## Corporate Overview

Kiesler Police Supply, Inc. aka Kiesler Defense (“Kiesler’s”) was incorporated in 1975. It is a VETERAN OWNED SMALL BUSINESS. Kiesler’s is a supplier of domestic and foreign weapons mounts and a variety of 5 different cradles. Our other product lines include ammunition, firearms and law enforcement related equipment. Our customers include US Forces, federal, state and local law enforcement and US allies internationally - including Special Ops.

The design and development of our current line of weapons mounts was a process of over 3 years. We interviewed troops and tested multiple designs. Finally, we settled on an aluminum product that is welded together and places the center of the weapon away from the operator by use of a 360 degree rotating cantilever arm. We have patents pending status on our mount and cradle.

If you can draw it or dream it, we can work with you to design, develop and deploy it.

Our staff includes many veterans, with combat experience, from the Marines, Army and other areas of the US Government. Their experience is invaluable in assisting us in developing product that is useable for a specific function.

Kiesler’s is fully licensed by the BATF, US State Department, Defense Trade Controls to transact in a variety of regulated products. We strictly abide by the ITAR regulations when conducting business around the world.

Kiesler Police Supply, Inc. has built an outstanding reputation for getting the job done for the US Military and law enforcement agencies.

# Products

**Product name:** LIGHT WEIGHT ALUMINUM CANTILEVER MOUNT AND PKM CRADLE SET  
**Contractor Part #:** KD-LT-CL-SYS  
**SIN:** 426 99

## One Mount, Many Missions.

**(PKM Cradle Included)**

U.S. Patent # 7,610,842 B1

### **Kiesler Defense Cantilever Mount System for use with PKM Medium Machine Gun**

The most advanced design for optimal use in confined spaces (Truck beds, HMMWV beds, Guard shacks, perimeter, out post or anywhere else you may need superior weapon mounts for added security). U.S. Patents Pending.

- Precision Machined Stainless Steel Socket for weapon that allows the operator a variety of elevation positions.
- Welded High Grade Aluminum construction to reduce weight and maintain strength.
- A completely maintenance-free 360-degree swiveling cantilever arm.
- Protective cover over swiveling arm to ensure that NO sand or debris will hinder swiveling action in a demanding operational environment.
- Mount can be locked for travel simply by inserting a high strength stainless steel pin into the post that is shipped with every mount.

Superior design makes it far better and more effective than any pedestal or straight post mount available. The US Patent pending Cantilever design places the center of the weapon away from the operator and completely supports the weapon during use. This design enables the operator to respond to threats in all directions very quickly. We make maximum use of welding to use less bolts than any others on the market. This means more strength, less parts and no bolts to back out. Height: Adjusts from 46 inches to 54 inches for ultimate versatility. Weight: 70 pounds. Materials: All non-corrosive high grade aluminum and stainless steel. Choose your Cantilever mount with any cradle shown below for a complete system. These cradles are interchangeable with any mount or socket that is U.S. small pintle.

### **Kiesler Defense Weapon Cradles**

- All contact points that interface with the weapon are stainless steel or machined high grade billet aluminum.
- All pintles are machined to the tightest specifications from high quality, rust-resistant stainless steel.
- Cradles come with depression, elevation and travel locks.
- All cradles are powder coated for extra protection and durability in harsh environments.
- Machined cut-out center in order to allow sand and all debris to pass through and not collect.
- All ammo can holders (stainless steel) are aligned and engineered for best alignment of ammunition into weapon for the ultimate in feeding reliability.

## Products (cont'd)

**Product name:** DSHK ALUMINUM CANTILEVER MOUNT (**NO CRADLE**)

Contractor Part #: KD-DSHK-CL-MT

SIN: 426 99

**Product Description:** DSHK ALUMINUM CANTILEVER MOUNT (And All U.S. Large Pedestal Pintle Adapter) Kiesler's new Lightweight Aluminum DSHK Cantilever Mount (and all U.S. male large pintle) offers a broad range of mobility for tight spaces. This new mount offers many upgrades over any other option in the field of vehicle or trailer mounted operations. We are able to offer these high quality mounts for many weapons and applications. Currently we range from the M249 to the DSHKM. We have the capability to manufacture for virtually any operational needs. Cradle is sold separately. Mount features include:

