Technology Install Partners offers a variety of commercial-grade equipment to meet your individual requirements. We sell and distribute products from leading manufacturers like Milestone, Exacq, Sony, Panasonic, Samsung, Honeywell, Salto, Axis, Keri Systems and Nuuo as well as lesser known manufacturers that we partner with and test to find new emerging solutions.

Call or email us today to find the right solution for your unique needs!

888-586-7040 or sales@technologyinstallpartners.com

Mission Statement

Our mission is not only to be your vendor of choice, but to also be your partner, and help your business grow and succeed. We staff full-time systems engineers and technical associates to help with any technical and software issues (many of our competitors do monitoring and access control and do not have a team of individuals dedicated to video surveillance only). We have the ability to provide you with the exact solution to fulfill your surveillance needs. Every project is unique so there is no “out of the box” solution.

Company History

Technology Install Partners was established in 2001 as a DVR system builder and surveillance camera wholesaler. We then decided to become a full installation partner and offer these additional services at the request of our customers in 2003. Technology Install Partners is located in Cleveland and Columbus, Ohio along with a location in Lansing, Michigan. Our company was awarded its first GSA Contract # GS-07F-0346V in 2009. Technology Install Partners is the only GSA Video Surveillance Installation Contractor in Northeast Ohio and 1 of only 19,000 companies to hold a GSA Contract in the entire country.
