# Customer Information

**1a. TABLE OF AWARDED SPECIAL ITEM NUMBERS (SIN's):** 873 2 Chemical Testing and Analysis Services

**1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:** See attached price list.

**1c. HOURLY RATES:** See attached price list

**2. MAXIMUM ORDER\*:** \$100,000

\*If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contractor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

**3. MINIMUM ORDER:** \$100.00

**4. GEOGRAPHIC COVERAGE:** Domestic, 50 states, Washington, DC, Puerto Rico, US Territories and to a CONUS port or consolidation point for orders received from overseas activities.

**5. POINT(S) OF PRODUCTION:** N/A

**6. DISCOUNT FROM LIST PRICES:** 20% from the accepted pricelist. (For calculation of the GSA Schedule price (price paid by customers ordering from the GSA Schedule, and the price to be loaded in to GSA Advantage), the final Schedule contract award price is calculated as follows: Negotiated price divided by (1 minus the IFF rate). If the IFF rate is 0.75%, then  $1 - 0.75\% = 1 - 0.0075 = 0.9925$ . The Schedule contract award price is calculated as the negotiated price divided by 0.9925.)

**7. QUANTITY DISCOUNT:** +10% once \$15,000 in testing is achieved in a calendar quarter

**8. PROMPT PAYMENT TERMS:** Net 30

**9a. GOVERNMENT PURCHASE CARDS ARE ACCEPTED UP TO THE MICRO-PURCHASE THRESHOLD**

**9b. GOVERNMENT PURCHASE CARDS ARE/ARE NOT ACCEPTED ABOVE THE MICRO-PURCHASE THRESHOLD**

**10. FOREIGN ITEMS:** None

**11a. TIME OF DELIVERY:** 30 days ARO

**11b. EXPEDITED DELIVERY:** Contact Vendor

**11c. OVERNIGHT AND 2-DAY DELIVERY:** Overnight and 2-day delivery are available. Contact Contractor for rates.

**11d. URGENT REQUIREMENT:** Agencies can contact the Contractor's representative to effect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

**12. FOB POINT:** Destination

**13a. ORDERING ADDRESS:** Same as Contractor

# Customer Information

---

- 13b. ORDERING PROCEDURES:** Same as Contractor
- 14. PAYMENT ADDRESS:** Same as Contractor
- 15. WARRANTY PROVISION:** Standard Commercial Warranty. Customer should contact Contractor for a copy of the warranty.
- 16. EXPORT PACKAGING CHARGES:** N/A
- 17. TERMS AND CONDITIONS OF GOVERNMENT PURCHASE CARD ACCEPTANCE**  
(Any thresholds above the micro-purchase level): N/A
- 18. TERMS AND CONDITIONS OF RENTAL, MAINTENANCE, AND REPAIR:** N/A
- 19. TERMS AND CONDITIONS OF INSTALLATION:** N/A
- 20. TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICES:** N/A
- 20a. TERMS AND CONDITIONS FOR ANY OTHER SERVICES (IF APPLICABLE):** N/A
- 21. LIST OF SERVICE AND DISTRIBUTION POINTS:** N/A
- 22. LIST OF PARTICIPATING DEALERS:** N/A
- 23. PREVENTATIVE MAINTENANCE:** N/A
- 24a. SPECIAL ATTRIBUTES SUCH AS ENVIRONMENTAL ATTRIBUTES** (e.g. recycled content, energy efficiency, and/or reduced pollutants): N/A
- 24b. SECTION 508 COMPLIANCE FOR EIT:** N/A
- 25. DATA UNIVERSAL NUMBER SYSTEM (DUNS) NUMBER:** 09-282-6861
- 26. NOTIFICATION REGARDING REGISTRATION IN CENTRAL CONTRACTOR REGISTRATION (CCR) DATABASE:**  
Registration Valid Until 02/04/2011

# ChromaDex™

has the staff and equipment resources to provide a wide range of contract services for our clients as well as support internal research and manufacturing activities.

