2. MAXIMUM ORDER

238910 and 334512 \$250,000 per SIN/\$500,000 per Order If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contractor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under a schedule contract in accordance with FAR 8.404.

3. MINIMUM ORDER

None

4. GEOGRAPHIC COVERAGE

Domestic, 50 states, Washington DC, Puerto Rico, US Territories and to a CONUS port or consolidation point for orders received from overseas.

5. PRODUCTION POINT

6. DISCOUNT FROM LIST PRICES

26% from the Trofholz Technologies, Inc. Commercial Price List effective 05/18/2011. For calculation of the GSA Schedule price (price paid by customers ordering from the GSA Schedule, and the price to be loaded into GSA Advantage), the contractor should deduct the appropriate basic discount from the list price and add the prevailing IFF rate to the negotiated price (Net GSA Price). Current IFF rate is 0.75%. Negotiated price divided by (1 minus .0075) which equates to Negotiated price divided by 0.9925 (1 minus .0075) which equates to negotiated price divided by 0.9925. Example: $(\$1000,000 * (1 - .0075) / 0.9925 = \$100,755.67$ List price multiplied by (1 - discount) divided by .9925 (1 minus .0075) which equates to negotiated price divided by 0.9925. Example: $(100,000 / 0.9925) = \$100,755.67$.

7. QUANTITY DISCOUNTS

None

8. PROMPT PAYMENT TERMS

1% 15 Net 30

9a. GOVERNMENT PURCHASE CARDS MUST BE ACCEPTED AT OR BELOW THE MICRO-PURCHASE THRESHOLD

TROFHOLZ LABOR CATEGORY DESCRIPTIONS

Project Coordinator I (PH)

Functional Responsibility: Plans and coordinates project scheduling, budgeting, and administrative tasks. Supports the project staff by facilitating project logistics such as meetings, conference rooms, conference calls, etc. Takes meeting minutes and action items during meetings and performs basic follow-up. Assists in development of presentations. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of tasks. Typically reports to a project leader or manager.

Minimum/General Experience: Requires a minimum of 3 years related experience.

Minimum Education: Associate's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Project Coordinator II (PI)

Functional Responsibility: Plans and coordinates project scheduling, budgeting, and administrative tasks. Supports the project staff by facilitating project logistics such as meetings, conference rooms, conference calls, etc. Takes meeting minutes and action items during meetings and performs basic follow-up. Assists in development of presentations. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of tasks. Typically reports to a project leader or manager.

Minimum/General Experience: Requires a minimum of 4 years related experience.

Minimum Education: Associate's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Project Coordinator III (PJ)

Functional Responsibility: Assists in the preparation of management plans and reports. Coordinates schedules to facilitate completion of proposals, contract deliverables, task order review, briefing/presentations, and IPR preparation. Performs analysis, development, and review of program administrative operating procedures. Specialized experience in general contract administration.

Minimum/General Experience: Requires a minimum of 5 years related experience, 2 years of which should be specifically in contract administration.

Minimum Education: Associate's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Project Coordinator IV (PQ)

Functional Responsibility: Serves as project lead and plans and coordinates project scheduling, budgeting, and administrative tasks. Leads the project staff by overseeing project logistics such as meetings, conference rooms, conference calls, etc. Reviews meeting minutes and action items during meetings and basic follow-up. Helps staff in development of

presentations. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of tasks. Typically reports to a project manager.

Minimum/General Experience: Requires a minimum of 7 years related experience, 2 years of which should be specifically in related field.

Minimum Education: Bachelor's degree in a related area. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

AutoCAD Designer I (DE)

Functional Responsibility: Transforms initial rough product designs using computer aided design (CAD) into working documents. Reviews engineering drawing and designs to ensure adherence to established specifications and standards. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Primary job functions do not typically require exercising independent judgment. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 1 year's related experience.

