Why Best Bath?

We offer a unique approach to your bathing remodel needs with commercial quality showers and walk in tub systems designed specifically to meet your needs today and into the future.

All Best Bath products are manufactured in USA.

Each shower, walk-in tub and pan system is pre-leveled at the factory eliminating floor modifications and leveling headaches.

Innovative leak-proof joints create trouble-free installations and add value with reduced construction requirements.

Our composite wall system incorporates a plywood core on every unit. This solid wall system enables total freedom in placement of all accessories including seats and safety bars to individual needs.

We use authentic ceramic tile to create our production process. This way you get the look of tile without the cleaning hassles and sanitation issues of grout.

We offer the unique ability to add custom color to our tiles with accent colors. Also, safety bars, seats and other accessories can be custom colored to match your interior finishes.

It makes little sense to cover up problems. Our full line of showers and walk-in tubs are specifically engineered to professionally convert a standard bathing space into an accessible, attractive and safe bathing area.

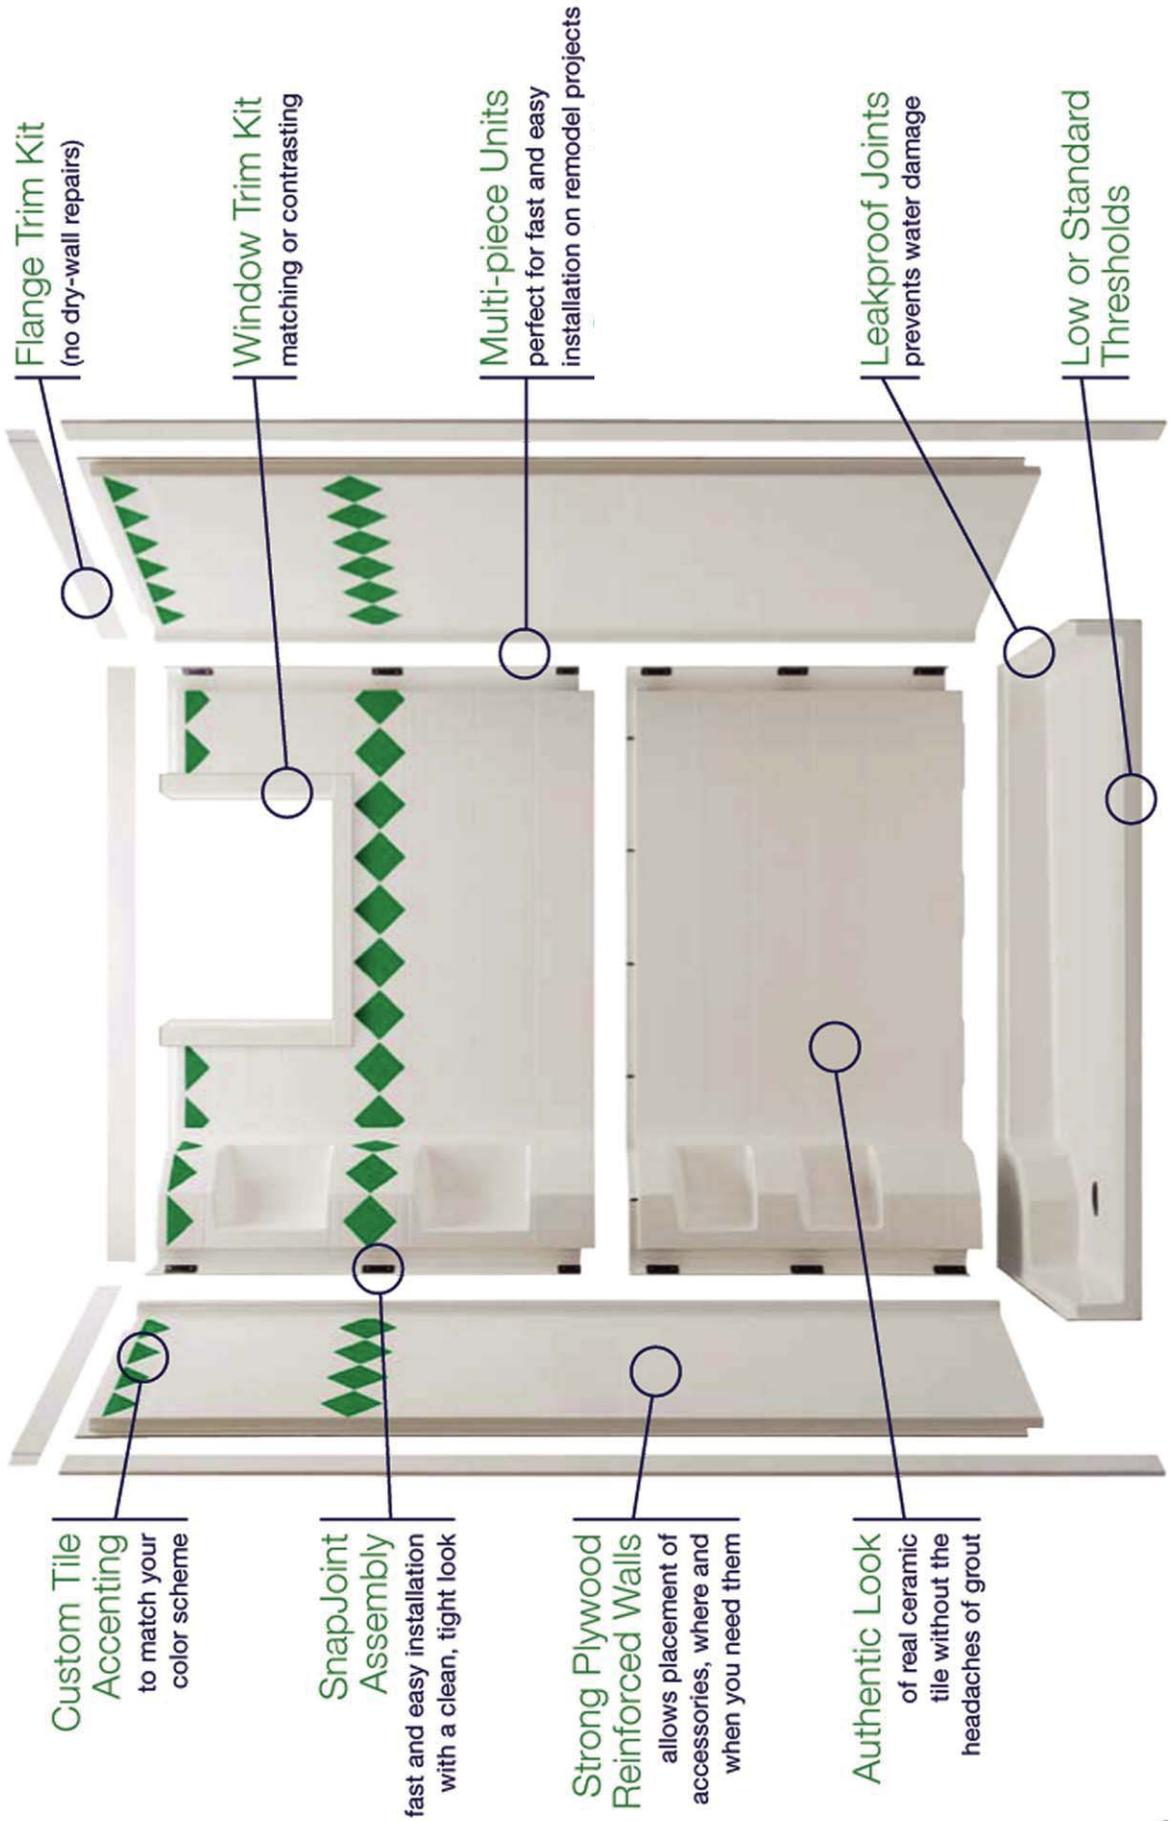

Our system saves significant installation time and enables a quicker, more professional bathroom renovation. When your loved one needs accessible bathing, we want to solve that bathing issue quickly and also with a long-term solution.

As an accessible bathing expert we offer the training, knowledge and experience to create safe bathing solutions for people of all abilities. Also, we have the passion to treat every customer like a family member, because with us, you are.

LIMITED 30 Year Warranty

All Showers · Tub Showers · Pans

Safe Bathing for people of all abilities since 1971

30 YEAR LIMITED WARRANTY

Best Bath Systems, Inc. warrants that Best Bath's fiberglass reinforced showers, walls and pans will be free from manufacturing defects for 30 years. This warranty is made to the original owner who occupies the residence in which the bathing unit is installed.

If a manufacturing defect should become apparent, Best Bath Systems, Inc. following investigation and verification of claim, will either repair or replace the item at our discretion. The Best Bath warranty obligation in regard to equipment and accessories is limited to any warranty extended to Best Bath Systems, Inc. by the manufacturer of the equipment or accessories.

