Company Profile

Potomac River Group, LLC dba PRG Defense was established in 2003 by retired Senior Federal Law Enforcement officials with extensive expertise in export control matters, transnational criminal investigations, financial investigations, anti-terrorism, and customs and border security matters. Over the years, PRG has expanded in scope and brought into its ranks former senior military officers with wide-ranging experience in key operational and national security areas.

In the service delivery arena, PRG has become a significant provider of U.S. Government polygraph services. The company manages, administers, schedules and delivers high-quality security interviews and counterintelligence polygraph examinations for several Department of Defense agencies at locations all across the United States.

PRG also provides financial investigative services to Department of Justice agencies and federal prosecutors to include asset identification, asset forfeiture and forensic accounting services. We also provide seized property risk management services nationwide under the Department of the Treasury Asset Forfeiture Program.

PRG's labor rates are available under our GSA Multiple Award Schedule.

Since its inception, PRG has been supplying federal law enforcement, military and border security agencies with inspection, detection, force protection and military equipment under prime contract or through our GSA Schedule. PRG has fostered relationships with such vendors as Wilcox Industries, SAFRAN / Optics 1, the David Clark Company, FLIR Systems, Pro-Tech Knives, and Accipiter Radar Systems to name a few.

In early 2019, PRG, DBA as PRG Defense, began the manufacture and sale of hand-held, helmet-mounted and rifle mounted night vision and thermal systems to complement its offerings from other manufacturers of military and law enforcement equipment.

PRG holds a Top-Secret Facility Clearance and is registered with the Department of State, Directorate of Defense Trade Controls (DDTC) as an exporter and broker of defense articles under the International Traffic in Arms Regulations (ITAR).

**Labor Category Descriptions
611430ST**

Program Director

Minimum/General Experience: 12 years experience in managing and administering consultative, facilitation, survey and training services contracts, programs, and projects. Programs include, but are not limited to Asset Forfeiture, Seized Property Management, Money Laundering/Financial Crimes, Commercial Fraud, Internal Reviews/Compliance, and Due Diligence/Backgrounds; with demonstrated success in simultaneously managing multiple projects and supervising all levels of project personnel.

Functional Responsibility: Plans, organizes, and controls the overall activities of the program or contract. Responsible for program management, contract management, configuration management, technical work, quality of work, scheduling, and costs associated with all task orders issued under the contract. Performs the investigative activity in compliance with the plans and strategies presented by the government client. Primary client interface conferring with GSA and client agency management on strategic issues and to minimize costs and maximize efficiency in achieving contract requirements. Ensures that all activities conform to the terms and conditions of the contract and task ordering procedures and requirements, including cost, schedule and quality parameters. Provides guidance, direction and ultimate management for all projects, and reviews all services and products for conformance to client requirements.

Minimum Education: Master's Degree or equivalent experience

Project Manager

Minimum/General Experience: 5 years experience in managing and overseeing training based programs and programs related to border security and law enforcement. **Functional Responsibility:** Responsible for day-to-day coordination of training based program activities and contact with the Government Task Leader (GTL). The Program manager runs the training program in compliance with the plans and strategies presented by the government client. He ensures that all training materials are fully developed in accordance with the highest standards and are delivered on time, within-budget, and with appropriate resources Responsible directly for scheduling, tracking, risk analysis, cost management, variances, change management and evaluation of all aspects of the training program.

Functional Responsibility: Minimum/General Experience: 5 years experience in managing and overseeing training based programs and programs related to border security and law enforcement. **Functional Responsibility:** Responsible for day-to-day coordination of training based program activities and contact with the Government Task Leader (GTL). He ensures that all training materials are fully developed in accordance with the highest standards and are delivered on time, within-budget, and with appropriate resources Responsible directly for scheduling, tracking, risk analysis, cost management, variances, change management and evaluation of all aspects of the training program.

Minimum Education: Bachelor's Degree

Logistics Manager

Minimum/General Experience: 4 years of related experience or training with strong analytical skills with the ability to derive solutions as well as strong internal and external communication skills and strong computer skills. Demonstrates high standards of excellence and ability to lead and effectively manage change. Has a strong g orientation to process. **Functional Responsibility:** Oversees logistical arrangements for all aspects of international training program to include oversight of all arrangements for training venues, instructional logistics, and overseas support services including interpretation services and transportation.

