**COMPANY INFORMATION:**

Analytical and Precision Balance Company, Inc. is a high tech, woman-owned, small business that was established in 1978. For the past 38 years, we have been one of the leading nationwide dealers for Sartorius Inc. and A&D Weighing. We supply a large selection of scales, laboratory balances, and moisture analyzers and their accessories from these two leading global manufacturers to all levels of government end users.

We are ANSI/ISO/IEC 17025:2005 accredited through the International Accreditation Service (Calibration Lab CL:104). Our Certificates of Calibration are recognized by all major ISO accrediting bodies through the ILAC Mutual Recognition Agreement. This mutual recognition agreement includes all government entities.

If you are a government buyer or end user who is looking to post a bid or have already posted a bid and still need additional information in regards to a specific instrument, feel free to contact us by phone or email (info@apcales.com). We can help you with any technical questions or if you need help with selecting the correct device for your specific end-user application. We are happy to provide technical support even if an instrument was not purchased through us.

Our standard service on new equipment purchases include domestic ground shipping, calibration and ISO Certification (if required) to eliminate any out of box failures. These services are at no additional charge to your organization.

Throughout our history we have worked with all levels of government including federal, state and local entities to assist them with their weighing instruments. Feel free to call or e-mail us with any additional questions.
