or disasters; 24-12oz (354.88 ml) units. Cans are made of corrosion resistant aluminum and are hermetically sealed. Blue Can Premium Emergency Water provides long lasting, great tasting, emergency drinking water in aluminum cans as the alternative to short shelf life plastic water bottles. Using a high-tech filtration system including sterilization that, once placed in aluminum cans under pressure, allows our water to stay 99% pure and fresh for decades. Packaging: Water and packaging comply with standards for purified drinking water, with a 50 year shelf life. Blue Can filters and purifies our canned water to less than one part per million of dissolved solids. During the canning process, each can of water is “patent pending” pressurized, removing all oxygen before hermetically sealing for long-term storage. This gives Blue Can products the unique advantage of protection from UV light and all other possible contaminates, making the expiration of the pure water inside a Blue Can proportional to the shelf life of the aluminum container itself. Unlike tin and steel, aluminum cans do not rust. Therefore, Blue Can offers a 50 Year Shelf Life for its pure water products based on state-of-the-art manufacturing processes that exceed standard FDA regulations and bottled water industry standards. Keywords: Blue Can, Blue Can Water, Can Water, Water, Drinking Water, Emergency, 50 Year Blue Can Water, Preparedness and Disaster.</td>
