TRIPLE CANOPY – PROFILE

Why the Triple Canopy Team

Triple Canopy, Inc., a veteran-owned U.S. firm, was founded in 2003 to protect Americans, both Government employees and private citizens, in all environments. Triple Canopy solves security problems and manages risk for the U.S. Government, both State Department and Department of Defense, throughout the world, every day. Our motto, *Assess, Avert, Achieve*, encapsulates our overall approach to security—that is, assess the threat, avert any incidents, and achieve the necessary result—total safety for our clients. We create and sustain secure operational environments for our clients by integrating security, communications, logistics, training, medical, and life support. In the course of executing contracts in the most dangerous of operational environments, we consistently create solutions that maximize safety and minimize risk.

Our Team is the optimum choice to keep facilities and personnel secure. We are the low risk, high quality alternative. We successfully staffed, transitioned, and now operate the largest State Department Embassy guard contract in the world. We are the only contractor with an on-the-ground facility in Iraq for transition staging and billeting. We offer carefully screened, highly-trained and qualified personnel across the board, many who are experts in high-threat tactics and operations. We have proven over and over again to the State Department in Baghdad that we will do whatever is necessary to meet the needs of Embassy staff.

Our Operational Approach

With Triple Canopy, every person, every service, every deliverable will be of the highest quality. We do not search out the lowest common denominator for the highest profit margin. Instead, we focus on meticulous screening and systematic training of already highly qualified personnel who are motivated and committed to do their best. We have observed the high price of attrition experienced by others, and have centered our entire concept of operations on hiring and retaining quality people. On the ground, we operate every day with safety at the forefront. Losing our personnel or customer personnel is not acceptable: our muster training, shift schedules, movement of guards to post, firearms handling—all are focused on threat mitigation. In our history as a company, we have never failed to stand a post. Our operational experience at the U.S. Embassy in Baghdad has formed a firm foundation for our conduct of business.

Our Team Offers

| | |
|--|---|
| Highly relevant experience | We successfully staffed, transitioned, and now operate the largest State Department Embassy guard contract in the world. |
| Highest standards of quality for personnel | Our recruiting, screening, and training processes produce a caliber of guard that is measurably higher than the rest of the security contractor community. Higher skill levels, more careful vetting, fair compensation, and a culture of commitment contribute to our guards' mental and physical toughness. |
| Transition plan that | Highly-structured, aggressive, forward-thinking transition with |

| | |
|--------------------------------|---|
| addresses all possible risks | complete contingency plans for weather and threat fashioned after the successful transition of the State Department Baghdad Embassy. |
| Can-do approach to performance | Regardless of the immediacy or complexity of the requirement, we have proven that we will do whatever it takes for mission success. For State Department, we have executed multiple emergency services, new post stand-ups, and additional personnel mobilization to meet the changing requirements in Baghdad. |
| Training that produces results | Our training program is highly effective, both for U.S. citizens and TCNs. We have an attrition rate during training of fewer than 8 percent with a graduation rate of 92 percent. Our guards have proven themselves in many dangerous situations, relying on the excellent training they received through Triple Canopy. |

Qualified Anti-Terrorism Technology

As an integrated security solutions company, Triple Canopy identifies physical and operational vulnerabilities at various government and non-government facilities, including critical infrastructure, and recommends mitigation by developing a comprehensive security plan.

Triple Canopy’s security assessment services have earned certification and designation as a Qualified Anti-Terrorism Technology (QATT) under SAFETY Act. From vulnerability assessments to security surveys and red team services, our security analysis and planning services have met the requirements of this rigorous certification procedure.

Analytical Support

A thorough vulnerability assessment includes a review of defensive processes and strategies, access controls, perimeter detection and assessment evaluation, development of responder and adversary timelines, and technical assistance with upgrade implementation.

Composite Adversary Force

Triple Canopy can provide an experienced and highly trained team of professionals to work confidentially with your site to identify vulnerabilities, followed by assistance in the development of comprehensive solutions for the mitigation of identified risks.

Adversary Training and Train-the-Trainer Programs

Programs such as these are ideal for facilities searching for site-specific, realistic training as it relates to adversary capabilities and methodologies. A poorly trained force will waste time and funding resources achieving dismal results. Customized instruction includes hands-on, performance-based training for scenario planning focusing on basic target sets, advanced tactics, advanced marksmanship, familiarization with explosive applications and managing artificialities in or to demonstrate “a believable drill.”