- Welded High Grade Aluminum construction to reduce weight and provide maximum strength.
- A completely maintenance free 360 degree swiveling cantilever arm.
- Precision Machined Stainless Steel pintle and socket for maximum strength. Our Stainless Steel pintle is machined to also allow the cradle to be rotated 360 degrees for quick situational reaction.
- Precision Machined Stainless Steel sleeve that houses the 360 degree swiveling cantilever arm for even more strength in this critical area.
- Protective cover over swiveling arm to ensure that NO sand or debris will hinder swiveling action in a demanding operational environment.
- Mount can be locked for travel simply by inserting a high strength stainless steel pin into the post that is shipped with every mount.
- Welded base plate design offers many options for ease of mounting to a variety of applications.
- This extremely strong but light design enables smaller vehicles (such as the Hi-lux) and ATV Trailers with confined spaces to carry tremendous mobile firepower and still be able to accelerate and maneuver when the operational environment requires it.
- The weight of this advanced and highly capable unit is only 245 pounds.
- All our mount baseplates are also interchangeable.
- All mounts come complete with mounting hardware and directions for easy installation.
- We also provide our mounts and cradles with protective Powder Coat as a standard. This ensures best durability in harsh environments. These mounts allow you to operate virtually any weapon system in confined spaces. They allow the operator to engage targets in all directions under great stress while maximizing operator maneuverability. They do this by placing the center of the weapon away from the operator. Our design is in use in all theaters of the Global War on Terror. Whether you're in a Toyota Hi-Lux, HMMWV, Guard Shack, Perimeter, Outpost or operating from a water craft of virtually any design: Operator efficiency, reaction time and most importantly, survivability is greatly enhanced by the Kiesler Defense Cantilever Design.

## Products (cont'd)

**Product name:** HK-GMG/MK19 ALUMINUM CANTILEVER MOUNT  
**(NO CRADLE)**

Contractor Part #: KD-MK19/HK-GMG

SIN: 426 99

**Product Description:** This MK19-HKGMG mount is the only MK19-HKGMG mount on the market that DOES NOT REQUIRE A UNIVERSAL PINTLE ADAPTER to provide a friction brake that keeps weapon from freely moving while in transit and not being used to engage targets. Ours comes with a precision machined friction break to not only retain the weapon, but stop it from wildly swiveling when not in use. This means you will also have fewer parts to buy, which will save your organization money as well. When you buy this mount, it's all you will need to carry out the mission. For: HK-GMG but will fit any U.S. small pintle cradle. Cradle is sold separately. Universal: This will fit any U.S. small pintle cradle.

Certain Kiesler Defense Aluminum and stainless steel Cantilever designs are US patents pending. These mounts allow you to operate virtually any weapon system in confined spaces. They allow the operator to engage targets in all directions under great stress while maximizing operator maneuverability. They do this by placing the center of the weapon away from the operator. Our design is in use in all theaters of the Global War on Terror. Whether you're in a Hi-Lux, HMMWV, Guard Shack, Perimeter, Outpost or operating from a water craft of virtually any design: Operator efficiency, reaction time and most importantly, survivability is greatly enhanced by the Kiesler Defense Cantilever Design. LIGHTWEIGHT ALUMINUM CANTILEVER MOUNT (And all U.S. standard small pintle) Kiesler's new Lightweight Aluminum Cantilever Mount (and all U.S. small pintle) offers a broad range of mobility for tight spaces. This new mount offers many upgrades over any other option in the field of vehicle or trailer mounted operations. We are able to offer these high quality mounts for many weapons and applications. Currently we range from the M249 to the DSHKM. We have the capability to manufacture for virtually any operational needs. Mount features include:

- Welded High Grade Aluminum construction to reduce weight and maintain strength.
- A completely maintenance free 360 degree swiveling cantilever arm.
- Precision Machined Stainless Steel Socket for weapon that allows the operator a variety of elevation positions. It is also provided with a machined channel. This allows the operator to raise or lower position of cradle without having to struggle to pin into desired position under stressful conditions.
- Precision Machined Stainless Steel sleeve that houses the 360 degree swiveling cantilever arm for even more strength in this critical area.
- Protective cover over swiveling arm to ensure that NO sand or debris will hinder swiveling action in a demanding operational environment.
- Mount can be locked for travel simply by inserting a high strength stainless steel pin into the post that is shipped with every mount.
- Welded base plate design offers many options for ease of mounting to a variety of applications.
- Lightweight construction also allows for multiple mounting options.
- All our mount baseplates are interchangeable.
- All mounts come complete with mounting hardware and directions for easy installation.
- We also provide our mounts and cradles with protective Powder Coat as a standard. This ensures best durability in harsh environments.

## Products (cont'd)

**Product name:** HMMWV UNIVERSAL DOOR MOUNT SYSTEM  
Contractor Part #: KD-UD-MPC-SYS  
SIN: 426 99

**Product Description:** HMMWV Universal Door/Outpost MPC System includes universal door bracket, MPC arm and Kiesler Defense cradle (PKM, MK43/M60, M240, M249, MAG58) Multi-Purpose Cantilever system is the simplest, strongest lightweight universal small arms mount available today. This system allows the operator to completely lock down the MPC arm and weapon cradle for travel and very quickly deploy to engage targets with the pull of 2 stainless steel ball lock pins. Simply by changing bracket, socket or cradle you can mount an M249, M240, MAG58, or PKM to a wide variety of applications. As all components of Kiesler Defense Manufacturing are: The MPC arms and system are made from high strength welded aluminum and precision machined stainless steel. We only use bolts to fasten our mounts to their platform. That is why Kiesler Defense out performs and outlasts the competition in all theaters of the Global War on Terror. All mounting hardware included per customer mounting specification.

