General Information

About Us:

Cygnus is a Women-Owned Small Business (WOSB) founded in 1989 to support critical health research for government agencies and corporate clients nationwide.

For over a quarter century, Cygnus has helped our clients to secure their missions and advance new developments in healthcare with the common goal of improving healthcare worldwide. We are a trusted partner to many of our nation's key health organizations such as CDC, AHRQ, FDA, almost a dozen institutes and centers at NIH, and a network of leading research institutions and universities.

The majority of Cygnus staff holds advanced biomedical degrees with research backgrounds at leading health institutes. Our staff's exceptional scientific insight is blended with our information management and organizational development expertise to provide effective solutions for our clients' most complex challenges.

Proven excellent communication and organizational skills are required.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 5 years of experience in applicable field.

7. Facilitator 1

Functional Responsibility: Seasoned professional who has demonstrated experience, or is certified, in conducting facilitated workshops, work groups, meetings, or other associated activities required for market research and analysis. Responsible for planning and organizing sessions that result in gathering relevant market research information. May conduct work sessions that synthesize the market research information into to relevant and constructive analysis. Some experience with consensus building and/or focus group concepts and procedures and their application to specific market research projects. Proven excellent communication and organizational skills are required.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 2 years of experience in applicable field.

8. Analyst/Expert

Functional Responsibility: Possesses knowledge and experience applying analytical methodologies and principles to address client needs. Supports functions related to and including data collection, review and/or evaluation, project testing, and creation of performance measurements. Possess experience providing knowledge of logistics, organizational, or management techniques as they apply to the applicable project directives.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 1 year of related experience in applicable field.

9. Subject Matter Specialist 2

Functional Responsibility: Possesses extensive knowledge in one or more specific fields or disciplines. Has significant knowledge and experience related to the application of procedures and with testing and evaluation of project requirements relative to the specific fields of expertise. Performs activities in support of project or contract objectives, and directs activities of junior subject matter specialists and other contract or project staff as necessary. Applies principles and methods of specific subject matter areas to specialized solutions.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 5 years of related experience in applicable field.

10. Subject Matter Specialist 1

Functional Responsibility: Possesses demonstrated substantive knowledge and experience in one or more specific fields or disciplines. Has demonstrated knowledge and experience related to the application of procedures and with testing and evaluation of project requirements relative to the specific field of expertise. Conducts activities in support of project or contract objectives and directs activities of junior subject matter specialists as necessary.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 3 years of related experience in applicable field.

11. Subject Matter Specialist

Functional Responsibility: Possesses knowledge in one or more specific subject matter fields or disciplines. Has knowledge related to the application of procedures and with testing and evaluation of project requirements relative to specific fields of expertise. Assists other staff and conducts activities in support of project or contract objectives.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 1 year of related experience in applicable field.

12. Web Site Designer

Functional Responsibility: Responsible for managing the design, development, production, and deployment of Web site projects for clients. This includes developing and designing Web pages, producing content and graphics, and providing updates/changes as required. Manages all aspects of Web site maintenance and enhancements. Has functional understanding of server-side and client-side scripting languages. Is familiar with database development and applications. Is detail-oriented. Has proven problem solving skills and the ability to troubleshoot technical issues. Must demonstrate proficiency in a broad suite of Internet programming languages such as ASP, HTML, Cold Fusion, and Flash.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 5 years of related experience in applicable field.

13. Web Site Manager

Functional Responsibility: Responsible for day-to-day management of Web site projects for clients. Includes monitoring functionality of Web pages and providing updates/changes as required. Manages all aspects of Web site maintenance and enhancements. Directs junior staff as required. Has functional understanding of server-side and client-side scripting languages. Is familiar with database development and applications. Is detail-oriented. Has proven problem solving skills and the ability to troubleshoot technical issues. Must demonstrate proficiency in a broad suite of Internet programming languages such as ASP, HTML, Cold Fusion, and Flash.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 3 years of related experience in applicable field.

14. Web Site Specialist

Functional Responsibility: Assists in performance of a variety of routine Web site development, maintenance, and update activities. Edits content using basic HTML or ASP and uses administrative tools to generate and maintain online data. Uploads files to server and tests pages for accuracy.

Minimum Education/Degree: Bachelor of Science/Bachelor of Arts.

Minimum Years of Experience: 1 year of experience in applicable field.

15. Application Developer/Programmer

Functional Responsibility: Works to define and implement program goals, including design and programming of databases and server-based and client-based Web applications. Offers advanced knowledge of high-level technical issues. Completes high-level programming tasks specified in the technical-design documentation. Must be capable of utilizing programming languages to analyze requirements and devise solutions for specific project or contract objectives.

