About Us

Founded in 1959, Generac has earned a reputation as the company home and business owners, and industry professionals turn to when the power goes out. The first

to engineer affordable home standby generators, along with the first engine developed specifically for the rigors of generator use, we now sell more home standby generators than all of our competitors combined. We then revolutionized the commercial market with the first cost effective product line meeting the needs of small and mid-sized businesses; and our products can be found backing up countless industrial facilities covering healthcare, data centers, public works, schools and universities and more.

Generac manufactures the widest range of portable, mobile, and permanently mounted generators in the marketplace for residential, commercial, and industrial applications. At Generac, we protect the things that power your life by providing quality, affordable power solutions.

We believe Generac's continued success will come from our dedication to growth and our core philosophy of *ensuring our customers' peace of mind by delivering a superior product and ownership experience.*

Our Commitment to Sustainability

Generac is committed to developing a long term vision that promotes environmentally responsible products, processes, and partnerships. We offer product options that allow our customers to shrink their ecological footprint when backup energy use is required. Manufacturing processes are implemented with the goal of minimizing environmental impact by reducing the amount of materials used and emissions produced. Partnerships are sought with organizations and stakeholders to further the development of sustainable technologies. By adhering to these principles we strive to be a positive contributor of sustainable growth in our industry.