Limits to Coverage

When products are shipped by common carrier, the responsibility for the unit's safe delivery is assumed by the carrier. It is the responsibility of the consignee to inspect the container and report any damage to the freight company within their allotted time and to Best Bath Systems Customer Service within five (5) business days of delivery.

Abusive treatment, misuse, normal wear and tear*, accidents, fire, repairs or alterations not authorized in writing by Best Bath Systems, Inc., theft, lost materials, improper installation, damage to product due to shipping, storage or handling, reactions caused by accessories or cleaning materials**, mis-drilled holes, negligence, construction damage, punctures from dropped items into the tub or shower and other non-manufacturer issues are not covered by this warranty.

*Normal wear and tear is considered use for its intended purpose of multiple daily showering and weekly cleaning activity.

**Reactions from cleaning materials are identified as those that can result from the use of abrasive cleaners or caustic drain cleaners allowed to stand for over 10 minutes.

The use of permanent non-slip type appliques or rubber bath mats that are left in place after use for over 24 hours may result in blistering of the surface which is not covered under our warranty.

Best Bath Systems will under no circumstances be liable for water damage to the dwelling and furnishings in connection with any bathing unit. It is the

responsibility of the purchaser/installer to inspect and test the unit upon receipt and installation.

If a replacement of the warranted item is determined to be necessary, this warranty does not cover labor costs involved in demolition and removal of item or installation of the replacement.

Filing a Claim

To file a claim, contact Best Bath Systems Customer Service/Warranty Department by phone, email, or mail.

Please contact:
National Customer Service Supervisor
Best Bath Systems, Inc.

Caldwell, ID 83605

Phone: (208) 433-6650 Toll free: (866) 433-6650
Fax: (208) 433-6643 Toll free: (866) 333-8657

Email: warranty@best-bath.com **Web Site:** www.best-bath.com

The following information is necessary to process your claim:

1. Name, address, email and phone number
2. Sales Order number, Invoice number, Purchase Order from the original customer, or some documentation that reflects original date of purchase
3. Description of damage and repair requested

State laws relating to this warranty

Some states laws prohibit limitations on warranties. In any case where a portion of this warranty is found to be not legal or conflicting with any state law, that portion of this warranty is voided but all other portions remain valid.

Modifications to this Warranty

This document supersedes all previous warranties written, verbal, or implied issued by Best Bath Systems, Inc.
Best Bath Systems, Inc. reserves the right to modify or change this warranty in its entirety at any time without prior notification. Effective date of this warranty is 11/1/2009.
Modified 5/19/2010.

CUSTOMER RETURNS POLICY

1. No merchandise returns will be accepted without Best Bath Systems, Inc. authorization.
2. A minimum restocking charge of 25% will apply to all material authorized for return.
3. Materials with factory defects or merchandise eligible for authorized return will be subject to inspection for damage, wear, or use.
4. No credit will be issued for damaged or used goods.
5. Special order items are not eligible for return.
6. All materials being returned for credit must have all freight charges prepaid in advance of issuing credit.
7. All materials must be in original manufacturer packaging.
8. Returns will not be accepted after 30 days of receipt of material.

PRODUCT WARRANTY POLICY

1. Best Bath Systems, Inc. manufactures it's own products.
2. Best Bath Systems, Inc. offers a 30 year warranty on it's manufactured products.
3. Product warranty information is available from the manufacturer's sales representatives and/or on the manufacturer's web site.

PRODUCT SPECIFICATIONS INTRODUCTION

Immediately following this page are several sets of product specification samples and product explanation guides to assist in the purchasing process. The product guides follow as such:

- Best Bath Shower general overview and introduction
- Composite shower wall and floor structure overview
- Lifetime Shower System product explanation
- Barrier Free and Remodeler shower lines explained
- Best Bath product coding system explanation
- Barrier Free product examples
- Escape bath tub product explanation and examples
- Remodeler units examples
- Shower packages examples

The Lifetime Shower System

From Best Bath Systems, Inc.

The last Shower Remodel you will ever need!

Remodeling with a Lifetime Shower allows you to easily adapt your shower as bathing needs change.

Durability, strength and value are built into every adaptable shower we offer!

Leak proof, easy installation multi-piece showers - Custom accent color available

Standard curbed shower with glass door

The Lifetime Shower is an adaptable low threshold shower, with a semi-permanent threshold strong enough to hold a shower door or be removed for safe accessibility.