Minimum Education/Degree: Bachelor of Science/Bachelor of Arts from an accredited college or university in computer science or related field of study. Industry recognized computer certifications may be required.

Minimum Years of Experience: 5 years of experience in applicable field.

Functional Responsibility: Individual must have broad, practical experience designing, building, and maintaining relational databases for use in Web-based applications, and have a working knowledge of major server operating systems and Web servers. Oversees the design and preparation of data tables, objects, and user configurations. Reviews security and evaluates for conformance to design. Designs, monitors, and optimizes databases and performance of queries. Plans and performs database backup and recovery, ensuring data integrity and database technical support. Acts as a technical resource for resolving any database issues. Responsible for the testing and implementation of new database versions and functions.

Minimum Education/Degree: Bachelor of Science/Bachelor of Arts from an accredited college or university in computer science or related field of study. Industry recognized computer certifications may be required.

Minimum Years of Experience: 5 years of experience in applicable field.

17. Database Specialist

Functional Responsibility: Assists in performance of database activities. Transfers data from electronic and hard-copy files into client applications. Under the direction of a database developer, monitors and optimizes databases and assists in the development of database queries used to create data reports. Performs database backup and recovery, ensuring data integrity and database technical support.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 1 year of related experience in applicable field.

18. Computer/IT Specialist

Functional Responsibility: Experience in the analysis and design of business applications for complex large-scale or mid-tier computer systems or LAN-based systems. Must have experience in database management systems, and use of programming languages. Must have knowledge of current storage and retrieval methods. Must be able to develop, manage, maintain, and evaluate state-of-the-art computer hardware, software, and software development tools; evaluate their ability to support specific requirements and interface with other equipment and systems; determine potential and actual bottlenecks, and propose recommendations for their elimination; and recommend systems improvements that will result in optimal hardware and software usage. Maintains servers, creates monitoring reports and logs, and ensures functionality of systems. Establishes backups and monitors site security. Updates and makes changes to hardware. Troubleshoots system errors and bugs. Interacts with applications developer for achieving overall technical integrity of client's Web site or computer systems.

Minimum Education/Degree: Bachelor of Science from an accredited college or university in computer science or related field of study or equivalent professional experience.

Minimum Years of Experience: 3 years of related experience in applicable field.

19. Publications/Production Specialist 2

Functional Responsibility: Possesses extensive knowledge in designated fields or disciplines related to publications and materials development and production. Requires significant experience in the production of publications and graphics materials. Performs a wide range of duties, such as Web graphics design and production of publications, brochures, covers, posters, illustration, and logos. Assists in ascertaining client needs, conceptualizes and implements graphic directions, and ensures specifications are met for assigned projects.

Minimum Education/Degree: Bachelor of Arts or Fine Arts.

Minimum Years of Experience: 5 years of related experience in applicable field.

20. Publications/Production Specialist 1

Functional Responsibility: Possesses demonstrated knowledge and experience in designated fields or disciplines related to publications and materials development and production. Assists in the production of publications and graphics materials. Performs a wide range of duties, such as Web graphics design and production of publications, brochures, covers, posters, illustration, and logos.

Minimum Education/Degree: Bachelor of Arts.

Minimum Years of Experience: 3 years of related experience in applicable field.

21. Publications/Production Specialist

Functional Responsibility: Possesses knowledge in designated fields or disciplines related to publications and materials development and production. Assists in the production of publications and graphics materials. Performs a wide range of duties, such as Web graphics design and production of publications, brochures, covers, posters, illustration, and logos.

Minimum Education/Degree: High School diploma.

Minimum Years of Experience: 2 years of related experience in applicable field.

22. Desktop Design/Layout Specialist

Functional Responsibility: Requires experience in using appropriate graphics software packages for illustrations, charts and graphs, page layout, photo design and production, and word processing. Requires ability to prepare camera-ready art in electronic formats. Also includes developing graphic artwork in a variety of media, using Macintosh and PC equipment.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 1 year of related experience in applicable field.

23. Scientific/Technical Writer 2

Functional Responsibility: Possesses extensive knowledge and experience in one or more designated scientific/technical fields or disciplines. Possesses significant experience in developing original topic or content. Researches, writes, and summarizes technical/scientific materials, manuals, and publications. Conceptualizes and writes original analytical, interpretive, documentary, and promotional scientific/technical copy.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 5 years of experience in applicable field.

