

**General Services Administration
Federal Acquisition Service
Authorized Federal Acquisition Schedule Price List**

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA-Advantage!TM, a menu-driven database system. The Internet address for GSA-Advantage!TM is: <http://www.gsaadvantage.gov>

**Total Solutions for Law Enforcement, Security, Facilities Management, Fire, Rescue,
Clothing, Marine Craft and Emergency / Disaster Response**

FSC Group: 84

Contract Number: GS-07F-0220V

For more information on ordering from Federal Acquisition Schedules, click on the FAS Schedules button at: <http://www.fss.gsa.gov>

Contract Period: 3/20/2009 - 3/19/2014

**IMMEDIATE
RESPONSE
TECHNOLOGIES**

Manufacturer of TVI & SafetyTech Products

Immediate Response Technologies, Inc.

7100 Holladay Tyler Road

Glenn Dale, MD 20769

Telephone: (301) 352-8800

Fax: (301) 352-8818

www.imresponse.com

Business Size/Status: Small

Prices shown herein are NET (discount deducted).

Pricelist current through Modification A292 dated March 1, 2013

GENERAL CONTRACT INFORMATION

1a. Table of Awarded Special Item Numbers (SINs): *Please refer to [Page #20](#) for a more detailed description*

- 426-4C – Night Vision Equipment
- 426-4F – Emergency Preparedness and First Responder Equipment, Training, and Services
- 426-4J – Target Systems / Target Range Accessories
- 465-22 – Breathing Air Equipment, Inhalator Devices, Respiratory Protection Products, Related Support Items and Solutions
- 567-15 – Hoses, Valves, Fittings, Nozzles, Couplings and Related Accessories

426-4CSTLOC, 426-4FSTLOC, 426-4JSTLOC, 465-22STLOC, 567-15STLOC: *Public Law 110-248, the Local Preparedness Acquisition Act, amended the "Cooperative Purchasing" provisions of the Federal Property and Administrative Services Act to allow the Administrator of General Services to provide states and localities access to certain items offered through [GSA's Federal Supply Schedule 84](#). Products and services available to state and local governments include alarm and signal systems, facility management systems, firefighting and rescue equipment, law enforcement and security equipment, marine craft and related equipment, special purpose clothing, and related services.*

426-4CRC, 426-4FRC, 426-4JRC, 465-22RC, 567-15RC: *Section 833 of the National Defense Authorization Act allows state and local governments to purchase products and services to facilitate recovery from a major disaster. This includes advance and pre-positioning in preparation for a disaster.*

1b. Lowest Priced Model Number and Lowest Price:

Please refer to our pricing starting on [Page #3](#).

1c. Labor Category Descriptions:

Not Applicable

2. Maximum Order*:

**Please refer to FAR 8.404(d) for instructions on placing orders in excess of the Maximum Order Limitation.*

SIN 426-4C, 426-4F, and 426-4J: \$200,000.00 per SIN;
\$600,000.00 per order

SIN 465-22 and 567-15: \$100,000 per SIN

3. Minimum Order:

None

4. Geographic Coverage:

Domestic Only

5. Points of Production:

Glenn Dale, MD and Frederick, MD

6. Discount from List Price:

All Prices Herein are Net

7a. Quantity Discounts:

Please refer to our pricing starting on [Page #3](#).

7b. Volume Discounts:

None offered

8. Prompt Payment Terms:

2.0% 20, Net 30 days

9a. Government Purchase Card *is* accepted at or below the micro-purchase threshold.

9b. Government Purchase Card *is* accepted above the micro-purchase threshold.

