</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

Not Applicable

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.

Please refer to Page 16, Labor Category Descriptions

2. Maximum order:

SIN - $500,000.

*Ordering activities may request a price reduction at any time before placing an order, establishing a BPA, or in conjunction with the annual BPA review. However, the ordering activity shall seek a price reduction when the order or BPA exceeds the simplified acquisition threshold. Schedule contractors are not required to pass on to all schedule users a price reduction extended only to an individual ordering activity for a specific order or BPA.

3. Minimum order:

$100.00
4. Geographic coverage (delivery area):

5. Point(s) of production (city, county, and State or foreign country):

Same as company address

6. Discount from list prices or statement of net price:

GSA Net Prices are shown on the attached GSA Price List. Negotiated discount has been deducted.

7. Quantity discounts:

None.

8. Prompt payment terms; Note: Prompt payment terms must be followed by the statement "Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions."

Net 30 Days

9a. Notification that Government purchase cards are accepted at or below the micro-purchase threshold:

Government Purchase Cards are accepted at or below the micro-purchase threshold for any dollar value above the minimum order.

9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold:

Government Purchase Cards are accepted for any dollar value above the micro-purchase level.

10. Foreign items:

Not Applicable

11a. Time of delivery:

As Negotiated with the Ordering Agency

Terms and Conditions Applicable to MAS SINs:
Information Technology Professional Services (54151S)

1. SCOPE
   a. The prices, terms and conditions stated under MAS Special Item Number 54151S Professional IT Services, apply exclusively to that SIN.
   b. The Contractor shall provide services at the Contractor’s facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)
   a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
   b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
   c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity’s mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER
   a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made, and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
   b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES
a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.

b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.

c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

a. The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

(1) Cancel the stop-work order; or

(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

b. If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

c. If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

d. If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

GSA Contract Number: GS-07F-5866R
6. INSPECTION OF SERVICES

7. RESPONSIBILITIES OF THE CONTRACTOR
The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY
Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

9. INDEPENDENT CONTRACTOR
All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST
   a. Definitions.
      “Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.
      “Contractor and its affiliates” and “Contractor or its affiliates” refer to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.
      An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.
      b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.
11. **INVOICES**
The Contractor, upon completion of the work ordered, shall submit invoices for IT Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. **PAYMENTS**
For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements— Commercial Item Acquisition. As prescribed in 16.601(e)(3), insert the following provision:

   a. The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.
   b. The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—
      (1) The offeror;
      (2) Subcontractors; and/or
      (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. **RESUMES**
Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. **INCIDENTAL SUPPORT COSTS**
Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. **APPROVAL OF SUBCONTRACTS**
The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. **DESCRIPTION OF IT PROFESSIONAL SERVICES AND PRICING**
a. The Contractor shall provide a description of each type of IT Service offered under MAS Special Item Number 54151S Information Technology Professional Services, should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding

GSA Contract Number: GS-07F-5866R

February 8, 2021
Identification Technology Partners, Inc., 2021
commercial job titles (labor categories) for those individuals who will perform the service should be provided.

b. Pricing for all IT Professional Services shall be in accordance with the Contractor’s customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

c. The following is an example of the manner in which the description of a commercial job title should be presented:

EXAMPLE: Commercial Job Title: System Engineer
Minimum/General Experience: Three (3) years of technical experience which applies to systems analysis and design techniques for complex computer systems. Requires competence in all phases of systems analysis techniques, concepts and methods; also requires knowledge of available hardware, system software, input/output devices, structure and management practices. Functional Responsibility: Guides users in formulating requirements, advises alternative approaches, conducts feasibility studies.

Minimum Education: Bachelor’s Degree in Computer Science
Section 1 – IDTP

Qualifications

Identification Technology Partners, Inc. (IDTP) is the leading engineering and consulting firm specialized in the critical elements of personal identification systems and provides independent and objective subject matter expertise for their requirements, design, development, testing, operation and deployment. We deliver unique support capabilities to large-scale biometrics and secure credentialing initiatives, the access security marketplace, integrated secure credentialing, and the related technology industries. IDTP has been instrumental in assisting government agencies to develop appropriate and effective program specifications, CONOPS, system architectures and performance testing as a solid foundation for advanced biometric and secure credential-based programs within the enterprise. We are also engaged in providing technical design and operational performance expertise specific to advanced biometrics systems and secure identification credentialing programs (i.e., AFIS, HSPD-12/PIV, TWIC, FBI RapBack) seeking to optimize their effectiveness in integrated systems for forensic and national security solutions.

IDTP has assembled a team of highly accomplished biometrics and credentialing experts who have supported the design, development, deployment and operation some of the world’s largest and most complex biometrics identification systems and identity credentialing programs. IDTP boasts over 250 years of combined biometric technology experience and is approaching 200 years of identification program and technology experience within the firm. IDTP is recognized for real-world project experience, and extensive involvement in developing standards, compliance testing tools and industry best practices. Our award-winning technical “subject matter expertise” and program management performance ensures success in the development of effective identification solutions and the competent fulfillment of program goals.

IDTP is providing trusted, world-class technical support to some of the largest, most advanced identification and credentialing programs of their kind. We have achieved an unrivaled reputation for integrity and performance and maintain a determined dedication to professional advancement and client support.