24. Scientific/Technical Writer 1

Functional Responsibility: Possesses demonstrated knowledge and experience in a designated scientific/technical field or discipline. Responsible for developing scripts and written documentation. May be responsible for content development. Supports specific research, writing, and summarization of technical/scientific materials including manuals and publications. Writes analytical, interpretive, documentary, and promotional copy appropriate to knowledge and experience.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 3 years of experience in applicable field.

25. Scientific/Technical Writer

Functional Responsibility: Possesses knowledge in a designated scientific/technical field or discipline. Assists with the research, writing, and summarization of technical/scientific materials including manuals and publications. Assists in the writing of analytical, interpretive, documentary, and promotional copy.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 1 year of experience in applicable field.

26. Scientific/Technical Copyeditor 2

Functional Responsibility: Possesses extensive knowledge and experience in the use of all relevant writing, editing, style, and proofreading guidelines. Possesses significant experience related to reviewing and finalizing written materials, including handouts, posters, advertising materials, brochures, documents, and publishing collateral. Performs reference verification and prepares author queries for clarification and correction of textual materials. Makes suggestions for final page layout and document structure and presentation for readability. Provides final editing of written materials. May propose plan lay-out designs and recommend final disposition of products.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 5 year of experience in applicable field.

27. Scientific/Technical Copyeditor 1

Functional Responsibility: Possesses demonstrated knowledge and experience in the use of relevant writing, editing, style, and proofreading guidelines. Reviews and finalizes written materials, including handouts, posters, advertising materials, brochures, documents, and publishing collateral.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 3 year of experience in applicable field.

28. Scientific/Technical Copyeditor

Functional Responsibility: Possesses knowledge of relevant writing, editing, style, and proofreading guidelines. Assists with reviewing and finalizing written materials, including handouts, posters, advertising materials, brochures, documents, and publishing collateral.

Minimum Education/Degree: Bachelor's.

Minimum Years of Experience: 1 year of experience in applicable field.

29. Events Manager

Functional Responsibility: Possesses extensive knowledge and experience in designated field or discipline. Works with clients to arrange the details and logistics of meetings, conferences, and other events. Supervises the activities of events/logistics staff and convention personnel to make arrangements for hotels, meeting rooms, and other accommodations. Manages project staff for event activities, including arranging the availability of audiovisual equipment, transportation, displays, and other event needs; conducting post-event evaluations to determine how future events could be improved; conferring with staff at a chosen event site in order to coordinate details; consulting with customers to determine objectives and requirements for events such as meetings, conferences, and conventions; coordinating services for events, such as accommodation and transportation for participants, facilities, catering, signage, displays, special needs requirements, printing, and event security; designing and implementing efforts to publicize events and promote sponsorships; developing event topics and choosing featured speakers; and directing administrative details such as financial operations. Attends conferences to resolve onsite problems in person.

Minimum Education/Degree: Bachelor's. Ideally possesses Certification in Meeting Planning and/or Events Planning.

Minimum Years of Experience: 5 years of experience in applicable field.

30. Events Support Specialist

Functional Responsibility: Performs administrative support activities to relieve client and senior staff of administrative details. Activities include preparation of mailings and other communications services, photocopying, organizing and maintaining files, and assisting with correspondence, reports and memos, proofing documents, and other word processing activities as required. 32. Project Support Specialist

Functional Responsibility: Performs clerical support activities to relieve client and senior staff of administrative details. Activities include preparation of mailings and other communications services, photocopying, organizing and maintaining files, and assisting with correspondence, reports and memos, and other projects as required. Operating knowledge of WordPerfect, Microsoft Word, and Excel required.

Minimum Education/Degree: High School diploma.

Minimum Years of Experience: No experience necessary.

33. Messenger/Courier

Functional Responsibility: Provides delivery/retrieval services for client-related materials, including blueines, documents, artwork, graphics, publications, equipment, and conference-related props. Assists with preparation of mailings for client projects, including packing and timely delivery to USPS, FedEx, or UPS. Provides delivery and pickup services to clients on periodic schedules required to support project or contract requirements.

Minimum Education/Degree: None.

Minimum Years of Experience: None.

SCA Matrix and SCA Statement

The *Service Contract Act* (SCA) is applicable to this contract and it includes a SCA applicable labor category. The price for the cited SCA labor category is based on the U.S. Department of Labor WD Number(s) identified in the SCA matrix. The price offered is based on the preponderance of where work is performed and should the Contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

SCA Eligible Contract Labor Category	SCA Equivalent Code	Title WD Number
Courier	31043 – Driver/Courier	2005–2103