10. Foreign Items:

None

11a. Time of Delivery:

SIN 426-4C and 426-4J: 45-60 Days

SIN 426-4F, 465-22, and 567-15: 30-45 Days

11b. Expedited Delivery:

To Be Negotiated with Ordering Agency

11c. Overnight and 2-Day Delivery:

To Be Negotiated with Ordering Agency

11d. Urgent Requirement:

To Be Negotiated with Ordering Agency

12. F.O.B. Points:

Origin

- 13a. Ordering Address: Immediate Response Technologies, Inc.
Attn: Virginia Griffith / GSA Orders
7100 Holladay Tyler Road
Glenn Dale, MD 20769
- 13b. For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPAs), are found in Federal Acquisition Regulation (FAR) 8.405-3.
14. Payment Address: Immediate Response Technologies, Inc.
Attn: Accounts Receivable
7100 Holladay Taylor Road
Glenn Dale, MD 20769
15. Warranty Provision: Please contact Immediate Response Technologies, Inc. for a copy of their commercial warranty. *Restocking fee does not apply to GSA Orders.*
16. Export Packing Charges: Not Applicable
17. Terms and Conditions of Government Purchase Card Acceptance: Government Purchase Card accepted above the micro-purchase threshold.
18. Terms and conditions of rental, maintenance, and repair: Not Applicable
19. Terms and conditions of installation (if applicable): Not Applicable
20. Terms and conditions of repair parts indicating date of parts, price lists and any discounts from list prices: Not Applicable
- 20a. Terms and conditions for any other services (if applicable): Not Applicable
21. List of service and distribution points (if applicable): Not Applicable
22. List of participating dealers (if applicable): Not Applicable
23. Preventative maintenance (if applicable) Not Applicable
- 24a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants.): Not Applicable
- 24b. Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: www.Section508.gov/
25. Data Universal Number System (DUNS) Number: 083510149
26. Immediate Response Technologies, Inc. is registered in the System for Award Management (SAM).

PRODUCT PRICING

SIN	Part Number	Product Name	Description	GSA Price w/ IFF
Thermal / Infrared Targets				
426-4J	05-01-0115-S0	Rotating Thermal Beacon	Rotating Thermal Beacon with Visual (RED) Strobe Light, 115VAC	\$2,845.01
426-4J	05-01-0220	Rotating Thermal Beacon	Rotating Thermal Beacon with Visual (RED) Strobe Light, 220VAC	\$3,930.82
426-4J	0041-NPM-GRN	Passive Target Material	Passive, NO POWER Material (Reverse Polarity Material)- Green, Painted metalized flt that reflects mid and far infrared	\$1.20
426-4J	0041-NPM-TAN	Passive Target Material	Passive, NO POWER Material (Reverse Polarity Material)- Tan, Painted metalized flt that reflects mid and far infrared	\$1.20
426-4J	01-14-0101	1x4 Track	12" x 48" w/one 24" lead, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$19.55
426-4J	01-14-0114	1x4 Engine	12" x 48" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$35.18
426-4J	01-24-0114	2x4 Hull	24" x 48" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$48.87
426-4J	01-24-0101	2x4 Track	24" x 48" w/one 24" lead, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$43.00
426-4J	01-04-0118	2x4 Turret	24" x 48" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$48.87
426-4J	01-26-0114	2x6 Hull	24" x 72" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$62.55
426-4J	01-06-0117	2x6 Turret	24" x 72" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$53.75
426-4J	01-28-0116	2x7 Hull/Turret	24" x 84" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$71.35

SIN	Part Number	Product Name	Description	GSA Price w/ IFF
426-4J	01-20-2201	Lower Road Wheel	24" x 24" mask w/20" dia. circle and one 24" lead, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$42.03
426-4J	01-20-2203	Upper Road Wheel	24" x 24" mask w/20 dia. circle and one 96" lead, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$46.91
426-4J	01-24-2204	Standard Square	24" x 24" w/one 24" lead, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$33.23
426-4J	01-01-0101	E-Type Infantryman	24" x 32" body w/8" x 12" head and one 24" lead, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$38.12
426-4J	01-00-0101	F-Type Infantryman	24" x 8" body w/8" x 12" head and one 24" lead, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$31.27
426-4J	01-01-0101-3D	Insert for 3-D (Ivan), Personnel	12" x 32" body, 8" X 12" head and one 24" lead, Infrared Targets: Standard Voltage (115 volts), Standard Temperature, These targets are constructed with higher resistance materials and are ideal for targets with limited current capacity.	\$42.03
426-4J	01-14-0101-HT	1x4 Track	12" x 48" w/one 24" lead, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$17.59
426-4J	01-14-0114-HT	1x4 Engine	12" x 48" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$23.46
426-4J	01-24-0114-HT	2x4 Hull	24" x 48" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$48.87