Proven Industry Experience

A major reason why customers turn to Triple Canopy is that our experienced specialists are familiar with the industry's security challenges. We bring an unparalleled understanding of the threat, based on years of U.S. military special operations experience. Our expert capabilities are validated by state-of-the-art software and database packages that assist us in conveying results to the customer to include blast modeling, chemical plume modeling, etc. Our personnel focus on identifying realistic and probable threats and vulnerabilities. Continuous analysis throughout the vulnerability assessment process prioritizes the most probable adversary courses of action while also addressing potential worst-case scenarios. This process enables the customer to make fiscally responsible, well-informed decisions regarding the implementation of sound countermeasures.

BASIC CONTRACT INFORMATION

Contract Number: GS07F5499R

Contract Period: 12/01/2009 through 11/30/2014

Contractor: Triple Canopy, Inc.
12018 Sunrise Valley Drive, Suite 140
Reston, VA 20191-3444
Contract Administration: Ms. Virginia Chen
Phone: 703-673-5000
Fax: 703-673-5001

Business Size: Large

Awarded Special Item Number(s):
246-52 Professional Security/Facility Management Services
426-2A Canine Training and Handling Equipment, Canine Search and Detection

Lowest Price Item:
All SINs: Administrative Assistant (CONUS) Level I \$47.94/hour

Maximum Order: \$200,000.00

Minimum Order: \$100.00

Geographic Coverage: Worldwide

Production Point: Fairfax County, VA

Basic Discount: Basic Discounts have been deducted

Quantity Discounts: None

Prompt Payment Terms: Net 30 Days. Government purchase cards are accepted up to the micro-purchase threshold. Customer to contact Triple Canopy when purchases are above the micro-purchase threshold.

Time of Delivery: Services - 14-60 days ARO. For expedited, overnight and urgent delivery requirements, please contact Triple Canopy.

FOB Point: Origin

ADDITIONAL INFORMATION

Prices – Labor

SINs:

246-52 Professional Security/Facility Management Services

Prices are offered for services to be provided within the continental United States (CONUS), and overseas (OCONUS). OCONUS rates are provided for Low Threat, Medium Threat and High Threat areas, as defined at the time of an order being placed. As of September, 2009, examples of Low Threat areas would include Qatar and Jordan, examples of Medium Threat areas would include Algeria and Sudan, and examples of High Threat areas would include Iraq, Afghanistan and Pakistan. Due to changing conditions throughout the world, these are examples only.

All Labor Rates listed are based on performance of work at the Client's location, or other locations other than Triple Canopy offices. Any sustained effort greater than one month which requires Triple Canopy to provide office space, other than standard program management requirements, will require an additional facility charge to the order.

Hourly Rates listed are inclusive of Industrial Funding Fee.

Other Direct Costs

Travel costs and any additional costs required will be invoiced to the client at actual cost plus a fixed load of 15%. All travel and other costs will be authorized by the client at the time of order.

JOB DESCRIPTIONS AND QUALIFICATIONS

Technical Consultant

Description and Qualifications (Junior):

Holds a bachelor's degree with five (5) years of business experience. Plans, organizes, directs and administers a staff of personnel to manage multiple large programs that have a high degree of complexity. Manages customer relations. Selects and promotes personnel. Assists Program and Project Managers in planning and allocating resources against requirements. Manages one or more medium to large programs. Develops detailed, accurate cost data. Approves expenses at corporate level and below. Six (6) years of experience can be substituted for the bachelor's degree requirements.

Description and Qualifications (Senior):

Holds an advanced degree with five (5) years of business experience. Plans, organizes, directs and administers a staff of personnel to manage multiple large programs that have a high degree of complexity. Manages customer relations. Selects and promotes personnel. Assists Program and Project Managers in planning and allocating resources against requirements. Manages one or more medium to large programs. Develops detailed, accurate cost data. Approves expenses at corporate level or below. Ten (10) years of experience can be substituted for the advance degree requirements.

Description and Qualifications (Principal):

Holds an advanced degree and/or ten (10) years of business or specialization experience. Plans, organizes, directs and administers a staff of personnel to manage multiple large programs that have a high degree of complexity. Manages customer relations. Selects and promotes personnel. Assists Program and Project Managers in planning and allocating resources against requirements. Manages one or more medium to large programs. Develops detailed, accurate cost data. Approves expenses at corporate level or below.