*This will mount any mentioned weapon in any HMMWV door or any other suitable surface with 1.5 inches width and 4 inches in length. (Example: Wall, Guardshack, or Outpost) The bracket mounts vertically.*

Universal Cantilever Mount that can upgrade existing swing arm mounts. Multi-use, cost effective weapons mounting system.

## Products (cont'd)

**Product name:** HMMWV TURRET MOUNT SYSTEM

Contractor Part #: KD-TU-MDC-SYS

SIN: 426 99

**Product Description:** HMMWV Turret MPC system includes Turret Pedestal, MPC Arm, and Kiesler Defense Cradle. Multi-Purpose Cantilever system is the simplest, strongest lightweight universal small arms mount available today. This system allows the operator to completely lock down the MPC arm and weapon cradle for travel and very quickly deploy to engage targets with the pull of 2 stainless steel ball lock pins. Simply by changing bracket, socket or cradle you can mount an M249, M240, MAG58, or PKM to a wide variety of applications. As all components of Kiesler Defense Manufacturing are: The MPC arms and system are made from high strength welded aluminum and precision machined stainless steel. We only use bolts to fasten our mounts to their platform. That is why Kiesler Defense out performs and outlasts the competition in all theaters of the Global War on Terror.

## Standard Warranty

Kiesler Police Supply, Inc.

### LIMITED WARRANTY

Kiesler Police Supply, Inc. (“Kiesler”) hereby warrants to the government customer, that each item of supplies sold and delivered under GSA contract no. GS-07F-0511U shall be free from defects in workmanship and materials for a period of twelve (12) months from the date of delivery of each item of supplies (the “Warranty Period”).

The warranty of Kiesler and the remedies of the government customer set forth herein are exclusive and are given by Kiesler and accepted by the government customer in lieu of any other warranties, whether express or implied, including, without limitation, all warranties of merchantability and fitness for a particular purpose, whether known to the purchaser or not, all such other warranties being expressly disclaimed by Kiesler and waived by the government customer. Purchaser affirms that it has not relied upon Kiesler’s skill or judgment to select or furnish the goods for any particular purpose.

Purchaser’s sole and exclusive remedy against Kiesler shall be limited to refund, repair or replacement, at Kiesler’s premises, of the defective equipment. No other remedy, including but not limited to, incidental or consequential damages for injury to person or property, or any other incidental or consequential loss, shall be available to purchaser against Kiesler.

**Kiesler Police Supply, Inc.**

## Restocking Policy

**Material Defects.** The policy below applies to items that the government customer finds to have defects which impair function (i.e. the item is defective and will not do what it is supposed to do.)

- Customer is to contact Theresa Brooks at KIESLER POLICE SUPPLY, INC. (800) 444-2950 ext. 164.
- Our representative will supply shipping instructions and a Return Authorization reference number.
- The government customer is to return item to KIESLER POLICE SUPPLY, INC. and KIESLER POLICE SUPPLY, INC. will pay for cost of return shipment and will replace item for no additional charge.
- This policy is valid for a period of 12 months from receipt of product at government customer's facility.

**Shipment Damage:** If shipment is damaged during transit –

- **IMPORTANT:** Customer must note the damage on the bill of lading or freight bill and sign the paperwork along with the carrier upon receipt of product. This must be done upon receipt of the product for policy to apply.
- Customer is to contact Theresa Brooks at KIESLER POLICE SUPPLY, INC. at (800) 444-2950 ext. 164.
- We will supply additional information, shipping instructions and a Return Authorization reference number.
- The government customer is to return item to KIESLER POLICE SUPPLY, INC. and KIESLER POLICE SUPPLY, INC. will pay for cost of return shipment and will replace item for no additional charge.

**Returns for any other reason:**

- The government customer is to contact Theresa Brooks at KIESLER POLICE SUPPLY, INC. (800) 444-2950 ext. 164.
- KIESLER POLICE SUPPLY, INC. will supply packing and shipping instructions and Return Authorization reference number.
- The government customer is to return the item(s) to KIESLER POLICE SUPPLY, INC and the government customer will pay for cost of return shipment.
- Upon receipt at our facility, if item is found to be in “new” condition, free from damage and wear, the government customer will receive a full refund of GSA product price.
- If item is not found to be in “new” condition as defined above, the government customer will be refunded the GSA product price less a 10% restocking fee.
- This policy is valid for a period of 60 days from receipt of product at government customer's facility.
