Course Descriptions

Highland Canine Training LLC
Working Dogs

Police

Single Purpose Narcotics
Narcotics detection dogs are trained to your specifications with an aggressive (scratch) or passive (sit) alert. Narcotics detection dogs are trained to indicate on the following odors: marijuana, cocaine, heroin, methamphetamines and derivatives. At Highland Canine Training, LLC, we don't just train successful drug detection dogs...we train successful drug detection dog teams. A majority of the drug detection dog teams that we have trained have had substantial seizures, some within only a few hours of returning to duty. That's because we ensure that our dog teams are completely confident and well trained in criminal interdiction in addition to learning the necessary skills to be an effective canine handler. Our courses teach handlers every aspect of handling detection dogs from properly searching vehicles, avoiding liability pitfalls and successfully prosecuting narcotics detection canine related cases in court.

Single Purpose Patrol
Highland Canine Training, LLC is dedicated to providing the best police patrol dogs possible. We understand how important it is for police dogs to respond appropriately in the field. Therefore, we provide social dogs that are environmentally sound and have well balanced drives. All of our police patrol dogs are trained in off-lead obedience for complete control. Police dogs are also trained in the areas of practical agility, criminal apprehension, handler protection, tactical building searches, area and wooded searches, evidence/article recovery and trailing. All of our police patrol dogs are trained based on your department's needs and specifications and can be cross-trained in either narcotics or explosives detection. Included with the price of the dog is a comprehensive four week handler course to fully integrate the dog and handler.
before putting them on the street. Free in-service training and problem solving sessions are included with all of our working dog packages. Police Patrol Dog courses can be customized to fit departmental needs and are taught by current and former law enforcement handlers. The course includes practical exercises and lecture on topics such as Basic and Advanced Obedience, Record Keeping and Report Writing, Tactical Building Searches, Felony Vehicle Stops / High Risk Apprehensions, Tactical Tracking / Trailing, Establishing an Effective Perimeter for Patrol, Conducting Proper Demonstrations, Canine Case Law, Care and Maintenance and First Aid. Literature and handouts are provided for all course content.

**Single Purpose Bomb**
Explosives detection dogs are trained only with a passive alert. Explosives detection dogs are trained on the following odors: Nitrate and Chlorate Explosives Salts, PETN, TATP, RDX, TNT, Dynamite and derivative formulations. Our explosives detection handler courses are as intensive as our narcotics handler courses. We ensure that all of our handlers are completely comfortable with their new partner before completing our courses. Our rigorous certification program ensures that our handlers are completely capable of performing effectively when they return to the field.

**Dual Purpose Narcotics/Patrol**
Dual Purpose Narcotics/Patrol dogs are trained to perform both functions: Single Purpose Narcotics and Single Purpose Patrol as described above.

**Dual Purpose Bomb/Patrol**
Dual Purpose Bomb/Patrol dogs are trained to perform both functions: Single Purpose Bomb and Single Purpose Patrol as described above.

**Search and Rescue**

**Tracking/trailing**
Dogs can be trained in scent discrimination tracking / trailing. Tracking and Trailing dogs are capable of following human odor for great distances. Tracking and Trailing dogs are by far, the most utilized of all search and rescue dog. These dogs are trained to track / trail on various terrains such as grass, gravel, concrete, asphalt, sand and wooded areas, otherwise known as VST or Variable Surface Tracking. Tracking / Trailing dogs are a valuable asset in locating missing children, alzheimers patients and other missing persons. Tracking / Trailing dogs can also be taught to conduct scent line-ups and suspect identifications. Our Tracking and Trailing handler course typically lasts for two weeks and provides training on equipment types and proper use, proper handling skills, understanding negative indications, understanding and managing training variables, basic and advanced scent theory, record keeping and report writing, proper maintenance training, as well as K9 first aid and CPR. Our handler schools also provide the
handler with ample hands-on training with a variety of dogs to ensure that they are capable of reading and understanding tracking and trailing dogs.