Subject Matter Expert

Description and Qualifications (Senior):

Possesses an Associate's degree or equivalent (position-related) military or government certifications and/or credentials and at least five (5) years of experience in the functional area of expertise. Possesses at least one (1) year of government contract-related experience. Possesses some familiarity with basic government contractor-related concepts, procedures, and terms. Has some latitude for independent actions and decisions. Possesses ability to perform assignments requiring sound judgment and ingenuity. Work is varied and may be somewhat difficult, but preferably involves limited responsibility. Four (4) years of experience can be substituted for the associate's degree requirements.

Description and Qualifications (Principal):

Possesses a minimum of a bachelor's degree (BS or BA) (master's degree preferred) or military/government equivalent (position-related) certifications or credentials and at least ten

(10) years of experience in the functional area of expertise. Possesses at least five (5) years of government contract-related experience and thorough understanding of the related contract(s) client base. Acts independently in the performance of assigned tasks, routinely making sound decisions. Reliably performs functions and assignments requiring expert technical and specialized operational knowledge. Possesses strong leadership skills and is able to advise and mentor lower grade SMEs. Possesses exceptional technical writing and communication skills. Serves as a technical advisor in multiple areas. Provides technical support and direct assistance, as required by the customer. Provides technical liaison support to meet customer requirements. Provides technical input for the development and implementation of education, training, exercises and acquisition programs, as required. Maintains professional skills, as required to support customer requirements. Demonstrates the highest level of expertise in performing a specialized job, task or skill. Produces documentation to support activity at the direction of the Program Manager, as directed, or the client, in accordance with a statement of work. Advanced degree preferred, but not required. Six (6) years of experience can be substituted for the bachelor's degree requirements.

Technical Specialist

Description and Qualifications (Senior):

Researches, organizes, writes, edits and produces data for use in a wide variety of complex technical publications requiring in-depth knowledge of the subject matter and allied fields. Recommends overall organization and layout, editorial standards, publication methods and the like. Coordinates publication with outside sources and vendors, as needed. Develops department editing standards and styles. May provide work leadership for lower level employees. Develops estimates for task assignment. Bachelor's degree in applicable technical field or equivalent experience and excellent communication skills required. Ten (10) years technical editing/writing experience.

Program Manager

Description:

Program Manager shall be responsible for the overall management and performance of the contract; shall be the primary point of contact for matters between Triple Canopy, Inc. and the customer; shall be designated as a key person.

Qualifications (Level I):

Shall have a minimum of a bachelor's degree or equivalent and ten (10) years of general experience in management or program support and ten (10) years of specialized experience, which may include experience with the U.S. military, Special Forces/Special Operations or physical/personal security related programs. In addition, the Program Manager shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments. Able to travel in support of project requirements.

Qualifications (Level II):

Shall have a minimum of a bachelor's degree or equivalent and twelve (12) years of general

experience in management or program support and fifteen (15) years of specialized experience, which may include experience with the U.S. military, Special Forces/Special Operations or physical/personal security related programs. In addition, the Program Manager shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments. Able to travel in support of project requirements.

Qualifications (Level III):

Shall have a minimum of a bachelor's degree or equivalent and fifteen (15) years of general experience in management or program support and fifteen (15) years of specialized experience, which may include experience with the U.S. military, Special Forces/Special Operations or physical/personal security related programs. In addition, the Program Manager shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments. Able to travel in support of project requirements.

Project Manager

Description:

Shall be responsible for the physical performance of all personnel working on a project. The Project Manager will actively manage day-to-day activities, scheduling, development of plans and supervision of all employees working on the project. Shall be designated as a key person.

Qualifications (Level I):

Shall have a minimum of a bachelor's degree or equivalent and five (5) years of general experience in personnel supervisory or program support or ten (10) years of experience as a U.S. military officer or non-commissioned officer. In addition, the Project Manager shall have written and verbal communications skills and be capable of working through complex problems and communicate solutions or recommendations to both technical and non-technical audiences. Able to travel in support of project requirements.

Qualifications (Level II):

Shall have a minimum of a bachelor's degree and eight (8) years of general experience in personnel supervisory or program support or ten (10) years of experience as a U.S. military officer or non-commissioned officer. In addition, the Project Manager shall have written and verbal communications skills and be capable of working through complex problems and communicate solutions or recommendations to both technical and non-technical audiences. Able to travel in support of project requirements.

Qualifications (Level III):

Shall have a minimum of a bachelor's degree and ten (10) years of general experience in personnel supervisory or program support or ten (10) years of experience as a U.S. military officer or non-commissioned officer. In addition, the Project Manager shall have written and verbal communications skills and be capable of working through complex problems and communicate solutions or recommendations to both technical and non-technical audiences. Able to travel in support of project requirements.

