Company Information:
SAS R & D Services Inc., has been a world leader in contraband detection equipment for over 30 years. We are driven to provide simple yet effective Hand-Held Contraband Detection Equipment. That means starting each day looking for ways to improve our designs and change them for the better. Challenging everything that we know, pushing technological enhancement, efficiency, reliability and responsibility to new limits. We regularly talk to law enforcement officials to understand their needs and listen to their suggestions. These daily interactions make SASRAD more reliable than ever before as your partners in the fight against smuggling. This is our promise to you – because this is not just a job to us but a vocation.

Featured Products:

CONTRABAND DETECTION KITS:
The CEK® and CEK-R Kit, designed by acknowledged experts, is a set of specialist tools and search instruments packed in a rugged transport and storage case ready for instant use in the field by Police – Customs – Border Patrol and other law enforcement agencies. The items in the kit aid in the search for concealed contraband of all types in confined spaces, whether vehicular, marine, aviation or cargo – this equipment will find drugs, weapons, currency, ammunition, WMD and also radioactive materials being illegally transported.

XPOSE DENSITY METER:
The SAS-Hitech-Xpose contraband detector is a compact, lightweight, rugged, handheld density meter designed to aid law enforcement officials with the detection of hidden objects. Frequently, contraband is covertly hidden in inaccessible areas, such as walls, tires, bulkheads, etc., where direct observation is not possible. The Hitech-Xpose gives an indication of

“The Kingsville Ultimate Fiberscope is a vital part of our ongoing effort to combat the smuggling of contraband into the interior of the United States. This fiberscope allows us to inspect the inside of tires which has become a favorite smuggling trend among criminal organizations. We have had several tire loaded narcotic seizures at our Border Patrol Checkpoint with thanks in large part to the Ultimate Fiberscope.

Keep up the innovation and hard work that may assist us in keeping the streets of America a safer place to be for our family and children.”

Logan W. Snider
Field Operations Supervisor
Campo Border Patrol Station, CA
US Customs & Border Protection
contraband concealed in these locations by measuring changes in density across the target area. Unexpected changes indicate the presence of hidden objects or compartments.

**NEW! FOR 2020 Hitech Xpose is now water resistant to IP56 Standards and MIL-STD-810G**

RoHS Compliant - also known as Lead - Free, under Directive 2002/95/EC, originated in the European Union restricts the use of six hazardous materials. All applicable products for the EU market are RoHS compliant.

**VIDEO READYSOPE:**

Built on the same platform as our world renowned Ultimate Fiberscope®, The Readyscope offers the same toughness and dependability our Ultimate Scopes are famous for. The Readyscope® is there when needed to give the brightest, clearest, sharpest HD image of inspections.

5.5” TFT Monitor with QHD (Quad High Definition) 2560 x 1440 resolution, capacitive multi touchscreen, IP68 water resistance, 64GB Storage. FIPS 140-2 Encryption – CBP Compliant. Mil Spec 810-G Drop Resistant. Third Party Certified Safe for Use in All Fuel. Can Filter out Primary Color Interference from fuel. Lightweight 2.1 lbs., 6mm Dia. 4-Way Locking Articulation with 180 Degree Arc in Each Direction and guidance marks so that the user always knows which direction the tip is pointing, helps users keep their spatial recognition during searches. Video and Still Capture, Date and Time Stamping. Encryption is available if required to the Federal Information Processing Standard (FIPS) as per Publication FIPS PUB 140-2.

View of gas tank with no blue tint - removed by software

Scope reads color in a void...beautifully.
