<td>CVC-PP</td>
<td>Primary Package – Room Control Platform and Camera</td>
<td>Billed by room control platform and nursing station monitor per month on a 36 month term, and includes: o SecureView. SecureView monitors and records bedside activity in the patient’s room. All privacy and access options are determined and configured by the Hospital. o NurseView. NurseView allows Authorized Users to view monitored rooms from the Nurse’s Station. All privacy and access options are determined and configured by the Hospital. Includes Nurse Alerts and Reminders. o Virtual Bed Rails. Virtual Bed Rails allows the hospital to activate a safety module that will notify the nursing station when a patient exits a defined area in the patient bed. o Virtual Chair Rails Virtual nursing station when a patient exits a defined area in the patient room chair. Chair Rails allows the hospital to activate a safety module that will notify the nurse. o Fall Management Program. The CareView Fall Management Program allows the hospital to separately file, identify and research the activity of patients for whom virtual bed rails were engaged. o Ulcer Management Program. The CareView Ulcer Management Program allows the hospital to separately identify and track the movement of patients that are at risk for bed sores. Regular recurring alerts let the nursing station know that movement has/has not taken place within predefined timeframes. o BedView. BedView is CareView Bed Control application. Not only can the nursing, admitting, housekeeping, and other ancillary departments communicate with each other, but when patients are discharged, those areas can SEE into the room to determine if that room is available for patients. CareView places a timer on each room to indicate to all how long that room is out of service. o Sitter Management Program. SitterView helps hospitals reduce the cost of sitters by allowing the hospital to monitor multiple patients with one sitter. o CareView Connect App.</td>