**Air Scent/Wilderness**
Wilderness dogs are trained to locate individuals in rugged terrain that is generally difficult for human searchers to navigate. Wilderness search dogs are typically trained in agility as well as on and off lead obedience for complete control. These dogs generally work off lead as air-scenting dogs to locate lost or missing individuals quickly and reliably. Wilderness search dogs can be trained with a bark and hold indication or a re-find alert. Our Wilderness Search and Rescue Dog handler courses offer instruction in basic and advanced scent theory, K-9 variables, proper handling techniques, proper search patterns and methodology as well as record keeping and maintenance training. These courses provide hands on training in some of the most rugged environments that the east coast has to offer.

**USAR**
USAR, Disaster or Urban Search and Rescue Dogs are trained to search for live humans in various environments. These dogs are utilized to search collapsed buildings and other structures after, tornados, earthquakes as well as other natural and man made disasters. Urban search and rescue dogs take a considerable amount of training and require a huge commitment on the part of the handler to maintain. These search dogs are trained to be comfortable on collapsed buildings and other unstable footings such as roofing and rubble. USAR dogs are typically trained in agility, on and off leash obedience as well as distance (directional) control. Disaster dogs are capable of performing in the rigorous and harsh environments that are created by the disaster scenes that they are required to perform in. Our Urban Search and Rescue Dog handler courses include training in search methods and strategies, understanding training variables, basic and advanced scent theory, managing disasters and critical incidents, K-9 First Aid and CPR, record keeping and maintenance training. Our courses offer the handler a great deal of practical, hands-on training to ensure that they are comfortable working with their USAR dog in the field.

**Cadaver**
*Cadaver (Land) fields and wooded environments including caves and structures (buildings)*

*Water Cadaver (includes land cadaver)*

*Disaster Cadaver (includes land cadaver as well as searches in rubble piles and disaster environment)*

HRD, Human Remains Detection or (Cadaver) dogs are trained to locate various types of human remains such as flesh, hair, bone, blood, teeth, etc. Cadaver dogs are trained to indicate on
human odor in various states of decomposition. Cadaver detection dogs are trained in a variety of demanding environments to ensure their reliability in the field. These dogs can be trained to indicate with a passive (sit) or active (scratch) alert. We offer dogs trained for both land cadaver and water cadaver detection. Our cadaver dog courses are designed to teach the handler information on proper handling, reading and understanding cadaver dogs, basic and advanced human decomposition, record keeping, evidence handling, cadaver dog case law, liability with cadaver dogs, K-9 First Aid and CPR as well as proper handling and storing training aids.

**Personal Protection Dogs**

Highland Canine Training, LLC strives to provide top quality personal protection dogs to protect you and your entire family. These dogs, while obedient guardians, are also social and family oriented. All of our personal protection dogs are completely trained in on as well as off leash obedience for total control. In addition to obedience training, these dogs are trained and socialized to live comfortably in your home. We offer affordable personal protection dogs trained at various levels for your home or business. Included with any protection dog purchase is a course designed to get your dog comfortable with his new home. Delivery is available worldwide. We come to your home or place of business and work with you to ensure that you are comfortable working and living with your new protection dog.

We offer the finest imported dogs from Europe. We specialize in:

*German Shepherds*
*Belgian Malinois*
*Belgian Tervuren*
*Groenendael*
*Other breeds upon request.*

We offer a two year health guarantee on all of our working dogs. All working dog purchases include hip and elbow x-rays. All of our detection dog packages include free in-service training, lodging, course materials and basic equipment. Follow-up training is included in all of our detection dog packages at no additional cost. Training is available for as long as you own the dog.

**Green Dogs**

Green Dogs are untrained dogs that have passed evaluation to have the proper temperament and drive to be trained as working dogs.
Trainer Courses

Dog Obedience Training and Behavior Modification Programs

Canine Training and Behavior Modification Professional Course
6 Week Course - Teaches the student the proper techniques of teaching, correcting and proofing dogs for reliable on and off-leash obedience. This course also teaches the student how to deal with problem behaviors such as, housebreaking, aggression, fear biting, phobias, etc. This course includes practical hands on work with our instructors as well as classroom lecture. There are no prerequisites for this course. This is a great course for individuals who are looking to take an intensive trainer school to accent a pet related business that they may already have or to work for a dog training or other dog related business.

