**18. TERMS AND CONDITIONS OF RENTAL, MAINTENANCE, AND REPAIR (IF APPLICABLE):**

Williams Scotsman Standard Lease Warranty applies. See GSA Schedule for additional terms.

**19. TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE):  
SIN 361 32 / 361 32 RC, Installation and Site Preparation for Pre-engineered and Prefabricated Buildings and Structures**

The principal purpose of the Pre-Engineered/Prefabricated Buildings program under Schedule 56 is for the purchase of products meeting the general description of the Special Item Numbers (SIN) within the program. Installation and site preparation services may only be ordered in conjunction with or in support of buildings or structures purchased under this Federal Supply Schedule contract.

Note: This SIN specifically EXCLUDES Architectural Engineering Services (A&E) under the Brooks Architect-Engineers Act as stated in Federal Acquisition Regulation (FAR) Part 36. These services shall be ordered only in accordance with Part 36 and agency procedures, and shall not be included on a GSA contract order as an open market item.

Contractors are responsible for the following when performing services under this SIN:

- Contractors must comply with Construction Clauses and Davis-Bacon Regulations. The clauses shown in Attachment 11 of this solicitation will apply to agency orders placed against the schedule contract.
- Compliance with all local laws, regulations and ordinances are the responsibility of the GSA prime contractor. The prime contractor shall accept full responsibility and liability for all work performed by subcontractors under a resultant contract.
- Contractors shall review the statement of work issued by the ordering agency and provide a separate quote for services to be performed under this SIN based on the ordering agency's statement of work. Should the contractor not be able to meet all requirement(s) in the statement of work, the contractor's quote must specifically identify the items which have not been included in the quoted price.
- Contractors must provide bonding and insurance as required by the ordering agency statement of work.
- Contractors may serve as a Prime contractor and subcontract the installation or site preparation services unless specifically prohibited by the ordering contracting officer. Subcontractors must comply with any licensing and bonding requirements specified in the statement of work.
- The contractor shall be responsible, accountable and liable for all work performed, including work performed by subcontractors (at all tiers), and for ensuring the work performed is completed in accordance with the ordering agencies statement of work.
- The contractor shall ensure all warranties are honored. All construction work must be guaranteed for any defect in workmanship and materials.
- The Government reserves the right to apply liquidated damages whenever the required delivery is not met, in accordance with clause 52.211-12, Liquidated Damages – Construction.

- Sales of the services shall not be combined or reported with the product SIN. Contractors must report sales for installation and site preparation services under SIN 361-32.

When placing orders for services under this SIN, Ordering Agencies are responsible for the following:

- Complying with all Federal Appropriation Laws and ensuring the correct types of funds are obligated on the order.
- When construction, alteration or repair of public buildings or public works is involved for services performed under this SIN, Ordering Agencies must comply and ensure contractor compliance with the Construction Clauses and Davis-Bacon Regulations. See Attachment 11 of the GSA solicitation for a complete listing of the FAR and GSAM clauses incorporated by reference for all schedule contractors awarded this SIN. Ordering agencies shall utilize these clauses as a guideline and must incorporate the applicable clauses into the statement of work. The ordering agency is responsible for including the most current version of these clauses and any other applicable clauses into the order. Clauses which require "fill-ins" must be completed by the ordering agency. Any agency specific clauses which may apply based on agency regulations or requirements must be added and must be cited in the statement of work.
- Defining and issuing the statement of work for installation and site preparation services. It is essential for the ordering agency's statement of work to include an accurate description of the work required and definition of scope to facilitate realistic quotations.
- The statement of work shall clearly inform the contractor of all bonding requirements and any required insurance amounts.
- The ordering agency will provide the local Davis-Bacon wage rates to contractors. Applicable wage determinations will be incorporated into the statement of work.
- Reviewing quotations from schedule contractors to ensure the work proposed meets the statement of work requirements. The ordering agency shall consider only fixed priced quotes.
- Obtaining pricing information from the schedule contractors and making a Best Value Determination as required per the ordering procedures of FAR 8.4
- Making a fair and reasonable price determination for the services to be performed under this SIN based on the quotations received.
- Negotiating the pricing for installation and site preparation services with the schedule contractor on an order-by-order basis, based on the mix of labor and complexity of the installation. Services pricing shall be shown and priced as a separate line item on the order.
- Performance clauses will be modified for each job by the requiring agency.
- Administration of orders issued under this Special Item Number.
- All orders and payments must be made to the schedule contractor.

