2. OVERVIEW

Infotec Systems Corporation provides total electronic solutions for clients in the commercial, industrial and governmental marketplaces. Infotec's comprehensive line of value-added products and services runs the spectrum from perimeter security gate and surveillance systems to facility access control, CCTV, fire and intrusion detection and other systems, and to leading edge technology-based integrated systems. With headquarters in Summerville, South Carolina, Infotec provides top-notch design engineering, installation, and maintenance services to customers like the Department of Defense, Department of Health and Human Services, US Customs, the US Department of State, law firms, manufacturing plants, educational institutions and medical facilities throughout the U.S. and abroad. Infotec's business position is well established and revenue continues to grow year after year by Infotec placing an emphasis on satisfied customers and cost efficient task order management.

Infotec has the documented history to ensure exceptional performance on any electronic system requirement through the entire project cycle. Specializing in the integration of multiple manufacturers' equipment and software, Infotec successfully pulls all the pieces together to create a cost effective reliable system. Infotec has specialized in:

- ❖ Infrastructure design and cabling (both copper and fiber)
- ❖ Network Administration
- ❖ Access Control, Intrusion Detection and Fire Systems
- ❖ Construction related to Electronic Installations
- ❖ Multi-media Presentation Systems
- ❖ Closed-Circuit Television
- ❖ Video Imaging and Electronic Credentials
- ❖ Document Archival and Data Storage
- ❖ Complete Design-Build Services

In the past, Infotec has performed as the prime contractor to design and install products to control heating, cooling, ventilation, humidification, industrial process automation, video surveillance and access control equipment. Infotec has also been successful with projects involving security/fire alarm and industrial safety systems, home automation systems; advanced software applications for home/building control and industrial optimization; sensors, switches, control systems and instruments for measuring pressure, air flow, temperature, high and low voltage electrical current and more. Infotec currently maintains licenses in the state of South Carolina for General Contracting and Low Voltage/Alarm Systems work, please see below:

- Class A Unlimited General Contractor – License # GC106642
- Low Voltage/Alarm Systems – License # BA5026
- Fire Alarm Systems – License # FA3280

Over the past 10 years, Infotec has built a reputation of providing quality products and services to a diverse customer base. The staff at Infotec is eager to assist every customer with developing a solution that will work and provide a noticeable Return-On-Investment (ROI). Infotec's superb record of past performance combined with an extremely cost competitive and proven project approach, offer the best value for any electronic system requirement. Infotec's senior staff maintains over 100 years of combined experience in the design, installation, and maintenance of low voltage electronics and alarm systems. Additionally, Infotec is well versed in the other aspects of a project that involve high voltage electrical current, Uninterruptible Power Supplies (UPS), and overall general building construction. Infotec staff members maintain industry certifications as a core job requirement. As such, Infotec invests a significant amount of money each year in the training and development of the employees. Some of the certifications and training that Infotec employees undertake are:

- ❖ AT&T Fiber Optic Termination and Splicing,
- ❖ Lenel Systems Operation and Installation,
- ❖ Pelco CCTV System Design and Installation,
- ❖ AIS Security Procedures for Industry,
- ❖ Low Voltage Contractor Courses,
- ❖ Project Management Courses,
- ❖ Siecor Fiber Optic Termination and Splicing, and
- ❖ Various Electronics Technologies certifications

In addition to the training programs described above, Infotec also encourages their employees to attend traditional college and professional development courses at accredited colleges. Infotec's dynamic strength is a direct result of sound management, comprehensive administrative and financial controls, and a quality staff with direct project experience.

Infotec possesses a cleared facility and personnel. Additionally, we have approved systems in place for drawing and document development as well as storage and processing.

(SINs 246-42(1), 246-50, & 246-52)

Services offered are to provide Federal Agencies with the requisite expertise to plan, design, implement, maintain, and document enterprise-wide physical security solutions vital to their organizational success. All engagements conducted under this contract will be managed centrally from Infotec Systems Corporation in Summerville, South Carolina.