Minimum Education: Associate's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

AutoCAD Designer II (DF)

Functional Responsibility: Transforms initial rough product designs using computer aided design (CAD) into working documents. Reviews engineering drawing and designs to ensure adherence to established specifications and standards. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Primary job functions do not typically require exercising independent judgment. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 2 years related experience, 2 years of which must be specialized

Minimum Education: Associate's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Design Engineer I (DG)

Functional Responsibility: Designs new products and makes improvements to existing products. May evaluate products, parts, or processes for cost efficiency and reliability. Works with other members of the engineering staff to ensure that production is completed in a timely manner. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 2 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Design Engineer II (DH)

Functional Responsibility: Designs new products and makes improvements to existing products. May evaluate products, parts, or processes for cost efficiency and reliability. Works with other members of the engineering staff to ensure that production is completed in a timely manner. Familiar with standard concepts, practices, and procedures within a particular field. Relies on experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision. A certain degree of creativity and latitude is required. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 4 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Design Engineer III (DO)

Functional Responsibility: Designs new products and makes improvements to existing products. May evaluate products, parts, or processes for cost efficiency and reliability and ensure project completion. Works with other members of the engineering staff to ensure that production is completed in a timely manner. Familiar with standard concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. May lead and direct the work of others. A wide degree of creativity and latitude is expected. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 6 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Engineer I (EA)

Functional Responsibility: Responsible for design, development, implementation, and analysis of technical products and systems. Performs engineering design evaluations. May develop a range of products. Recommends alterations to development and design to improve quality of products and/or procedures. Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 2 years related experience.

Minimum Education: Bachelor's degree in Engineering. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Engineer II (EB)

Functional Responsibility: Responsible for design, development, implementation, and analysis of technical products and systems. Performs engineering design evaluations. May develop a range of products. Recommends alterations to development and design to improve quality of products and/or procedures. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. A wide degree of creativity and latitude is expected. May report to an executive or a manager.

Minimum/General Experience: Requires a minimum of 4 years related experience.

Minimum Education: Bachelor's degree in Engineering. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Engineering III (EC)

Functional Responsibility: Provides expert judgment and analysis for the design, development and implementation of technical products and systems. Resolves highly complex technical issues and conducts advanced research. Recommends alterations to development and design to improve quality of products and/or procedures. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. Leads and directs the work of others. A wide degree of creativity and latitude is expected. May report to an executive or a manager.

Minimum/General Experience: Requires a minimum of 6 years related experience.

Minimum Education: Bachelor's degree in Engineering. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Quality Assurance Specialist I (SG)

Functional Responsibility: Performs inspections and sets quality assurance testing models for analysis of raw materials, materials in process, and finished products. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Primary job functions do not typically require exercising independent judgment. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 2 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Quality Assurance Specialist II (SH)

Functional Responsibility: Performs inspections and sets quality assurance testing models for analysis of raw materials, materials in process, and finished products. Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision; typically reports to a supervisor or manager. A certain degree of creativity and latitude is required.

Minimum/General Experience: Requires a minimum of 4 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Quality Assurance Specialist III (SI)

Functional Responsibility: Performs inspections and sets quality assurance testing models for analysis of raw materials, materials in process, and finished products. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May report to an executive or a manager. A wide degree of creativity and latitude is expected.

Minimum/General Experience: Requires a minimum of 6 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Quality Assurance Specialist IV (SJ)

Functional Responsibility: Performs inspections and sets quality assurance testing models for analysis of raw materials, materials in process, and finished products. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. Leads and directs the work of others. A wide degree of creativity and latitude is expected. May report to an executive or a manager.

Minimum/General Experience: Requires a minimum of 8 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Systems Engineer I (EP)

Functional Responsibility: Reviews, analyzes, develops, installs, and modifies computer operating systems. Analyzes and resolves problems associated with operating systems. Detects, diagnoses, and reports related problems. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Primary job functions do not typically require exercising independent judgment. Typically reports to a project leader or manager.

Minimum/General Experience: Requires a minimum of 2 years related experience.

Minimum Education: Associate's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Systems Engineer II (EQ)

Functional Responsibility: Reviews, analyzes, develops, installs, and modifies computer operating systems. Analyzes and resolves problems associated with operating systems. Detects, diagnoses, and reports related problems. Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision; typically reports to a project leader or manager. A certain degree of creativity and latitude is required.

Minimum/General Experience: Requires a minimum of 4 years related experience.