## Technical Services

**ChromaDex is pleased to offer a wide range of technical services “from Biomass to Bottle”:**

### Analytical Services

- Identity testing
- Analytical testing
- Contaminant screening
- Stability studies

### Contract Research Services

- Method development and implementation
- Method validation
- Target compound isolation
- Compound synthesis
- Fermentation
- Process development

### Consulting Services

- Litigation support
- Raw material selection
- GMP compliance
- QC/QA program development

ChromaDex is a Natural Products company. Established in 1999 to supply phytochemical reference standards for the dietary supplements industry, we now list over 3000 items in our phytochemical catalog. ChromaDex is the leading provider of high purity phytochemical reference standards and reference materials to the pharmaceutical, nutraceutical, dietary supplement, food and beverage, and cosmetic industries.

Over the past five years, ChromaDex has built a world-class team of scientists, covering every aspect of natural products chemistry. To provide the best possible service to our clients, ChromaDex has concentrated its capabilities into one modern laboratory located in Boulder, Colorado. ChromaDex is a Life Science business that is publicly traded. (OTC stock symbol CDXC.OB)

# Analytical Services

ChromaDex provides a wide range of Contract Analysis. These Contract Services are ideal for companies, teams, and individuals requiring testing of everything from a single raw material to a complex finished product. The work is performed using the latest analytical techniques in our 13,000 square foot Boulder Colorado Laboratory.

## Identity Testing

Provide confirmation of identity utilizing high performance thin layer chromatography (HP-TLC), nuclear magnetic resonance imaging (NMR) or liquid chromatography (HPLC) of:

- Plant species
- Raw material
- Active compounds
- Marker compounds
- Constituents in finished products

## Analytical Testing

Perform complete analytical testing of raw materials or finished products using mass spectrometry, gas or liquid chromatography and/or HP-TLC for:

- Quantification of active compounds
- Verification of label claims
- Product homogeneity

## Contaminant Testing

Offer unique analytical techniques to identify:

- Adulterants
- Analogs
- Microbiological contamination
  - Total aerobic plate count
  - Yeast and mold
  - Listeria
  - Salmonella
  - Pseudomonas
  - Enterobacteriaceae
  - *Staphylococcus aureus*
- Pesticides
- Metals

## Stability Studies

Measure short and/or long term stability of a product using monitored chambers. Duration can be from days to years depending upon client requirements:

- Room temperature
- Accelerated (40° C, 75% relative humidity)
- Custom

# Contract Research Services

## Method Development and Implementation

Having at your finger tips fast, accurate analytical methods is crucial to the success of a company. For example:

- Create customer specific analytical methods using HP-TLC, HPLC, GC, GC/MS, and/or LC/MS instrumentation
- Consolidate methods to allow faster analysis, reducing costly equipment change over and related downtime
- Refine existing customer methods to yield a more accurate and reliable technique
- Implement customer methods in the Boulder Laboratory

## Method Validation

Validating an analytical method is an involved process that is best performed at a qualified laboratory like ChromaDex. Method validation insures the robustness of the method. ChromaDex can:

- Perform a single laboratory validation
- Organize and administer a multiple laboratory validation
- Work with organizations like the Association of Analytical Communities (AOAC) to validate a customer method

## Target Compound Isolation

Isolating or extracting a specific chemical compound or family of compounds is a service that ChromaDex has a wealth of experience in performing. For example:

- Isolate a key compound from biomass or a complex matrix
- Identify side stream compounds of interest during the isolation process
- Separate a specific compound from an intermediate or extract product
- Create a library of compounds from an extraction process for use in high throughput screening

## Synthetic Chemistry

Synthesizing a specific compound can be a more cost effective means of obtaining a consistent material at the required quantities and purity. ChromaDex is uniquely positioned to provide services such as:

- Perform feasibility studies
- Identify economical synthetic routes to achieve end product
- Synthesize the desired final product using low cost intermediate starting materials
- Take an existing synthetic route and reduce the total number of required steps
- Improve yield from a client's synthetic process

---

## Process Development

Utilizing our years of experience and knowledge gained from isolation and synthesis chemistry, ChromaDex has the ability to scale up processes from milligrams to kilograms of material. ChromaDex can:

- Perform feasibility studies
- Identify the most cost effective scale up approach
- Optimize process yields
- Minimize or eliminate impurities or unwanted side stream compounds
- Define and implement scale up parameters

## Fermentation

Employing knowledge and techniques developed as part of a Natural Science Foundation (NSF) funding initiative ChromaDex can now aid clients in exploring fermentation as a high volume production option. For example:

- Has in-house fermentation expertise
- Provide bench scale development capabilities
- Can access large scale fermentation equipment