No special construction, no hassle or messy remodeling!

This shower can easily convert to a safe low-threshold shower by:

- Remove the shower door
- Cut the silicone around the semi-permanent threshold
- Lift off the threshold

After removing the door & semi-permanent threshold the minimum height shower with installed WaterStopper is revealed

Safe, accessible shower in place in a few hours without extensive remodeling

Adaptable? You Bet! As your needs change, the process is reversible. The threshold is put back in place and the shower door reinstalled. It easily converts back to a standard shower.

The Lifetime Shower System is definitely the way to go.

We offer Lifetime Showers to fit any size requirement.

Product line explained

The **BARRIER FREE** units are showers designed with low thresholds angled $\frac{1}{2}$ to 2-1/4 inch that enable users of limited mobility to more easily step into the shower or move a wheelchair over the threshold with minimal effort. All units are multi-piece for easy installation and have full 3/8-inch encased plywood in all walls enabling installation of safety bars and seats anywhere on the unit.

The **REMODELER** units are multi-piece and also ideal for retrofitting a bathroom, allowing easy access into tight bathroom spaces, around corners and into upper floor bathrooms. The Best Bath multi-piece showers are designed for quick installation. The walls and base of our composite fiberglass units are solid. All showers are reinforced with full 3/8-inch plywood encased in the walls for superior stiffness and the ability to add accessories such as safety bars and seats. These units feature traditional threshold curbs in the 5-to 6-inch range.

The Barrier Free Shower (left) has an accessible threshold with the WaterStopper water retainer, safety bars and a swing down seat.

The Remodel unit on the right has a traditional threshold and a molded-in seat.

Our **WALK-IN TUB** units are one piece and ideal for retrofitting a bathroom. They are designed for quick installation.

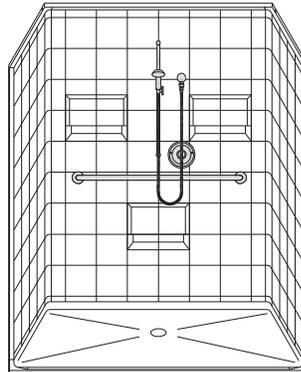

Our line of Walk In Tubs (left) fit in a traditional bath tub space and have a limited life-time warranty. They can be ordered with both air and water jets. Units can be ordered with walls and tub extension.

Product Coding System

This system is not as difficult as it might first appear. With a little practice you will be able to look at a code and have a good understanding of the unit in question. It is important for all Best Bath dealers to become familiar with our coding system.

Barrier Free Shower Model: 5LES6036B75B

Model Number Details

5 L E S 6036 B 75 B R

Number of unit pieces ————
no number equals one piece

Height of unit: L=Luxury; X=Extra Tall ————
AP - Access Plus 75" to 85 85+"

Surface pattern and finish: ————
S = Smooth wall
C = Classic 4 inch tilen (textured)
D = Diamond tile
E = 8 inch tile
R = RealTile (smooth tile)

Type of Unit: ————
S = Shower J=Jetted
TS = Tub/shower SS=Built-in Shower Seat
P = Pan C=Corner Unit

Overall unit size: 60 Wide x 36 Deep ————

Product Family: ————
B=Barrier Free; A=ADA
Or means Drain location: E=end; R=rear

Threshold Height in inches: ————
5 = 1/2 inch; 75=3/4 inch; 1=one inch; 125= one inch and 1/4

Threshold Shape: ————
T = Traditional (90 degree) bull nose; B=Beveled

Optional

R

Drain location:
R=Right hand;
L=Left hand

Product Coding System

First character is the **number of pieces**:

Multi-piece model numbers start with 3, 4, or 5 indicating the total number of pieces in the finished bathing unit.

Second character is the **height**: (units up to 75" in height are not designated)

(L) Luxury: indicates that a unit is between 75" to 85" tall (excluding the nailing flange).

(X) Extra Height: indicates that the unit is exceeding 85" in height

(AP) Access Plus: indicates that the tub unit has a transfer seat

The Third character is the **finish and pattern**

C indicates "Classic 4 inch tile with a textured or dimpled finish.

D indicates "Diamond Tile" finish.

E indicates "Eight-inch Tile" finish.

R indicates "RealTile" 4 inch tile with a smooth finish

S indicates "Smooth" and no texture.