8 Week Course - Teaches the student the proper techniques of teaching, correcting and proofing dogs for reliable on and off-leash obedience. This course also teaches the student how to deal with problem behaviors such as, housebreaking, aggression, fear biting, phobias, etc. This course includes practical hands on work with our instructors as well as classroom lecture. There are no prerequisites for this course. This is a great course for individuals who are looking to take a course that will give them more experience in working with and rehabilitating problem dogs. This course offers the student more training and handling with a variety of common dog problems.

12 Week Course - Teaches the student the proper techniques of teaching, correcting and proofing dogs for reliable on and off-leash obedience. This course also teaches the student how to deal with problem behaviors such as, housebreaking, aggression, fear biting, phobias, etc. This course includes practical hands on work with our instructors as well as classroom lecture. There are no prerequisites for this course. This is a great course for individuals who are looking to take dog trainer course that will prepare them to open their own dog training or dog related business. This 12 week course gives the student the practical hands on training and interactions with dogs and clients that is required to be completely comfortable in dealing with a majority of common dog related problems. This course also has an emphasis on rehabilitating problem behaviors as well as training dogs for therapy work, service work and dog specialties, such as Rally-Obedience, Agility and competition obedience.

COURSE OUTLINE
Our Professional Obedience and Behavior Modification Professional Trainers Course is designed to teach the student everything that they will need to begin their dog training career. This course provides the student with both lecture and practical, hands-on training with dogs that we have in-kennel at various stages of training. This combination of lecture and practical training through each step of teaching, proofing and rehabilitating dogs will provide the solid foundation needed to be a successful Dog Trainer. This course allows for a great deal of hands
on training with "problem dogs" to teach the student the proper methods of rehabilitating and treating dogs with any common behavioral problem. This course covers everything from properly reading and understanding canine body language to how to develop a website and work with clients and dog owners.

This course is available in 6, 8 and 12 week formats. One of the biggest differences in the length of the program is the amount of practical, hands-on experience that you will receive in dealing with dog behaviors and training. We feel that this in-depth practical experience is what it takes to make a successful dog trainer. Price includes basic equipment and all course materials.

Students are allowed to bring up to two (2) dogs with them during the course. This offers the student the opportunity to not only train the dogs that we have at our facility, but to also work with their personal dogs.

Our students are not required to work in our kennels and are not responsible for any type of "kennel cleaning" or "kennel management" program as with other school and facilities.

Course Outline

**Introduction and Ethology**
- Domestication
- Body Language
- Development
- Physical
- Social
- Behavior Problems
- Physical and Sensory Characteristics

**Crate Training**
- Medical Issues
- Crate training
- Bell training
- House breaking

**First Aid**

**Applied Dog Behavior**
- Behavior Analysis
- Fear Aggression
- Dominance Aggression
- Predatory Aggression
- Maternal Aggression
- Territorial Aggression
- Idiopathic Aggression
- Rehabilitating Dog Problems

**Dog Breeds**

**Animal Husbandry**
- Required Vaccinations
- Symptoms of Contagious Diseases
- Symptoms that Suggest Veterinary Referral
- Symptoms that Suggest Limiting Training
- Preventive Nutrition
Orthopedic diseases of large breeds
Body condition
Age specific
Parasites
Identification
Effects on behavior
Effects on health
Age consideration
Health/Hygiene
Puppies

Learning Theory
Operant Conditioning
Understanding behavioral consequences
Reinforcement – positive and negative
Punishment – positive and negative
Extinction
Application of behavioral consequences
Types of reinforcers and punishers
Primary
Secondary or conditioned
Selection of reinforcers and punishers
Factors influencing effectiveness
Schedules of reinforcement
Teaching duration of behaviors
Discrimination and generalization
Cueing behavior and stimulus control
Training techniques
Prompting
Shaping
Targeting
Classical Conditioning
How conditioning occurs
Extinction
Behaviors influenced by classical conditioning
Environmental Control

Equipment
Basic Training Equipment
Buckle collar
Slip and limited collars (choke chain, Martingale, snap chokes)
Pinch/prong collar
Harness
Fixed length leash
Long line
Retractable leash
Clicker
Ancillary Equipment (Purpose and Safety)
Bark collar (shock, citronella, sound)
Containment system (shock, citronella, sound)
Remote collar (shock, citronella, sound)

