GSA Schedule Pricing will be established as follows:

The Butane Propane News, Inc. (BPN) market indicator will be used to track the latest available cost for gas at regional pricing terminals. It is available for review at https://www.bpnews.com/. There are two primary regions with separate terminals (gas plant locations) assigned that San Luis Butane Distributors, Inc. operates from for its service locations:

<table>
<thead>
<tr>
<th>Region Number</th>
<th>Service Location</th>
<th>Pricing Terminal</th>

<tbody>

</tbody>
</table>

GSA Prices will be based on the BPN posted price for each terminal listed above on the first Monday of each month. The total price per gallon will also include the IFF rate which is currently 0.75%. Below is the formula which will be utilized for GSA pricing based on the BPN posted fees:

\[
\text{Price per Gallon} = \text{Butane Propane Newsletter (BPN) Terminal Price} + \text{Markup} + 0.75\% \text{ (IFF)}
\]

Below is a summary of our negotiated GSA mark-up. There are two tiers provided based on annual volume of contracted gallons:

**Note 1:** Please contact San Luis Butane Distributors Sales Representative for requests in excess of 100,000 gallons

**Note 2:** All prices include delivery charges within a fifty mile radius of the nearest service location. All deliveries are to be made during normal working hours of the contractor. For deliveries outside the service locations, please call contractor for pricing.

**Note 3:** Contractor supplied storage tanks can only be filled by the owner of said tank per applicable codes. This contractor will not allow other suppliers to fill SLBD/DLE owned tanks, nor will this contractor fill any tanks not owned by SLBD/DLE unless owned by the government. Tanks not previously installed under prior supply contracts may be subject to normal installation and rental fees at the time of delivery.

**Note 4:** Prices shown include Industrial Funding Fee, but exclude any other applicable taxes or fees.

San Luis Butane Distributors, Inc. will submit revised pricing on the first Monday of each month on GSA Advantage! recognizing the new terminal price (based on the BPN Market Indicator) included in our price per gallon fee (calculated as shown above). This eliminates the necessity of constant modification requests for monthly price changes as long as adherence to the formula is maintained.

Please note that pricing shown in GSA Advantage! will prevail as the accepted contract pricing until replaced by a revised GSA Advantage! file submission. Therefore, any price increases will not be effective to ordering agencies until posted in GSA Advantage! All other terms and conditions remain unchanged.