Minimum Education: Associate's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Systems Engineer III (ER)

Functional Responsibility: Reviews, analyzes, develops, installs, and modifies computer operating systems. Analyzes and resolves problems associated with operating systems. Detects, diagnoses, and reports related problems. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. Typically reports to a project leader or manager. A wide degree of creativity and latitude is expected.

Minimum/General Experience: Requires a minimum of 6 years related experience.

Minimum Education: Associate's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Systems Engineer IV (ES)

Functional Responsibility: Reviews, analyzes, develops, installs, and modifies computer operating systems. Analyzes and resolves problems associated with operating systems. Detects, diagnoses, and reports related problems. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. Leads and directs the work of others. A wide degree of creativity and latitude is expected. Typically reports to a manager or head of a unit/department.

Minimum/General Experience: Requires a minimum of 8 years related experience.

Minimum Education: Associate's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Technical Writer I (ON)

Functional Responsibility: Writes a variety of technical articles, reports, brochures, and/or manuals for documentation for a wide range of uses. May be responsible for coordinating the display of graphics and the production of the document. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Primary job functions do not typically require exercising independent judgment. Works under immediate supervision; typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 2 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Technical Writer II (OJ)

Functional Responsibility: Writes a variety of technical articles, reports, brochures, and/or manuals for documentation for a wide range of uses. May be responsible for coordinating the display of graphics and the production of the document. Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision; typically reports to a supervisor or manager. A certain degree of creativity and latitude is required.

Minimum/General Experience: Requires a minimum of 4 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Technical Writer III (OK)

Functional Responsibility: Writes a variety of technical articles, reports, brochures, and/or manuals for documentation for a wide range of uses. May be responsible for coordinating the display of graphics and the production of the document. Familiar with a variety of the field's concepts, practices, and procedures. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. May lead and direct the work of others. Typically

reports to a manager or head of a unit/department. A wide degree of creativity and latitude is expected.

Minimum/General Experience: Requires a minimum of 6 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Technical Writer IV (OL)

Functional Responsibility: Writes and edits a variety of technical articles, reports, brochures, and/or manuals for documentation for a wide range of uses. May be responsible for coordinating the display of graphics and the production of the document. Familiar with a variety of the field's concepts, practices, and procedures. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. May lead and direct the work of others. Typically reports to a manager or head of a unit/department. A wide degree of creativity and latitude is expected.

Minimum/General Experience: Requires a minimum of 8 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Test Engineer I (ET)

Functional Responsibility: Evaluates, recommends, and implements automated test tools and strategies. Develops, maintains, and upgrades automated test scripts and architectures for application products. Also writes, implements, and reports status for system test cases for testing. Analyzes test cases and provides regular progress reports. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 2 years related experience.

Minimum Education: Bachelor's degree in area of specialty. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Test Engineer II (EU)

Functional Responsibility: Evaluates, recommends, and implements automated test tools and strategies. Develops, maintains, and upgrades automated test scripts and architectures for application products. Also writes, implements, and reports status for system test cases for testing. Analyzes test cases and provides regular progress reports. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 4 years related experience.

Minimum Education: Bachelor's degree in area of specialty. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Test Engineer III (EV)

Functional Responsibility: Evaluates, recommends, and implements automated test tools and strategies. Develops, maintains, and upgrades automated test scripts and architectures for application products. Also writes, implements, and reports status for system test cases for testing. Analyzes test cases and provides regular progress reports. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 6 years related experience.

Minimum Education: Bachelor's degree in area of specialty. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Voice/Data Communications Engineer I (VA)

Functional Responsibility: Analyzes telecommunications functions of organizations. Works to develop, improve, maintain, and implement network. Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision. A certain degree of creativity and latitude is required. Typically reports to a supervisor or manager.

Minimum/General Experience: Requires a minimum of 2 years related experience.

Minimum Education: Bachelor's degree in area of specialty. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Voice/Data Communications Engineer II (VB)

Functional Responsibility: Analyzes telecommunications functions of organizations. Works to develop, improve, maintain, and implement network. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. May lead and direct the work of others. A wide degree of creativity and latitude is expected. Typically reports to a manager or head of a unit/department.

Minimum/General Experience: Requires a minimum of 4 years related experience.