**Business Development**
Website
Marketing
Pricing
Logo
Client Relations
Teaching Skills
Explain, demonstrate, assist
Development of lesson plans
Development of handouts
Kennel Management (No cleaning of kennels required)

**Examination and Certification**

**Police K9 and Working Dog Programs**

**Detection Canine Trainer Course**
Teaches the student the proper methods of selecting a detection prospect, as well as imprinting and training the detection dog for narcotics, explosives or human remains detection work. This course also covers canine case law pertinent to detection dogs, record keeping and report writing, maintenance training, proofing and problem solving for detection dogs. Cost of course includes tuition, application fee, basic equipment and course materials.

Our Detection dog trainers course is designed to teach the student how to select and test dogs for narcotics or explosives detection as well as how to train and maintain these dogs. This course provides the student with both lecture and practical, hands-on training with dogs that we have in-kennel at various stages of training. This combination of lecture and practical training through each step of selecting, developing and training a reliable detection dog will provide the solid foundation needed to be a successful detection dog trainer and handler.

Students are allowed to bring up to two (2) dogs with them during the course. This offers the student the opportunity to not only train the dogs that we have at our facility, but to also work with their personal dogs.

**Course Outline**

Selection of Dogs for Detection
Drive Development
Imprinting Odors
Basic Scent Theory
Advanced Scent Theory
Training Narcotics Detection Dogs
Training Explosives Detection Dogs
Training Human Remains Detection Dogs
Simple Direct Association Detection Method
Deferred Response Detection Method
Hare Detection Method
Detection Training Equipment and Devices
Primary vs. Secondary Rewards in Detection
Teaching the Aggressive alert
Teaching the Passive alert
Developing search methods (vehicles, buildings, open areas)
Proofing Detection Dogs
Proper Handling Techniques
Problem Solving with Detection Dogs
Record Keeping and Report Writing
Canine Case Law and Legal Aspects
Canine First Aid and CPR
Advanced Detection and Interdiction Methods

**DETECTION SPECIALIST PROGRAM**

The Detection Specialist program is designed for those individuals who are ready to begin a career in commercial detection or looking to enhance their skills while incorporating a trained single purpose detection dog into their work. As a single purpose detection dog is included in this program, this very specialized course combines our detection training with the purchase of a trained detection dog and gives you the knowledge and the foundation to quickly get your business off the ground and making money.

These detection dogs can be trained to detect a variety of odors depending on the nature of your company or requirements including but not limited to; narcotics, explosives, bed bug, mold and truffles.

This course will allow you to learn sound detection principles and practices as well as develop marketable handling skills in a setting that allows you to bond with your new teammate over an intensive 6 weeks and gain valuable experience running real world detection problems under the experienced eyes of our trained instructors.

Level 1 - 6 weeks for a total of 240 hours

K9 SPECIALIST PROGRAM

The K9 Specialist program incorporates handler training with the purchase of a dual-purpose detection and patrol dog. This program is designed for current law enforcement personnel as well as civilians interested in handling a dog trained in detection as well as patrol to include; apprehension, handler protection and building searches.

These dogs can be trained in either narcotics or explosives detection in addition to the patrol work.

As a student in this program you will develop handler skills in both detection and patrol work while gaining valuable experience running real world detection and patrol problems.

This course would be ideal for those civilians interested in pursuing a career in the quickly expanding private security industry or a company wanting to add in-house K9 security to their existing program.

Level 1 - 8 weeks for a total of 320 hours

148 Class Hours - 172 Lab Hours

SEMINARS

Highland Canine Training, LLC offers seminars, problem solving and customized training taught by experts with working experience in the subjects. Seminars are offered either on location or at our facility, depending on your needs, budget and facilities. Listed are some "typical" seminars; search and rescue, tracking, land cadaver, and other customized programs are available upon request. Our team of instructors offers seminars on Obedience, Behavior Modification and Working dog topics throughout the world. Please contact us to discuss your specific needs, questions, and to schedule a seminar in your area.

