About the Company:
Founded in 1971, LI-COR BIOSCIENCES is a global leader in the design, manufacture, and marketing, of high quality, innovative instruments, software, reagents, and integrated systems for plant biology, biotechnology, drug discovery, and environmental research. LI-COR’s expertise with visible and infrared technology has led to the development of numerous instruments and applications in biological research. LI-COR's team of scientists and engineers continue to develop cutting edge instruments that provide researchers and scientists with the tools needed to make precise measurements in the world today. LI-COR scientists and engineers are closely involved in the scientific community through extensive internal R&D, global collaborations with leading scientists, presentations at scientific conferences, workshops and seminars, and publishing in leading scientific journals. By maintaining close relationships with academic, governmental, and industrial research institutions, LI-COR develops products that are at the forefront of modern technology for research in the biological and environmental sciences.