7. ENHANCEMENT, INTEGRATION, AND PREPARATION PRODUCTS

(SIN 246-42(1))

The enhancement, integration, and preparation products consist of various sundry items that Infotec Systems Corporation can integrate into our total solutions for authorized schedule users. Each product group has a \$10,000 ceiling limit and may be only offered in conjunction with other products and services contained in this pricelist.

HARDWARE ENHANCEMENT PRODUCTS (HEP)

Equipment and services intended to augment the functionality or capabilities of physical security systems in order to enable increased user benefits. Deliverables provided under this CLIN shall be related to specialty hardware goods, such as, but not limited to:

Field Based Equipment: sensors, peripherals, initiating devices, door fit-out mechanisms, data gathering panels or components, readers for varied tokens or credential types of technologies ibiometrics.

Control Equipment: additions to high-end computers, man-machine interface devices and items designed to improve data processing capacity, speed and throughput.

SOFTWARE ENHANCEMENT PRODUCTS (SEP)

Equipment and services intended to augment the functionality or capabilities of physical security systems in order to enable increased user benefits. Deliverables provided under this CLIN shall be related to specialty software and firmware, such as, but not limited to:

Software and Firmware Modules that increase systems versatility with regard to capacities, speed, annunciation, flexibility, communications, "Applications" affability, database compliance and performance, remote or on-site diagnostics, software support and training.

ON-SITE PREPARATION PRODUCTS (OPP)

Equipment and services intended to augment the functionality or capabilities of physical security systems in order to enable increased user benefits. Deliverables provided under this CLIN shall be related to specialty and commodity items such as, but not limited to:

Consumables: test and calibration equipment, assessment tools, and plans/drawing tools.

Infrastructure Requirements: communications paths, fiber optics, and backbone topology.

Site-Prep Materials: cabling, core drilling, conduit, patching materials, and trenching.

INSTALLATION ENHANCEMENT PRODUCTS (IEP)

Equipment and services intended to augment the functionality or capabilities of physical security systems in order to enable increased user benefits. Deliverables provided under this CLIN shall be related to specialty and commodity items such as, but not limited to:

Miscellaneous Enablers: connectors, wiring, junction boxes, receptacles, resistors, surge protection, power supplies, transformers, transceivers batteries, installation tools, provisions for disaster recovery, system hardening, redundancy/back-up, and post installation documentation.

Architectural Requirements: provisions to allow for fit / finish continuity and cosmetic consistency, based on end-user desires and criteria as set by specifiers responsible for overall look and feel of interior/exterior space.

Environmental Requirements: provisions to ensure systems performance and mitigate failures by meeting environmental conditions with appropriate measures, systems architectures and equipment selection based on ambient criteria.

SYSTEM INTEGRATION PRODUCTS (SIP)

Equipment and services intended to augment the functionality or capabilities of physical security systems in order to enable increased user benefits. Deliverables provided under this CLIN shall be related to specialty and commodity items, such as, but not limited to:

Hardware and software, either stand-alone or in combination, that allow the interfacing or integration of disparate, discrete technologies or functionalities. Discrete technologies or functionality includes networking, electronic access control, computer aided dispatch, closed circuit video surveillance, video or data transmission and storage, wireless paging and annunciation, notification and alarm presentation, imaging and badging, and intrusion detection including perimeter intrusion detection.

9. PHYSICAL SECURITY PRODUCTS

(SIN 246-42(1))

Infotec Systems Corporation offers a complete line of physical security products. A detail description of the Original Equipment Manufacturers (OEM) products can be found in their corporate catalogs, website, or authorized manufacturers representatives product guides. Infotec Systems Corporation is an authorized dealer and/or supplier of the following companies physical security products:

- MDI Security Systems • Pelco
- Lenel Electronics Inc. • GE Interlogix