Functional Responsibility: Oversees maintenance of warehouse inventory cycle count process to insure the appropriate tracking and reporting of all government owned materials and goods. Leads continuous process improvement initiatives to support the positioning of the company to meet or exceed government customer expectations in the most cost effective manner. Performs analyses of logistics costs and performs other ad hoc analyses as needed. Insures data and system integrity in all areas of program responsibility.

Minimum Education: Bachelor's Degree

Senior Program Analyst

Minimum/General Experience: 5 years of experience in training based programs with demonstrated analytical skills and ability to track program progress and compile program cost documents that accurately track all program expenditures and events. **Functional Responsibility:** Performs the systematic review and analysis of international training program and advises on needs to identify and develop short- and long-range plans for implementation and maintenance of the program and funding. Develops cost estimates and tracks trip expenses for the program.

Functional Responsibility: Coordinates various facets of the program's complex planning efforts and evaluates the effectiveness of the implemented program plan. Senior program analyst provides direction, guidance and assistance to other program staff including administrative support staff and instructor staff.

Minimum Education: Bachelor's Degree

Instructor/Course Developer

Minimum/General Experience: 5 years of specialized law enforcement, border security, hazardous material or information analytical experience including experience in international aspects of these processes. **Functional Responsibility:** Serves as an instructor and authoritative technical expert in the major topical areas of WMD counterproliferation law enforcement and border security training. Provides technical expertise in the development of international counterproliferation law enforcement and border security related curriculum. Provides high quality training to foreign officials from a wide variety of security organizations and instills the technical and analytical knowledge, skills and attitudes needed for the highest possible proficiency in this specialized field. Designs and develops programs and course materials in the field of international counterproliferation law enforcement.

Functional Responsibility: Assesses and revises course content in light of changing conditions throughout the world. Develops supplemental training materials as requested. Participates in the planning, analysis and decision making processes for the development and delivery of training courses. Maintains professional contacts with leading practitioners, researchers, professors and others in academic training institutions, government agencies and private industry to improve and validate all course materials.

Minimum Education: Bachelor's Degree

Logistics Assistant

Minimum/General Experience: 3 years experience in coordination and control of warehouse inventory of supplies/materials from initial plan through acquisition, storage, issue and utilization or disposal. **Functional Responsibility:** Required to control a warehouse of materials owned by the government and manage an inventory management database of non-expendable, accountable personal property, providing reports on property activities as needed. Prepares purchase orders and places orders for materials to re-supply expended materials as directed. Receives ordered materials and ensures commodity, count and quality is accurate. Places materials into inventory and maintains them in a safe and secure setting. Packs international shipments of course materials and related equipment securely and generates commercial invoices and appropriate shipping documents.

Functional Responsibility: Orders, receives and maintains shipping supplies as needed. Conducts physical inventories of property maintained on behalf of the Government in the warehouse. Reviews exception and reconciliation reports for accuracy and completeness. Maintains electronic and manual records that track all accountable property by entries made into the master inventory program. Maintains the warehouse in good order.

Minimum Education: High School Diploma or GED

Administrative Assistant

Minimum/General Experience: 3 years of clerical experience which include organization, coordination, and performance of duties at a responsible level. Has ability to perform difficult typing and word processing duties. Has administrative ability. Has knowledge of various computer programs including Excel, Word, Acrobat, Power Point, etc. **Functional Responsibility:** Performs administrative/general personnel services to support the program. Makes travel arrangements. Performs typing and transcription duties as required. Executes procedures that implement operational and/or fiscal policies. Interprets policies and procedures as established by superiors. Compiles data based on research techniques and on statistical compilations involving an understanding of program policies and procedures. Drafts financial, statistical, narrative, and other reports as requested. Provides authoritative information assists program implementation.

Functional Responsibility: Composes reports and correspondence to assist program implementation as directed. Arranges, participates in, and implements, as directed, conferences and meetings related to program events. Prepares and files monthly program billing documents. Maintains copies of all program invoices, vouchers, purchase orders and payments related to the program. Performs other program related duties as assigned.