SIN	Part Number	Product Name	Description	GSA Price w/ IFF
426-4J	01-24-0101-HT	2x4 Track	24" x 48" w/one 24" lead, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$40.07
426-4J	01-04-0118-HT	2x4 Turret	24" x 48" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$48.87
426-4J	01-26-0114-HT	2x6 Hull	24" x 72" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$62.55
426-4J	01-06-0117-HT	2x6 Turret	24" x 72" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$62.55
426-4J	01-28-0116-HT	2x7 Hull/Turret	24" x 84" w/two 96" leads, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$68.41
426-4J	01-20-2201-HT	Lower Road Wheel	24" x 24" mask w/20" dia. circle and one 24" lead, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$38.12
426-4J	01-20-2203-HT	Upper Road Wheel	24" x 24" mask w/20 dia. circle and one 96" lead, Infrared Targets: Standard Voltage (115 volts), High Temperature - (HT), These targets are constructed with lower resistance materials and are ideal for heat tables, adverse weather conditions, or any situation where a "brighter" thermal signature is desired. These targets consume more power than the standard target.	\$41.05

ABOUT IMMEDIATE RESPONSE TECHNOLOGIES

Immediate Response Technologies (IRT) designs and manufactures the highest quality US-made shelters, respirators, filters, personal protection and life-support products for our military, first receivers, first responders, law enforcement, and government customers. IRT has been ISO 9001:2000 certified. Our product and service offerings include:

- [Decontamination Shelters](#) – Rapid deployment, self-contained systems, allowing multiple lines and stations for ambulatory and non-ambulatory patients to be decontaminated in multiple environments.
- [Chemical and Biological Isolation Shelters](#) – Systems to isolate patients during an incident.
- [Infection Control](#) – Isolation products for infection control for all levels of healthcare.
- [Mobile Hospital Surge Systems](#) – Transportable, rapid-deployment shelter systems that allow healthcare providers to extend bed capacity and reach remote locations.
- [Rapid Deployment Shelter Systems](#) – Systems that deploy with minimal personnel in minutes.
- [Infrared Technology](#) – Both passive and active infrared technology products for marking, targeting, and combat identification (identification of friend or foe).
- [Thermal Targets](#) – Heat-sensing gunnery equipment targets.
- [Personal Protection Equipment](#) – Powered Air-Purifying Respirators (PAPR) and support products.
- [Remote Base Camp Deployment](#) – Controlled environments, services, and facilities for events, support, and relief efforts.
- [Disaster Response Logistics Support](#) – Emergency response logistics services for government and industry during natural or manmade disasters

CONTRACT OVERVIEW

GSA awarded Immediate Response Technologies, Inc. a GSA Federal Supply Schedule contract for Total Solutions for Law Enforcement, Security, Facilities Management, Fire, Rescue, Clothing, Marine Craft and Emergency / Disaster Response (LAW), Contract Number GS-07F-0220V. The current contract period is 3/20/2009 - 3/19/2014. GSA may exercise a total of up to three additional 5-year option periods. The contract allows for the placement of Firm Fixed Price or Time and Materials task orders using the labor categories and ceiling rates defined in the contract.

CONTRACT ADMINISTRATOR

Virginia Griffith, Sales and Business Development Support Manager
Immediate Response Technologies, Inc.
7100 Holladay Tyler Road
Glenn Dale, MD 20769
Telephone: (301) 352-8800 x.218
Fax Number: (301) 352-8818
Email: vgriffith@imresponse.com

MARKETING AND TECHNICAL POINT OF CONTACT

John McMullen, Senior Vice President of Business Development
Immediate Response Technologies, Inc.
7100 Holladay Tyler Road
Glenn Dale, MD 20769
Telephone: (301) 352-8800
Fax Number: (301) 352-8818
Email: jmcmullen@imresponse.com

