

GSA SCHEDULE HOLDER (GS-07F-5499P)

Our GSA schedule offers the government the ability to use a more efficient and convenient contracting vehicle. CSI is the first company that offers charter and leasing services through the GSA on a full range of aircraft using a variety of FAA certified air carriers. Please see Aircraft Options for more details on available aircraft.

Aircraft for Charter

CSI offers air charter transportation on aircraft including airliners, executive jets and turbo props through our GSA Schedule. Pricing for chartered aircraft includes crew, maintenance, insurance fuel, and ground handling.

Aircraft for Lease

CSI also offers aircraft for lease on our GSA Schedule which include airliners, executive jets and turbo props. Pricing only includes the monthly lease payment for the dry lease of aircraft. CSI can include additional open market items such as Crew, Maintenance, Insurance and additional or upgraded avionics.

ABOUT CSI

CSI Aviation Services, Inc. (a.k.a. Charter Services) was established in 1979 to serve as a worldwide air charter management company. While CSI's corporate growth is a business success story, the emphasis on customer service and integrity is our proudest achievement. We are the nation's oldest and largest air charter management company of our kind. Years of experience and our continued focus on customer service have made us the leader in air charter operations. We have developed and maintained relationships with our aviation suppliers that give our customers a wider range of options than any other single source. We offer domestic and international air charter using airliners, executive jets, and turboprops.

In 1983 we created a department to handle Airline and Military Services for major and supplemental U.S. Carriers. Our understanding of this specialized market, and our familiarity with the Civil Reserve Air Fleet (CRAF) program, provides a valuable resource to our represented air carriers, which include several of the nation's largest airlines.

In 1998 we further broadened our services to include Special Contracts. We provide corporations and government agencies with dedicated aircraft on a fully-maintained basis (Aircraft Leasing and Maintenance) and Emergency Response, among other services.

In 2004 we became the first air charter management company to hold a GSA Schedule for both Air Charter and Aircraft Leasing. Our GSA Schedule offers the government the ability to use a more convenient contracting vehicle. CSI offers air charter and aircraft leasing services through the GSA on a full range of aircraft.