Minimum Education: High School Diploma or GED

Counter-surveillance Support - Technician - IV

Minimum/General Experience: 15 years

Functional Responsibility: Interfaces directly with clients to identify possible risks and vulnerabilities. Develops and applies advanced methods, theories and research techniques in the solution of security environment requirements and problems. Plans, conducts and technically directs projects or major phases of significant projects, coordinating the efforts of technical and support staff in the performance of assigned duties. Reviews security environments to include all aspects of physical, technical and administrative security issues. Performs and or manages security services in one or more of the specialized security areas, applying incident management, problem solving, task management and producing finished documentation; e.g., reports, special studies, policy and procedure development, security designs, training programs and assessments. Provides analytical, research and technical support to projects, producing solutions and documentation. Employs techniques and training learned from counter-surveillance programs including, but not limited to, the Interagency Training Center's TSCM program, National Intelligence Agency Academy program, Federal Law Enforcement Training Center covert electronic surveillance program and applies practical experience developed through on-site technical counter-surveillance work. Uses most recent technologies to detect, neutralize, &/or exploit a wide variety of hostile penetration technologies, devices, and hazards that can be used to obtain unauthorized access. Conducts risk assessment and technical counter-surveillance facility sweep including risk assessment and physical inspection of facilities in accordance with current government standards and requirements. Develops and monitors project tasks and schedules. Manages projects and supervises other security specialists. Develops client-specific information systems risk management alternatives and implementation plans. Provides security training to other employees and performs oversight of all task-specific activities such as document preparation, writing, methodologies, etc. Evaluates government and commercial policies, manuals, regulations and other documents for relevance to security issues and ongoing efforts.

Preferred Experience: Experience within U.S. Government security fields (e.g.; technical, physical, information, personnel, international, operational or signal security; counterintelligence; antiterrorism; counterterrorism; counterdrug; computer security; surveillance, counter surveillance or surveillance detection; infrastructure protection; force protection; technology protection; information operations; or industrial security programs).

Minimum Education: BA/BS

Counter-surveillance Support - Analyst/Technician – III

Minimum/General Experience: 10 years

Functional Responsibility: Reviews security environments to include all aspects of physical, technical and administrative security issues. Performs security services in one or more of the specialized security areas, applying incident management, problem solving, task management and producing finished documentation; e.g., reports, special studies, policy and procedure development, security designs, training programs and assessments. CAM-4	INTEGRATED COMPONENTS	The Integrated Components 4-hole Shroud is a lightweight molded carbon fiber reinforced optical interface mounting platform	339113PA	US	\$76.56

Part Number	Manufacturer	Description	SIN	COO	GSA Price
D14	INTEGRATED COMPONENTS	Dual Tube Mount for (2) PVS-14's (ITT and L3 Version)	339113PA	US	\$550.38
D14LW	Integrated Components	Integrated Components Night Vision Helmet Mount D-14 Dual PVS-14 Mounting System™ offers an adaptable system that can be configured as a single-tube or dual-tube stereoscopic night vision system. The need for binocular depth perception is particularly acute when operating at night, and users of single-tube PVS-7 or 14 systems are at a significant disadvantage when it comes to effective tactical night movement. IC's mounting system increases the flexibility and utility of each separate PVS-14 by making it possible to rapidly detach one or both devices from the headgear for use as a weapon-mounted night sight, for handheld use as a surveillance or observation device, and as a force multiplier by distribution to others without night vision devices.	339113PA	US	\$334.99
DPK-ACH	Integrated Components	Down Pilot Kit ACH/MICH	339113PA	US	\$1,339.02

IC-AGMA-S3	INTEGRATED COMPONENTS	ANVIS Ground Mount Adapter PASGT with ANVIS Mount Viewer (Mount Viewer NSN: 5855-01-451-7389 for ANVIS 6 or 9) Comes with rhino backplate for mounting	339113PA	US	\$598.24
IC-BP	INTEGRATED COMPONENTS	Quick Disconnect Back Plate for all ANVIS Wedges	339113PA	US	\$90.93
IC-UWM-AIM	INTEGRATED COMPONENTS	Aimpoint 3X Magnifier Weapon Mount (COMPLETE KIT)	339113PA	US	\$190.48
IC-UWM-APD	INTEGRATED COMPONENTS	Aimpoint 3X Magnifier (ADAPTER ONLY NO BASE)	339113PA	US	\$94.76
IC-UWM-B	Integrated Components	The Integrated Components AN/PVS-14 Ultimate Weapons Mount™ – UWM works with an AN/PVS-14, EOTech's and Aimpoint's 3x magnifiers and gives the operator maximum flexibility and interchangeability with an easy-to-use, light-weight two-piece system that doesn't interfere with existing back-up iron sights. The Guide-Loc™ system not only securely attaches and automatically aligns the attached optical device; it also guides the locking pin into engagement no matter how off-axis the optic is to the bore. This gives the operator the advantage of being able to attach and lock the optic in place even in total darkness.	339113PA	US	\$95.71

