- 24a. **SPECIAL ATTRIBUTES:** NPE-Free Barricade II Fire Blocking Gel is a liquid concentrate. Mixing requires no special protective gear or respirators; it is the only liquid concentrate fire gel approved by the US Forest Service that contains no nonylphenol ethoxylates (NPEs) and contains no petroleum distillates. NPE is a chemical of concern to the US Environmental Protection Agency, due to its effects on the endocrine systems of aquatic life.
- Barricade II has been tested by the US Forest Service, and found to be acceptable in all categories. It is listed on the Forest Service Qualified Products List, through the Fire & Aviation Management branch, as a "Water Enhancer", Approved by USDA Forest Service in Accordance with Forest Service Specification 5100-306A (Draft). Approved applications for Barricade II include Conditional approval for Fixed-Wing Air Tankers and Single Engine Air Tankers; and Fully Qualified approval for Helicopter Bucket and Ground Engine use.
- The use of Barricade II conforms to the Goals for Agencies in Sec.2 of the President's Executive Order 13423 Strengthening Federal Environmental, Energy, and Transportation Management. Sec.2(c) requires reduced water consumption intensity; fire suppression and protection with Barricade II requires less water than the use of water alone for these purposes. Sec.2(e) requires reduction in the quantity of toxic and hazardous chemicals acquired and used; Barricade II contains no ferrocyanides that are present in previously used fire retardants.
