### Immucor 334516 0086998

- **Product Description**: Echo Lumena is the fifth generation instrument designed to help blood banks of all sizes and volumes answer their call for better technology, higher functionality, maximum efficiency and accuracy, more flexibility and speed, better control, and process controls to keep your mind at ease. This includes interacting tests of all its hardware modules, various software levels, tests, and reagents. Our Capture-R Ready-Screen (3) assay includes a built-in process control. A pre-coated IgG test well acts as a positive control on the fourth well of every 3-cell screen. With Echo Lumena and Capture-R Ready Screen (3), you can rest assured that every test result is a controlled test result. The instrument’s software maintains a resource inventory and manages assay testing through bar codes on strips, reagent vials, and sample tubes, assuring positive identification and traceability throughout the entire testing process. Echo Lumena comes equipped with our exclusive ImmuLINK Database Management Solution; a software suite designed specifically for Transfusion Medicine. ImmuLINK enables access to serology and molecular IVD results from multiple test sites in one centralized location. Through a secure web-based connection, remote validation of test results, management of complex testing at multiple sites, and optimal efficiency of Blood Bank test data is achieved with ImmuLINK.