Designed for close-quarter engagement, the Reflex offers fast target acquisition while maintaining pinpoint accuracy. It allows users to shoot with “both eyes open”—a critical advantage. With several mounting adapters available, this versatile sight is a prime choice for rifles, carbines and shotguns.	339920	US	\$426.20
RX06-14	Trijicon	The Trijicon® Reflex sight is a robust, battery-free, illuminated sight. Designed for close-quarter engagement, the Reflex offers fast target acquisition while maintaining pinpoint accuracy. It allows users to shoot with “both eyes open”—a critical advantage. With several mounting adapters available, this versatile sight is a prime choice for rifles, carbines and shotguns.	339920	US	\$470.40
RX06-23	Trijicon	The Trijicon® Reflex sight is a robust, battery-free, illuminated sight. Designed for close-quarter engagement, the Reflex offers fast target acquisition while maintaining pinpoint accuracy. It allows users to shoot with “both eyes open”—a critical advantage. With several mounting adapters available, this versatile sight is a prime choice for rifles, carbines and shotguns.	339920	US	\$490.81
RX06-25	Trijicon	The Trijicon® Reflex sight is a robust, battery-free, illuminated sight. Designed for close-quarter engagement, the Reflex offers fast target acquisition while maintaining pinpoint accuracy. It allows users to shoot with “both eyes open”—a critical advantage. With several mounting adapters available, this versatile sight is a prime choice for rifles, carbines and shotguns.	339920	US	\$403.53
RX30	Trijicon	The Trijicon® Reflex sight is a robust, battery-free, illuminated sight. Designed for close-quarter engagement, the Reflex offers fast target acquisition while maintaining pinpoint accuracy. It allows users to shoot with “both eyes open”—a critical advantage. With several mounting adapters available, this versatile sight is a prime choice for rifles, carbines and shotguns.	339920	US	\$454.32
RX30-11	Trijicon	The Trijicon® Reflex sight is a robust, battery-free, illuminated sight. Designed for close-quarter engagement, the Reflex offers fast target acquisition while maintaining pinpoint accuracy. It allows users to shoot with “both eyes open”—a critical advantage. With several mounting adapters available, this versatile sight is a prime choice for rifles, carbines and shotguns.	339920	US	\$509.67

SP-ACC3394-1	Trijicon	The Machine Gun Reflex Sight (MGRS®) is a non-magnified optic that mounts to both the M2 and M240 machine guns. The Trijicon MGRS is intended to aid the machine gunner in rapid target acquisition and engagement that will allow keeping “both eyes open” from a natural shooting position. Accuracy is enhanced by use of the machine-gun-specific, interchangeable range dials, and performance is assured with a strong 7075-T6 forged-aluminum housing.	339920	US	\$289.79
SRS01	Trijicon	The Trijicon SRS® (Sealed Reflex Sight) is a uniquely designed, MIL-SPEC-rugged, parallaxfree reflex sight which incorporates a larger aperture for maximum situational awareness in a shorter body. The illuminated 1.75 MOA red dot with 10 brightness settings (3 NVG compatible) is powered by a single AA battery, assisted by a solar cell to extend battery life. The snag-free button pads make brightness adjustments easy and eliminate fumbling under stress or with gloves.	339920	US	\$836.12
SRS02	Trijicon	The Trijicon SRS® (Sealed Reflex Sight) is a uniquely designed, MIL-SPEC-rugged, parallaxfree reflex sight which incorporates a larger aperture for maximum situational awareness in a shorter body. The illuminated 1.75 MOA red dot with 10 brightness settings (3 NVG compatible) is powered by a single AA battery, assisted by a solar cell to extend battery life. The snag-free button pads make brightness adjustments easy and eliminate fumbling under stress or with gloves.	339920	US	\$908.77
TA01	Trijicon	The Trijicon ACOG® (Advanced Combat Optical Gunsight) is the official mediumdistance engagement optic of the U.S. Special Operations Forces and Marine Corps. They offer an illuminated reticle pattern for use in bright to low/no light, along with legendary durability and reliability.	339920	US	\$908.82
TA01B	Trijicon	The Trijicon ACOG® (Advanced Combat Optical Gunsight) is the official mediumdistance engagement optic of the U.S. Special Operations Forces and Marine Corps.
