SERVICES OFFERED

Knight Security Systems designs, installs and services turn-key networked solutions utilizing the latest IP-based technology. Our services include:

- Video Surveillance
- Access Control
- Intrusion Alarm
- Fire Alarm
- Network Infrastructure
- Monitoring Services
- Intercoms
- Service and Maintenance

At Knight Security Systems, we feel our obligation to our client is far more than just the initial installation. Our approach to system design is to fully understand the future needs of our clients and provide an integrated video, access control and intrusion system that is an open architecture platform, expandable and capable of growing as technology advances. The continued serviceability of the system is what drives our on-going client relationships. Knight Security is capable of making sure the system continues to operate through proactive monitoring and maintenance. It is common for Knight to detect an issue before our client becomes aware. Additionally we have the capability to monitor and service existing systems once we inspect and feel confident the equipment will satisfy our clients’ expectations.

Knight’s projects range in size from a single reader or camera to thousands of readers & cameras in multiple campus environments, as well as product-only sales to end users that do their own integration. Our staff is comprised of licensed professional engineers, systems technical professionals and IT network security specialists. Knight and its staff holds many industry certifications including Texas Department of Insurance’s NICET fire license, Texas Department of Public Safety’s Private Security Bureau License, as well as certifications from our favored manufacturers.

SCURGENT-NBH-R

All of the labor categories above consist of a licensed service technician, typically 0-30 years of technical experience, varied product certifications, no formal education required.

SCREMOTE,
SCREMOTE-NBH
SCREMOTE-R
SCREMOTE-NBH-R

All of the labor categories above consist of a licensed service technician, typically 5-30 years technical, programming, and networking experience, product certifications (example: S2, Milestone, OnSSI, Genetec, DMP), some formal education.

INSTALL
Licensed installer typically 0-30 years’ experience, limited technical experience, no system programming required, no formal education required.

SRTECH
Licensed service technician, typically 5-30 years technical, programming, and networking experience, product certifications (S2, Milestone, OnSSI, Genetec, and DMP), and some formal education.

FIRE
NICET certified licensed fire alarm technician typically 5-30 years’ experience, fire code training, product training, inspection training, and no formal education required.
SYSTECH
Licensed service technician, typically 5-30 years technical, programming, and networking experience, product certifications (S2, Milestone, OnSSI, Genetec, DMP), and some formal education.

SYSDESIGN
Licensed security person, typically 5-30 years technical, programming, design, CAD, and networking experience, product certifications (S2, Milestone, OnSSI, Genetec, DMP), and some formal education.

PROJECTMGR
Licensed security person, typically 5-30 years technical and management, advanced product certifications (S2, Milestone, OnSSI, Genetec, DMP), and some formal education.

PROGRAMMGR
Licensed service technician, typically 5-30 years technical and management, advanced programming, and networking experience, advanced product certifications (S2, Milestone, OnSSI, Genetec, DMP), and some formal education.

SOFTWAREDSGN
Licensed security person, typically 5-30 years technical, advanced programming, and networking experience, advanced product certifications (S2, Milestone, OnSSI, Genetec, DMP), ability to write code to interface systems, and some formal education certificate/degree required.