CONTRACT USE

This contract is available for use by all federal government agencies, as a source for Total Solutions for Law Enforcement, Security, Facilities Management, Fire, Rescue, Clothing, Marine Craft and Emergency / Disaster Response, for worldwide use. Executive agencies, other Federal agencies, mixed-ownership Government corporations, and the District of Columbia; government contractors authorized in writing by a Federal agency pursuant to 48 CFR 51.1; and other activities and organizations authorized by statute or regulation to use GSA as a source of supply may use this contract. Additionally, contractors are encouraged to accept orders received from activities within the Executive Branch of the Federal Government.

SPECIAL ITEM NUMBER (SIN) DESCRIPTIONS

426-4C / 426-4CRC / 426-4CSTLOC – Night Vision Equipment to include Camera Equipment used in conjunction with night vision equipment

426-4F / 426-4FRC / 426-4FSTLOC – Emergency Preparedness and First Responder Equipment, Training, and Services. Includes but not limited to Continuance of Operations Planning (COOP) services, decontamination kits and showers, mass casualty containment trailers, survival/disaster and rapid deployment kits, hazardous material detection equipment and clothing, and emergency response training.

426-4J / 426-4JRC / 426-4JSTLOC – Target Systems / Target Range Accessories to include Shatter Resistant Protective Lenses and Shooters Gloves. THIS SIN DOES NOT INCLUDE FIREARMS OR AMMUNITION.

465-22 / 465-22RC / 465-22STLOC – Breathing Air Equipment, Inhalator Devices, Respiratory Protection Products, Related Support Items and Solutions. SCBA's (self contained breathing apparatus), Air Compressors, Air Filtering Personal Equipment and Emergency Egress Equipment

567-15 / 567-15RC / 567-15STLOC – Hoses, Valves, Fittings, Nozzles, Couplings and Related Accessories. Hoses include cotton, cotton-synthetic and synthetic materials; weeping, single jacket, double jacket and hard line design: Attach Hose, operations hoses and supply hose; large and small diameters; with and without couplings; threaded and quick disconnect couplings. Nozzles: includes all types of water and foam nozzles used to shape and control a firestream for firefighting purposes. Valves/Fittings: Includes wye valves, automatic check and bleeder valves, automatic pressure fuel valves, butterfly valves, horseshoe shut-off valves and all types of fittings. Related Accessories: Includes but not limited to reels, all types of couplings, fittings and accessories used to modify hose streams, fixate and mount nozzles, control water streams, etc.

INSTRUCTIONS FOR PLACING ORDERS FOR SUPPLIES BASED ON GSA SCHEDULE FIXED PRICES

GSA provides a streamlined, efficient process for ordering the supplies you need. GSA has already determined that Immediate Response Technologies, Inc.'s prices are fair and reasonable. Agencies may use written orders; facsimile orders, credit card orders, blanket purchase agreement orders or individual purchase orders under this contract.

Orders under the Micro-Purchase Threshold (\$3,000)
<ul style="list-style-type: none">• Select the contractor best suited for your needs and place the order.
Orders in-between the Micro-Purchase Threshold (\$3,000) and the Simplified Acquisition Threshold (\$150,000)
As required by FAR 8.404, you are required to: <ul style="list-style-type: none">• Review the GSA <i>Advantage!</i> online shopping service, review at least three Schedule contractors' price lists, or obtain quotations from at least three GSA Schedule contractors.• Evaluate, then make a Best Value determination.• Place the order directly with Schedule contractor of your choice.
Orders over the Simplified Acquisition Threshold (\$150,000)
<ul style="list-style-type: none">• Prepare the RFQ (including the SOW and evaluation criteria) and post on eBuy to afford all Schedule contractors the opportunity to respond, or provide the RFQ to as many Schedule contractors as practicable, consistent with market research, to reasonably ensure that quotes are received from at least three contractors.• Seek price reductions.• Evaluate all responses and place the order, or establish the BPA with the GSA Schedule contractor that represents the best value (refer to FAR 8.405-2(d)).• Place your order with the Schedule contractor offering the Best Value.