Communications Manager

Description:

Manage and directs all communications efforts from base locations to work site locations. Responsible for coordination of communications plan with the customer, local police and medical authorities. Will be the primary point of contact between the customer and Triple Canopy, Inc.

Qualifications (Level I):

Shall have a bachelor's degree or equivalent and five (5) years of experience in communications program support. Program support includes planning, evaluating, analyzing and implementation of communication programs. The communications manager must have written and verbal skills, be capable of solving complex communication problems, communicate solutions effectively to technical and non-technical audiences and able to function effectively in adverse environments. Able to travel in support of project requirements.

Qualifications (Level II):

Shall have a bachelor's degree or equivalent and ten (10) years of experience in communications program support. Program support includes planning, evaluating, analyzing and implementation of communication programs. The communications manager must have written and verbal skills, be capable of solving complex communication problems, communicate solutions effectively to technical and non-technical audiences and able to function effectively in adverse environments. Able to travel in support of project requirements.

Qualifications (Level III):

Shall have a bachelor's degree and fifteen (15) years of experience in communications program support. Program support includes planning, evaluating, analyzing and implementation of communication programs. The communications manager must have written and verbal skills, be capable of solving complex communication problems, communicate solutions effectively to technical and non-technical audiences and able to function effectively in adverse environments. Able to travel in support of project requirements.

Communications Specialist

Description:

Set-up and maintain a tactical or administrative communications system that will provide a secure or non-secure means of communications between project participants, local law enforcement, the customer, and medical providers as needed on a day-to-day basis.

Qualifications (Level I):

Shall have an extensive knowledge of UHF, HF, VHF, SATCOM and FM communication systems as well as global positioning systems (GPS). Shall have a minimum of two (2) years as a communications specialist with a military background.

Qualifications (Level II):

Shall have an extensive knowledge of UHF, HF, VHF, SATCOM and FM communication

systems as well as global positioning systems (GPS). Shall have a minimum of four (4) years as a communications specialist with a military background.

Qualifications (Level III):

Shall have an extensive knowledge of UHF, HF, VHF, SATCOM and FM communication systems as well as global positioning systems (GPS). Shall have a minimum of eight (8) years as a communications specialist with a Tier 1 or 2 Special Operations background.

Logistics Manager

Description:

Manage and direct the logistics effort from a programmatic perspective. Responsible for insuring the coordination of logistical support necessary to meet the requirement of the customer and project needs. Will be the primary point of contact between the customer and Triple Canopy, Inc. Shall be designated as a key person.

Qualifications (Level I):

Shall have a minimum of a bachelor's degree or equivalent and five (5) years of logistical experience in management or program support and five (5) years of specialized experience, which may include experience with the U.S. military, Special Forces/Special Operations or physical/personal security related programs. In addition, the Logistics Manager shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments. Must have a working knowledge of Excel. Able to travel in support of project requirements.

Qualifications (Level II):

Shall have a minimum of a bachelor's degree or equivalent and ten (10) years of logistical experience in management or program support and ten (10) years of specialized experience, which may include experience with the U.S. military, Special Forces/Special Operations or physical/personal security related programs. In addition, the Logistics Manager shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments. Must have a working knowledge of Excel. Able to travel in support of project requirements.

Qualifications (Level III):

Shall have a minimum of a bachelor's degree and fifteen (15) years of logistical experience in management or program support and fifteen (15) years of specialized experience, which may include experience with the U.S. military, Special Forces/Special Operations or physical/personal security related programs. In addition, the Logistics Manager shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments. Must have a working knowledge of Excel. Able to travel in support of project requirements.

Logistics Specialist I

Description:

Shall be responsible for the logistical support at the project level. Shall set up a logistical support network that will meet or exceed the needs of the customer or Triple Canopy, Inc. Instructors or Operators. Is the primary contact for Project Managers in matters regarding logistical support.

Qualifications (Level I):

Shall have an extensive knowledge of tactical and administrative logistics and support. Shall have a minimum of a bachelor's degree or five (5) years of military service working in a logistical position. Should have completed an officers or non-commissioned officers leadership course while in the military. Shall have written and verbal communication skills commensurate with the position. Must be able to solve complex problems and work alone. Must have a working knowledge of Excel. Able to travel in support of project requirements.