Minimum Education: Bachelor's degree in area of specialty. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Voice/Data Communications Engineer III (VC)

Functional Responsibility: Analyzes telecommunications functions of organizations. Works to develop, improve, maintain, and implement network. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. May lead and direct the work of others. A wide degree of creativity and latitude is expected. Typically reports to a manager or head of a unit/department.

Minimum/General Experience: Requires a minimum of 6 years related experience.

Minimum Education: Bachelor's degree in area of specialty. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Voice/Data Communications Engineer IV (VD)

Functional Responsibility: Analyzes telecommunications functions of organizations. Works to develop, improve, maintain, and implement network. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. May lead and direct the work of others. A wide degree of creativity and latitude is expected. Typically reports to a manager or head of a unit/department.

Minimum/General Experience: Requires a minimum of 8 years related experience.

Minimum Education: Bachelor's degree in area of specialty. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Install Tech I (TA)

Functional Responsibility: Installs, maintains, tests, troubleshoots, and repairs switches, cables, and other telecommunications equipment in the field to ensure optimum network usage and quality. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Typically reports to a supervisor.

Minimum/General Experience: Requires a minimum of 2 years related experience.

Minimum Education: High School Diploma or equivalent and applicable training certificate.

Install Tech II (TB)

Functional Responsibility: Installs, maintains, tests, troubleshoots, and repairs switches, cables, and other telecommunications equipment in the field to ensure optimum network usage and quality. Familiar with standard concepts, practices, and procedures within a particular field. Relies on experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision. A certain degree of creativity and latitude is required. Typically reports to a supervisor.

Minimum/General Experience: Requires a minimum of 4 years related experience.

Minimum Education: High School Diploma or equivalent and applicable training certificate.

Install Tech III (TC)

Functional Responsibility: Installs, maintains, tests, troubleshoots, and repairs switches, cables, and other telecommunications equipment in the field to ensure optimum network usage and quality. Familiar with standard concepts, practices, and procedures within a particular field. Relies on experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision. A certain degree of creativity and latitude is required. Typically reports to a supervisor.

Minimum/General Experience: Requires a minimum of 6 years related experience.

Minimum Education: High School Diploma or equivalent and applicable training certificate.

Facilities Manager I (PA)

Functional Responsibility: Assures the optimal functioning of building systems including mechanical, fire/life safety, elevators etc. May manage a staff of employees in the maintenance of buildings and grounds. May oversee contractors for facilities renovation project entailing, HVAC, electrical, production floor arrangement, etc. Relies on experience and judgment to plan and accomplish goals. Typically reports to a senior manager.

Minimum/General Experience: Requires a minimum of 5 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Facilities Manager II (PB)

Functional Responsibility: Assures the optimal functioning of building systems including mechanical, fire/life safety, elevators etc. May manage a staff of employees in the maintenance of buildings and grounds. May oversee contractors for facilities renovation project entailing, HVAC, electrical, production floor arrangement, etc. Relies on experience and judgment to plan and accomplish goals. Typically reports to a senior manager.

Minimum/General Experience: Requires a minimum of 7 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Facilities Manager III (PR)

Functional Responsibility: Directs the daily activities of the facilities department. Oversees the functioning of building systems including mechanical, fire/life safety, elevators etc. May manage a staff of employees in the maintenance of buildings and grounds. Oversees contractors for facilities renovation projects entailing HVAC, electrical, production floor arrangement, etc. Familiar with a variety of concepts, practices, and procedures within a particular field. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. A wide degree of creativity and latitude is required. Leads and directs the work of others. Typically reports to a top management.

Minimum/General Experience: Requires a minimum of 10 years related experience.

Minimum Education: Bachelor's degree. Qualifying technical training and/or experience may be substituted for education using relationship of 1-year training and/or experience per year of education.

Management Consultant I (CA)

Functional Responsibility: Provides expert consultation in one or more areas for the design, development and implementation of technical products and systems. Recognized as technical leader and resource. Recommends alterations and enhancements to improve quality of products and/or procedures. Responsible for all internal activities and product development. Demonstrates expertise in a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. May provide consultation on complex projects and is considered to be the top level contributor/specialist. A wide degree of creativity and latitude is expected.
