Restoration Services	Description
EnduraGLAZE Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and grout surfaces; and installs solid opaque, polymer overcoat on top of existing grout lines; and installs a durable, chemical and urine resistant, clear polymer coating over the entire tile and grout surface.
EnduraGLAZE+ Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and grout surfaces; and installs solid opaque, polymer overcoat on top of existing grout lines; and installs a durable, chemical and urine resistant, clear Xolite-based coating over the entire tile and grout surface.
ChromaGLAZE Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and grout surfaces; and installs a durable, chemical and urine resistant, opaque tinted Xolite-based coating over the entire tile and grout surface.
ChromaGLAZE+ Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and grout surfaces; and installs a durable, chemical and urine resistant, opaque tinted Xolite-based coating over the entire tile and grout surface. A final coat of chemical and urine resistant, clear Xolite-based coating is applied over the entire tile and grout surface.
GroutGLAZE Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and grout surfaces; and installs solid opaque, polymer overcoat on top of existing grout lines.
SurfaceGLAZE Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and grout surfaces; and installs a durable, chemical and urine resistant, clear polymer coating over the entire tile and grout surface.
SurfaceGLAZE+ Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and grout surfaces; and installs a durable, chemical and urine resistant, clear Xolite-based coating over the entire tile and grout surface.
XcelKLEEN Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and grout surfaces.
EverGLAZE Maintenance Program	A set of procedures utilizing specialized equipment and chemicals to maintain tile and grout floor surfaces on a periodic basis that have been restored by one of the SaniGLAZE Tile and Grout Restoration processes.

Site Prep Services (if needed)	Description
Site Preparation Minor	Pre-restoration process work necessary before commencement of restoration process steps. Examples include removal of floor coatings/caulking/polyurethane, removal and replacement of partitions or work area impediments, and grout sawing in cases where grout depth is insufficient to achieve permanent bonding of glazing compound. Work effort involved estimated to be Minor .
Site Preparation Moderate	Pre-restoration process work necessary before commencement of restoration process steps. Examples include removal of floor coatings/caulking/polyurethane, removal and replacement of partitions or work area impediments, and grout sawing in cases where grout depth is insufficient to achieve permanent bonding of glazing compound. Work effort involved estimated to be Moderate .
Site Preparation Extensive	Pre-restoration process work necessary before commencement of restoration process steps. Examples include removal of floor coatings/caulking/polyurethane, removal and replacement of partitions or work area impediments, removal of Si/Titanium and other Clay Group coatings, removal of Adsil, removal of MicroGuard, removal of PermaTect, and grout sawing in cases where grout depth is insufficient to achieve permanent bonding of glazing compound. Work effort involved estimated to be Extensive .
