## 6: Discount from list prices:

For Calculation of the GSA Schedule Price (price paid by customers ordering from the GSA Schedule, and the price to be loaded into GSA Advantage), the contractor should deduct the appropriate basic discount from the list price and add the prevailing IFF rate to the negotiated discount price (Net GSA Price). Current IFF rate is 0.75%. The final awarded price is calculated as follows: Negotiated price divided by (1 minus .0075) which equates to negotiated price divided by 0.9925. Ex. (\$100,000/0.9925)= \$100,755.67.

- Bishamon discounts range from 16%-21%
- Bonar discounts range from 22%-28%