## Consulting Services

### Litigation Support

Providing expert testimony for over 10 years such as:

- Preparation of technical briefs
- Perform supporting analytical testing
- Provide expert witness testimony

### Raw Material Selection

Using our vast knowledge of natural compounds ChromaDex is uniquely positioned to help our clients get the right raw material at the right price. For example:

- Selecting the best source
- Verifying identity
- Analyzing active compounds
- Accessing a network of raw material suppliers

### GMP Compliance

Complying with GMPs can be a daunting task. ChromaDex can assistance companies to insure they meet both the letter and intent of the law. ChromaDex can:

- Provide consultative audits
- Perform analytical testing from biomass to bottle
- Review documentation and procedures

### QC/QA Program Development

Having a QC/QA program can be a costly but necessary component of a business. ChromaDex provides consulting services to help companies improve the effectiveness of the QC/QA function such as:

- Perform document review
- Create and review SOPs
- Provide independent QC/QA audits

## GC (Gas Chromatography)

- HP 5890 Series II, with auto samplers, split/splitless, injector, FID and TCD
- Agilent 6890 GC with autosampler, split/splitless, FID, and Agilent 5973 Mass Selective Detector
- HP 5890 Series II, with auto samplers, Tekmar 7000 head space analyzer

## MS (Mass Spectrometry)

- Agilent G6510 AA Q-TOF, dual spray ESI
- Agilent 1100 Series LC/MSD Trap (G2445D SL) with direct fusion, ESI and APCI capabilities
- Micromass Quattro Ultima Tandem MS/MS, ESI and APCI capabilities
- Finnigan LCQ Deca ion trap with APCI and ESI ion sources

## HPLC (High Performance Liquid Chromatography)

- Agilent 1100 with quaternary pumps with diode array detectors (twelve), variable wavelength detectors (four), fluorescence detector(one) and ELSD (one) - all are equipped with autosamplers
- Waters Acquity (UPLC)
- Waters Alliance 2795 HPLC
- TSP/SP AS1000 (with autosampler, variable wavelength detector, SpectroFocus detector, forward optical scanning detector, UV detector)
- Dionex HPLC (with Autosampler, UV detector)

## HP-TLC (High Performance-Thin Layer Chromatography)

- Dual CAMAG Automatic TLC Sampler 4
- Alpha Innotech FluorChem 8900 Imaging system with cooled CCD camera (-30 °C absolute) and dual epi-UV at 254 and 365 nm, white light and densitometry capabilities
- CAMAG TLC Scanner 3
- BioLuminizer Imaging system with cooled CCD camera and software

## Prep Scale Chromatography

- Waters Prep LC 2000 with 490E programmable multi-wavelength detector and Gilson 206 fraction collector
- Septeck ST500 with variable wavelength monitor and GP-900 controller
- Merck Novaprep 5000 integrated prep scale HPLC

## Microbiology

- Neogen Soteris 128 System (Incubator/Detector)
- Neogen Genequence Reader/Washer

## Miscellaneous

- Camille Clark Automated Glass Reactors with Sampletek automated sampling units (250 mL and 1L)

## Analytical Related Laboratory Work (Hourly Rate by Equipment Usage)

Service Description	GC (FID)	GC (MS)	HPLC (UV)	HPLC (MS)	HPTLC
Method Development	\$150.00	\$170.00	\$150.00	\$200.00	\$150.00
Method Optimization	\$150.00	\$170.00	\$150.00	\$200.00	\$150.00
Method Validation	\$150.00	\$170.00	\$150.00	\$200.00	\$150.00
Routine Testing	-----See price lists above-----				

## Other Laboratory Related Services

Service	Description	Hourly Rate
Synthesis Research	Research into the synthesis of compounds.	\$150.00
Isolation	Development of analytical protocols for analytical techniques and validation.	\$150.00
QA/QC Data Documentation	Statistical analysis of data integrity, independent data review, documentation (SOP).	\$150.00
Report/Manuscript	Project and financial reporting, article and manuscript preparation for publication	\$150.00
Training (Lecture)	Training activities range in price based on course content (i.e., introductory to advanced).	\$80.00 to \$120.00
Training (Hands-on)	Training activities related to hands-on laboratory work.	\$150.00 to \$200.00

Note: All prices listed above include the 0.75% (three quarters of one-percent) Industrial Funding Fee (IFF).
