RDS, Inc. provides environmentally controlled containment systems. The following items represent basic components required to provide a complete system. It is important to note that the items below are not leased (in the case of components) or sold (in the case of consumables) individually, but only as part of a system comprised of a combination of these items and used in conjunction with an RDS Service contract. The component prices listed are used to determine the long term lease price of the system framework once all parameters and requirements are understood.

### **Other Direct Costs:**

Other Direct Costs are priced per project once specifics have been defined. Direct costs other than those explicitly detailed will be quoted on an "open market" basis. These include:

Travel and per diem costs: Estimates are prepared in accordance with 41 Code of Federal Regulations (CFR) chapters 300-304 (statutory requirements and Executive branch policies for travel by federal civilian employees and others authorized to travel at government expense).

Environmental Control Equipment

Power Equipment and Power Usage Estimate - when RDS is requested to provide power

### **Monthly Rental Price of System Components:**

The Monthly System Component Rental Price will be 10% of the long term lease price for the combined system components. For example, if the long term lease price of the system components is \$100,000, the Monthly Rental will be \$10,000 with a minimum one month lease.
