**Product Description:** The K-9 Trainer effectively trains canines and canine handlers to detect explosive odors, narcotics, tracking, obedience, agility, etc. Additional duties include conducting proficiency training with the assigned teams to maintain proficiency in the field of operation.

---

**Welcome to AMK9**
American K-9 Detection Services, LLC (AMK9) is dedicated to providing world-class canine services to governmental, non-governmental and private entities worldwide. Both domestically and abroad AMK9 has been at the forefront in the war against terror, placing our highly trained Explosive Detector Dog Teams in positions where they continue even now to save lives on a daily basis. Our goal is to provide you with a canine that fits your precise needs and mission. From single events to fully integrating K-9 Teams into already existing security, we have the skills and knowledge to make it work.

- AMK9 Teams have performed in a diverse range of environments
- We can search military installations, government buildings, airports and aircraft, seaports, ships, stadiums, cargo facilities, office buildings, hotels, vehicles, and more
- World-wide capability allows us to provide you high quality service wherever you need, and whenever you want
- Our continuing commitment to excellence ensures that you will always receive the highest quality canines available anywhere

**K-9 Services**

AMK9 is committed to providing the specialty canine solution that you need. Our canines are all trained and certified to the highest standards in the industry and our personnel come from a wide range of Military and Law Enforcement backgrounds with years of experience in real world environments.

Whatever your need we have the knowledge and skills necessary to find the right solution for you.

- Explosive Detector Dogs (EDD): Trained to counter the threat of explosives.
- Narcotic Detector Dog (NDD): Canines used to detect a wide range of narcotic substances.
- Human Remains Detection (HRD): These team are uniquely trained for the search and recovery of missing people.
- Mine Detector Dog (MDD): K-9 Teams whose sole purpose is the locating of underground mines and explosives
- Mold Detector Dog: A canine that can identify the presence of mold within a building.
- Cargo/Contraband Detector Dog: Canines used to search everything from a small box to palletized items to a full size cargo container used in overseas shipping.
- Special Purpose Teams: Canines can be trained to fill a large range of duties and we can train a dog to fit your specific need.
- Protection/Patrol Dogs (PD): An amazing deterrent and protection tool that can keep you safe from harm.

**Our Credentials**
Why we are the leader in the canine detection business:

- Our personnel come from a wide range of backgrounds with years of experience in civilian law enforcement, military and government service. With this combined real world experience we are able to provide unparalleled K-9 service and training to our customers worldwide, 24/7.

- We are licensed by both the ATF and the DEA. These licenses allow us to obtain, store, transport and train with real explosive compounds and narcotics. We do not train or recommend training on pseudo-scents (chemically created odors that are not actual explosives) as they have consistently proven to be less effective for preparing a canine to face real world odors.

- All of our teams are initially trained at our state of the art facility. Our detection canines have been successfully tested by the U.S. Army TACOM-ARDEC and have been determined to be proficient in odor recognition. Our canines are worked daily in order to ensure that they are always providing peak performance.

- Our canines are independently certified to ensure that they meet the highest standards.

- Professional sales, training, and customer service allow us to individually tailor our services to your needs. We are truly committed to our work and to assisting you with any detection, training, consulting, or dog purchase needs that you may have.