**20. TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICES:** Not Applicable

**20a. TERMS AND CONDITIONS OF FOR ANY OTHER SERVICES (IF APPLICABLE):**

**SIN 361 30 / 361 30RC Ancillary Services related to Pre-Engineered/Prefabricated Buildings and Structures**, including but not limited to: Field assembly, training, consultation and design assistance.

The principal purpose of the Pre-Engineered/Prefabricated Buildings program under Schedule 56 is for the purchase of products meeting the general description of the Special Item Numbers (SIN) within the program. Ancillary services may only be ordered in conjunction with or in support of products purchased under this Federal Supply Schedule contract.

Ancillary Service **excludes:**

- Construction (construction is defined as alteration, or repair of buildings, structures, or other real property)
- Architectural Engineering Services (A&E) under the Brooks Architect-Engineers Act as stated in Federal Acquisition Regulation (FAR) Part 36. These services shall be ordered only in accordance with Part 36 and agency procedures, and shall not be included on a GSA contract order as an open market item.
- Personal services.
- Stand-alone services applicable to the Service Contract Act (SCA)

The ordering agency is responsible for defining and issuing the statement of work for ancillary services. Accurate definition of the scope and statement of work is essential to facilitate realistic quotations. The statement of work shall also inform the contractor of any applicable insurance requirements.

- Ordering agencies will obtain pricing information from the schedule contractors, and will negotiate for ancillary services on an order by order basis, based on complexity and level of effort. Ancillary services shall be priced as separate line items on each order. Only fixed priced quotations will be accepted.
- Pricing of services has been determined fair and reasonable by GSA. However, ordering agencies shall make a determination that the price is fair and reasonable and offers the best value to the Government, based on the negotiated amount for the level of effort involved in the requirement.
- Ordering agencies will comply with all appropriation laws and ensure that the correct types of funds are obligated on each order.

Contractor quotations shall specifically detail all products with the contract price and provide a single price for services. Sales of ancillary services shall not be combined or reported with the product SIN.

The GSA contractor may subcontract any ancillary services ordered under this SIN, unless specifically prohibited by the ordering contracting officer. The GSA contractor shall be responsible, accountable and liable for all work performed by any subcontractor and shall honor all warranties. Compliance with all agency, local, state, and Federal laws, regulations, and ordinances is the responsibility of the GSA prime contractor. All orders and payments must be placed with the prime contractor. Reference FAR 8.4 for an explanation of ordering procedures used when purchasing through a Multiple Award Schedule contract.

## **PROFILE**

### OVERVIEW

Williams Scotsman, Inc. is a leading provider of mobile and modular space solutions for Construction, Education, Commercial/Retail, Healthcare, and Government markets throughout North America. Our company operates nearly 90 locations throughout North America and serves more than 25,000 customers. With a fleet of approximately 105,000 mobile offices, classrooms and storage units and our unique Concurrent Construction method available for Modular Buildings, we can provide you with everything from a simple construction trailer to complex, multi-story buildings such as schools, administrative and medical facilities.

### HISTORY

Williams Scotsman's history dates back more than 50 years. The company significantly raised its profile with the 1990 merger of two market leaders: Williams Mobile Offices and Scotsman Manufacturing Company. Williams Mobile Offices of Maryland introduced its first product – an eight-foot wide construction trailer – in 1944. Based in California since its inception in 1945, Scotsman Manufacturing Company was known first for recreational vehicles and later for space solutions designed for the film industry. When combined, the companies offered a comprehensive suite of mobile space and storage products as well as nationwide coverage. Since the merger, Williams Scotsman has expanded through the acquisition of more than 30 regional mobile space providers throughout North America as well as organic growth.

### WILLIAMS SCOTSMAN TODAY

As one of the largest mobile office/modular building providers in North America, Williams Scotsman has a variety of mobile and modular space solutions available for purchase or lease. These space solutions include construction trailers, classrooms, temporary offices, sales offices, in-plant offices, clubhouses, temporary airport terminals, childcare centers, barracks, shower and locker facilities, lavatories, guardhouses/security booths, storage trailers, storage containers, and Wells Cargo trailers and mobile response units. In addition to our mobile and modular products, Williams Scotsman also provides delivery, installation, refurbishment and other services for their customers.