Qualifications (Level II):

Shall have a minimum of five (5) years as an intelligence specialist/analyst or have served in the military and successfully attended and graduated from a certified Intelligence course. If Special Operations military time is used, must have worked as an intelligence analyst in a Special Operations command and have a minimum of an associate's degree. Able to travel in support of project requirements.

Qualifications (Level III):

Shall have a minimum of ten (10) years as an intelligence specialist/analyst or have served in the military and successfully attended and graduated from a certified Intelligence course. If Special Operations military time is used, must have worked as an intelligence analyst in a Special Operations command and have a minimum of an associate's degree. Able to travel in support of project requirements.

Intelligence Analyst II

Description:

Shall be responsible for identifying, tracking, soliciting, and briefing intelligence information from a variety of sources. Will provide intelligence updates and briefings on selected areas, personnel or groups within the operational area to selected customers and Triple Canopy, Inc. employees.

Qualifications (Level I):

Shall have experience as an intelligence specialist/analyst or have served in the military and successfully attended and graduated from a certified Intelligence course. If Special Operation military time is used, must have worked as an intelligence analyst in a Special Operations command and have a minimum of an associate's degree.

Qualifications (Level II):

Shall have a minimum of three (3) years as an intelligence specialist/analyst or have served in the military and successfully attended and graduated from a certified Intelligence course. If Special Operation military time is used, must have worked as an intelligence analyst in a Special Operations command and have a minimum of an associate's degree.

Qualifications (Level III):

Shall have a minimum of six (6) years as an intelligence specialist/analyst or have served in the military and successfully attended and graduated from a certified Intelligence course. If Special Operation military time is used, must have worked as an intelligence analyst in a Special Operations command and have a minimum of an associate's degree.

Counter-Intelligence Specialist

Description:

Shall be responsible for identifying threat information or adverse actions targeted against customers or Triple Canopy personnel or assets. Will work with local, state and federal law enforcement personnel in support of training and security projects.

Qualifications (Level I):

Shall have a minimum of three (3) years experience as a counter-intelligence specialist either working for the U.S. military or a law enforcement agency. Shall have a minimum of a bachelor's degree and shall have successfully completed an officers or non-commissioned officers leadership course.

Qualifications (Level II):

Shall have a minimum of five (5) years experience as a counter-intelligence specialist either working for the U.S. military or a law enforcement agency. Shall have a minimum of a bachelor's degree and shall have successfully completed an officers or non-commissioned officers leadership course.

Qualifications (Level III):

Shall have a minimum of ten (10) years experience as a counter-intelligence specialist either working for the U.S. military or a law enforcement agency. Shall have a minimum of a bachelor's degree and shall have successfully completed an officers or non-commissioned officers leadership course.

UAV Senior Engineer**Description:**

Responsible for the overall management of unmanned aerial vehicle (UAV) operations in support of Triple Canopy, Inc. projects. Shall be the primary point of contact between Triple Canopy and its customers. Must be able to develop, test and train selected personnel on the functions, applications, and use of UVAs.

Qualifications (Level I):

Shall have a minimum of a bachelor's degree or equivalent or five (5) years of general experience in UAV management or program support and six (6) years of specialized experience, which may include experience with the U.S. military or Special Forces/Special Operations. In addition, the UAV Senior Manager shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments.

Qualifications (Level II):

Shall have a minimum of a bachelor's degree or ten (10) years of general experience in UAV management or program support and six (6) years of specialized experience, which may include experience with the U.S. military or Special Forces/Special Operations. In addition, the UAV Senior Manager shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments.

Qualifications (Level III):

Shall have a minimum of a bachelor's degree and ten (10) years of general experience in UAV management or program support and six (6) years of specialized experience, which may include experience with the U.S. military or Special Forces/Special Operations. In addition, the UAV Senior Manager shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments.

UAV Technician**Description:**

Shall be responsible for maintaining, repairing and rebuilding UAVs and its components in support of Triple Canopy, Inc. security, training, vulnerability or threat projects.

Qualifications (Level I):

Shall have a minimum of an associate's degree and two (2) years of general experience in UAV

program support or two (2) years of specialized UAV experience, which may include U.S. military experience. In addition, shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments. Able to travel in support of project requirements.

Qualifications (Level II):

Shall have a minimum of an associate's degree and four (4) years of general experience in UAV program support or two (2) years of specialized UAV experience, which may include U.S. military experience. In addition, shall have written and verbal communications skills, be capable of solving complex problems, communicate solutions effectively to both technical and non-technical audiences, and be able to function effectively in adverse environments. Able to travel in support of project requirements.

Qualifications (Level III):