Basic K9 Patrol Seminar
This is a law enforcement seminar designed around patrol training & applications. Each K-9 team will be evaluated and problem solving, maintenance and training plans are developed based on specific needs and goals. Key topics of the seminar are:
* Training and maintaining obedience and control during apprehension work
* Training and maintaining the out
* Introduction to the proper use of the e-collar in police K-9 training
* Recalls / Stopped attacks
* Multiple suspects
* Surprise scenarios to improve live deployment skills
* Decoy skills and presentation in the suit
* Decoy development

Course Length: 3-5 days

Tactical Building Searches
This is a three-day school offered for the handler and canine. The course teaches the handler the proper techniques to more safely conduct building searches. It also teaches the handler how to safely deal with difficult building structures such as stairwells, crawl spaces and attics. This course also teaches the student the proper methods for conducting extractions and safe searches.

This is an ODP approved course.

Course Length: 3-5 days

### Basic Police Canine and SWAT Applications
This is a three day school offered for the handler and canine and special response teams (optional). The course teaches the students the proper techniques of integrating the police canine in SWAT operations. The course also teaches the students how to safely and effectively establish perimeters, conduct searches and perform suspect extractions.

This is an ODP approved course.

Course Length: 3-5 days

### Canine Case Law
This is a one day class offered for the handler, administrator and other members. This course covers current case law that applies to law enforcement handlers and is designed to give the student a sound foundation of canine case law in order that they will be better capable of making good judgments in the application of their canine on a day-to-day basis. This course also covers Fourth and Fourteenth Amendment issues as well as common policy mistakes and FLSA concerns.

Course Length: 1 day

### Search and Rescue Fundamentals & Problem Solving
This is a three-day school offered for the handler and canine. The course covers the fundamentals of search and rescue work, i.e. drives, scent theory, etc. The course teaches the handler the proper techniques to more efficiently handle and interpret the search and rescue dog. This course is open to tracking/trailing, wilderness, urban and HRD dog teams. This course is also designed to assist the handler/dog that may be having training issues.

Course Length: 3-5 days

### Police Canine Decoy School
This is a three-day school offered for the handler and canine. The course teaches the participant the proper methods of interpreting the drives of the dog that are used in criminal apprehension work. It also teaches the participant how to better “catch” police service dogs to optimize the dog’s performance. This course also offers the student a basic understanding of all the equipment that is used for training a police service dog properly.

Course Length: 3-4 days

### Advanced Detection (narcotics/explosives) & Problem Solving
This is a three-day school offered for the handler and canine. The course covers the fundamentals of canine detection work, i.e. drives, scent theory, etc. The course teaches the handler the proper techniques to more efficiently conduct searches. It also teaches the handler how to deal with difficult detection problems. This course is also designed to assist the handler/dog that may be having detection problems.

**Course Length: 3-4 days**

**Tactical Tracking**
This is a three-day school offered for the handler and canine. The course covers the fundamentals of scent theory and the effects of the environment. The course teaches the handler the proper techniques to more efficiently and safely handle a tracking/trailing dog. This course is designed for law enforcement teams employed to track victims/suspects. This course is also designed to assist the handler/dog that may be having training issues.

**Course Length: 3-5 days**

**EPIC Dog:**
As the acronym (Explosive Plume Interdiction Canine) suggests, an EPIC dog is a canine unit that we have systematically trained to detect and pursue airborne currents of odor to locate an explosive at its origin. EPIC dogs excel in the detection of explosives situated on that of single or multiple moving human beings. Also equipped with the necessary training, it is a standard that an EPIC unit possesses the capability to likewise detect and present explosives situated in a static environment. This affords both the EPIC unit and their employers the luxury to quickly and efficiently locate potential explosives concealed on people or amidst the environment without the need for 2 separate canines. An EPIC unit’s method of deployment is flexible and is subject to an employer’s standard operating procedure, ambition or gambit.

By virtue of our canines’ meticulous ability to probe the environment for airborne explosive odor an EPIC Canine unit has the capacity to screen immense crowds to locate contraband. An EPIC unit is non-intrusive to the public and has the aptitude to screen 100 plus people per minute with minimal obstruction to foot traffic. They can operate delicately through a crowd whilst on patrol or furthermore be placed in strategic locations to screen crowds of people as they pass their checkpoint.