Preparing a Request for Quote (RFQ)

- Include the SOW and evaluation criteria;
- Request fixed price, ceiling price, or, if not possible, labor hour or time and materials order;
- If preferred, request a performance plan from contractors and information on past experience; and include information on the basis for selection.
- May be posted on GSA's electronic RFQ system, e-Buy

For more information related to ordering services, go to <http://www.gsa.gov/schedules-ordering> and click "Ordering Information". Also see summary guidelines in the [Multiple Award Schedule \(MAS\) Desk Reference Guide, Ordering Procedures.](#)

REQUIREMENTS EXCEEDING THE MAXIMUM ORDER

In accordance with FAR 8.404, before placing an order that exceeds the maximum order threshold, ordering offices shall:

- Review additional schedule contractors' catalogs/price lists or use the "GSA Advantage!" on-line shopping service;
- Based upon the initial evaluation, generally seek price reductions from the schedule contractor(s) appearing to provide the best value (considering price and other factors); and
- After price reductions have been sought, place the order with the schedule contractor that provides the best value and results in the lowest overall cost alternative (see FAR 8.404(a)). If further price reductions are not offered, an order may still be placed, if the ordering office determines that it is appropriate.

Vendors may:

Offer a new lower price for this requirement (the Price Reduction clause is not applicable to orders placed over the maximum order in FAR 52.216-19 Order Limitations.)

- Offer the lowest price available under the contract; or
- Decline the order (orders must be returned in accordance with FAR 52.216-19).

A task order that exceeds the maximum order may be placed with the Contractor selected in accordance with FAR 8.404. The order will be placed under the contract.

Sales for orders that exceed the Maximum Order shall be reported in accordance with GSAR 552.238-74.

BLANKET PURCHASE AGREEMENT

Ordering activities may establish BPAs under any schedule contract to fill repetitive needs for supplies or services. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPAs and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). In determining how many BPAs to establish, consider:

- The scope and complexity of the requirement(s);
- The need to periodically compare multiple technical approaches or prices;
- The administrative costs of BPAs; and
- The technical qualifications of the schedule contractor(s).

Establishment of a single BPA, or multiple BPAs, shall be made using the same procedures outlined in 8.405-1 or 8.405-2. BPAs shall address the frequency of ordering, invoicing, discounts, requirements (*e.g.* estimated quantities, work to be performed), delivery locations, and time.

When establishing multiple BPAs, the ordering activity shall specify the procedures for placing orders under the BPAs.

Establishment of a multi-agency BPA against a Federal Supply Schedule contract is permitted if the multi-agency BPA identifies the participating agencies and their estimated requirements at the time the BPA is established.

Ordering from BPAs:

Single BPA. If the ordering activity establishes one BPA, authorized users may place the order directly under the established BPA when the need for the supply or service arises.

Multiple BPAs. If the ordering activity establishes multiple BPAs, before placing an order exceeding the micro-purchase threshold, the ordering activity shall:

- Forward the requirement, or statement of work and the evaluation criteria, to an appropriate number of BPA holders, as established in the BPA ordering procedures; and
- Evaluate the responses received, make a best value determination (see 8.404(d)), and place the order with the BPA holder that represents the best value.

BPAs for hourly rate services. If the BPA is for hourly rate services, the ordering activity shall develop a statement of work for requirements covered by the BPA. All orders under the BPA shall specify a price for the performance of the tasks identified in the statement of work.

Duration of BPAs. BPAs generally should not exceed five years in length, but may do so to meet program requirements. Contractors may be awarded BPAs that extend beyond the current term of their GSA Schedule contract, so long as there are option periods in their GSA Schedule contract that, if exercised, will cover the BPA's period of performance.

Review of BPAs: The ordering activity that established the BPA shall review it at least once a year to determine whether:

- The schedule contract, upon which the BPA was established, is still in effect;
- The BPA still represents the best value (see 8.404(d)); and
- Estimated quantities/amounts have been exceeded and additional price reductions can be obtained.

The ordering activity shall document the results of its review.