The fourth character is the **type** of unit

S indicates that the unit is a shower

SS indicates that a shower has an integral seat (molded as part of the shower).

TS indicates that the unit is a tub/shower combination unit.

P indicates a shower pan.

J indicates a jetted unit

C indicates that the unit is a corner unit.

N indicates that the unit is a neo-angle shower.

The fifth set of numbers is the **overall size** of the unit The four (4) numbers indicate the width and the depth of the unit, i.e. 6032 indicates that the unit is 60" wide and 32" deep (excluding the nailing flange).

The sixth character indicates the **product** family

B indicates Barrier Free (shower or tub/shower with a low curb).

Remodeler (shower or tub/shower with traditional threshold) has no designation

The seventh character indicates the **curb height**

This is only a one or two digit number indicating the height of the curb.

To indicate a three digit number 1.75 the last number is dropped and becomes 17,

i.e. One and $\frac{3}{4}$ inch = 1.75 inches which becomes 17

$\frac{1}{2}$ inch = 5 $\frac{3}{4}$ inch = 75 1 inch = 1 $1\frac{1}{4}$ inch = 12 $1\frac{1}{2}$ inch = 15 $1\frac{3}{4}$ inch = 17
2 inch = 2 $2\frac{1}{4}$ inch = 22 $2\frac{1}{2}$ inch = 25 $2\frac{1}{2}$ inch = 25 $2\frac{3}{4}$ inch = 27

The eighth character indicates the **curb shape**

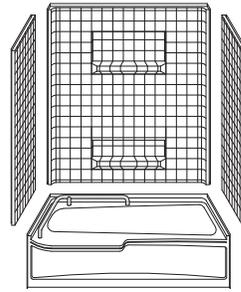

B for Beveled. T for Traditional bull nose (90 degrees).

The ninth character is **optional** and used only as necessary to indicate **drain location** if it can be left or right.

R - Right hand drain

L - Left hand drain

Product Coding System

EXAMPLES:

PAN - P6030B17BR

(No first number indicates one-piece unit)

- P- Pan
- 60- 60" outside width (excluding the reveal with its nailing flange)
- 30- 30" deep (excluding the nailing flange)
- B- Barrier Free
- 17- Threshold is 1 3/4" high (1.75) threshold
- B- Beveled curb
- R Is a right-hand drain

TUB/SHOWER 4APRTS6034

- 4- Four piece unit
- AP- Access Plus
- R- 4 Inch Tile (Realtile) finish
- TS- Tub/Shower
- 60- 60" outside width (excluding the reveal with its nailing flange)
- 34- 34" deep (excluding the nailing flange)
- B - Barrier Free

Escape

Luxury Walk-In Bathing
from **Best Bath SYSTEMS**

LTOW5030
with optional wall system

Product Features

Uni-body construction

*Strength and beauty, easy to operate, easy to install
A wonderful new bathing experience!*

- Unique uni-body construction – one solid piece of composite fiberglass with gelcoat surface. The apron, tub deck and bowl are seamlessly molded together producing maximum structural rigidity.
- Due to this superior strength and resistance to movement, it has a door opening impervious to twisting and warping – *life time warranty on the door seal.*
- Durable and user friendly door latch. All stainless steel and brass components, no plastic. Should any adjustment ever be required, it is easily done at the lever. Patent pending.
- Jetted models feature the new Syllent Pump: the quietest whirlpool pump available. This is the only pump available with a heat recycling feature to help maintain water temperature and avoid the need for an in-line heater. This pump has no seals to leak, no bearings to wear out and has a 10 year factory warranty.
- Stainless steel cable operated tub drain mechanism with a lever handle for easy operation.
- Pre-installed plumbing with quick connect lines for easy professional installation.
- Deck extension and wall surround available.

Life-time warranty
on door seal

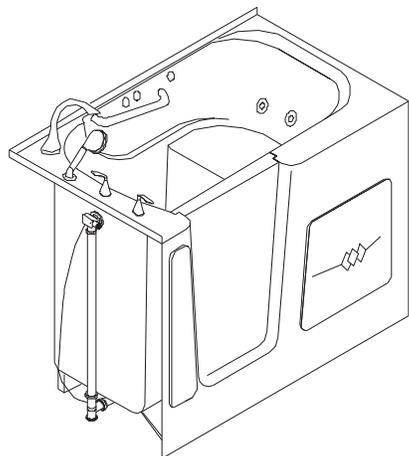

New Syllent Pump,
no seals to leak.
