25. DUNS number 601750024.
Gunzilla

Gunzilla® BC-10 is specifically engineered to reduce weapon malfunctions in combat and to eliminate the health concerns associated with hazardous weapon cleaners and lubricants. Gunzilla is designed to clean, lubricate and protect a weapon with one formula. This patent pending product is made from natural based materials and contains no water, no petroleum and no hazardous chemicals. It cleans quicker than traditional cleaners, improves weapon reliability, and leaves a non-ionic coating for lubrication and protection. In Iraq, Gunzilla has reduced weapon malfunctions by 75% or more and is considered a life saving product by combat forces.

Copperzilla

Copperzilla™ is designed to remove the most difficult copper and lead fouling quickly. If you shoot solid copper bullets in a long-range rifle, lead slugs in a shotgun, we would recommend you use Copperzilla along with Gunzilla. Copperzilla will remove the most difficult copper and lead from the bore in 30 minutes. Then the weapon is cleaned with Gunzilla and you are done. Copperzilla can be left on any steel, stainless steel or chrome bore without etching the metal. Copperzilla is also made from natural based materials and has virtually no odor and no ammonia. In our field testing Copperzilla was superior to the strongest ammonia based cleaners for removing copper.

Superzilla

Superzilla AP-10 is a penetrating lubricant specifically designed to lubricate, penetrate, clean and displace moisture and protect all metal. It is made from plants and contains no water or petroleum, is non-flammable, non-corrosive and non-hazardous. Superzilla will remove grease, oil, rust, carbon, exhaust stains, permanent marker caulking, ink, pine sap, crayon, stuff marks and adhesive residue. Superzilla has been used in machine shops as a lubricant/coolant for reducing friction and extending cutting tool life. Superzilla leaves a non-ionic coating which does not attract or retain particles. Workers in confined spaces appreciate Superzilla’s low odor. Superzilla has been tested and certified by the USDA as a BioPreferred Product.