**IDTP provides unbiased, independent expertise in areas that include:**

- Identification system and component consulting throughout the full range of program lifecycle phases
- Identity credentialing programs (e.g. smart cards, identity and access management, PKI, policy)
- Forensic biometrics identification systems (e.g. AFIS and related technologies)
- Testing evaluation and validation of identification system performance and compliance
- Leadership in the development of domestic and international technical identification industry standards and best practices
• Applied solutions for the development, integration, operation and deployment of identity and access management technologies.
• Industry analysis and research in support of commercial market development and acquisition

IDTP’s capabilities span the full range of services and knowledge necessary to support large-scale, multi-faceted credentialing and identification programs. These capabilities include the following:

**Technical Engineering and Testing Services** that provide a full range of consulting, engineering, design, performance testing, test protocol development and system and infrastructure design services based on experience, and knowledge of industry standards and best practices. IDTP specializes in system testing and optimization, comparative performance testing and performance analysis. IDTP services also support related security, identification and authentication requirements.

**Program Support Services** that provide support to new or in-progress client identification programs to assist with program management, requirements and specifications development, strategic planning, risk management, implementation, oversight, business transformation and process change, planning, education and stakeholder communications.

**Standards Development Services** that provide clients with valuable insight and direction regarding technical identification industry standards and their impact on program development efforts. IDTP provides leadership and representation in standards bodies and working groups of interest to our clients.

**Policy Services** that provide clients with foundational policy development support based on knowledge and experience including identification privacy policy, legal and regulatory compliance, security and protection policy. These policy elements are viewed as critical to the success and pace of our client’s identification program implementations.

IDTP’s unique abilities are proven through exemplary performance in nationally recognized large-scale, high-visibility projects. Our award-winning technical “subject matter expertise” and program management performance ensures success in the development of effective identification solutions, and the competent fulfillment of program goals.

IDTP maintains a **Conference and Technology Center (C&TC)** which supports identification technology and system testing and provides our clients and the industry with an accessible, full-featured conference facility to host client meetings and technical mini-conferences. This facility is also used by national and international identification standards committees such as INCITS/M1 Biometrics.

**Technical Standards**

IDTP has been an active participant and contributor to biometrics and smart card technology standards committees and working groups. IDTP holds voting memberships in several domestic and international standards bodies. IDTP individuals have held various supporting positions over many years that include committee and working group chairmanships, project editors and technical writing roles.
Our partners and senior associates have been involved with the development and application of biometric technology standards since the mid 1980’s. IDTP has made recognized contributions to the national identification standards process via awards from ANSI / INCITS. IDTP serves as a “standards incubator” to INCITS / M1, the American National Standards Institute (ANSI) standards group for biometrics. IDTP participates in a number of standards initiatives, including:

- BioAPI Consortium
- Common Biometric Exchange Formats Framework (CBEFF)
- Biometric Consortium Working Group
- ANSI/INCITS B10
- INCITS / M1 and related task groups
- ISO/IEC JTC 1 / SC 37 International Biometric Technical Standards Sub-committee
- Data Format for the Interchange of Fingerprint, Facial, & Scar Mark and Tattoo (SMT) Information (ANSI/NIST-ITL-1-2007)
- M1 - Border Management Application Profile
- RTCA Special Committee 207 Airport Security Access Control Standard (DO-230)

Further, IDTP provides key personnel support for:

- M1 – Application Profile for the Identification of Transportation Workers (tech. co-editor)
- M1 - Biometric Data Interchange Formats – (technical editor for the finger image and finger minutiae standards)
  - Acting Chair - Task Group on Biometric Data
  - Chair – Task Group on Biometric Technical Interfaces and Profiles
- SC 37 – Common Biometric Exchange Formats Framework (technical editor parts 1,2,3)
  - SC 37 - Biometric Data Interchange Formats (technical editor for 19794-2 Finger Minutiae and 19794-4 Finger image standards)
- Government Smart Card- Interagency Advisory Board (GSC-IAB) Federal Information Processing Standard (FIPS) 201 & Special Publication (SP) 800-73, SP 800-76 and SP 800-78 initiatives.
- Former technical editor of the ANSI/NIST-ITL Data Format Interchange Standards

Section 3.

SIN 54151S Position Descriptions

**Expert Consultant / Subject Matter Expert III:**

**Experience:** Has a minimum of 20 years experience in the identification corporate/business environment with at least five years in a senior management position responsible for identification or credentialing consulting to multiple client programs, or equivalent experience in a corporate senior staff role working directly in identification or credentialing programs.

**Functional Responsibility:** Provide identity, identity management, credentialing, smart card credential and access management professional consulting services in their support of personal identification programs and systems related to requirements, design, development, testing, operation and deployment. Support full identification, credential and access management program lifecycle phase
support with independent expert engineering, policy, legal, standards expertise required by Identity Credentialing and Access Management programs.

**Education:** A Bachelors degree.

**Expert Consultant / Subject Matter Expert II:**

**Experience:** A 4-year degree plus 5 years minimum experience in identification-specific work, or 10 years minimum specialized experience in identification or credentialing-related work.

**Functional Responsibility:** Provide identity, identity management, credentialing, smart card credential and access management professional consulting services in their support of personal identification programs and systems related to requirements, design, development, testing, operation and deployment. Support full identification, credential and access management program lifecycle phase support with independent expert engineering, policy, legal, standards expertise required by Identity Credentialing and Access Management programs.

**Education:** A Bachelors degree.

**Expert Consultant / Subject Matter Expert I:**

**Experience:** The Subject Matter Expert I has a minimum of 5 years experience in a specific area of expertise related to security technology, identification, biometrics, credentialing, image processing, operations, standardization, failure analysis, encryption, PKI, and related identification technologies and systems, or a 4-year Biometric degree plus a minimum of 1 year identification or credentialing-specific professional experience.

**Functional Responsibility:** Provide identity, identity management, credentialing, smart card credential and access management professional consulting services in their support of personal identification programs and systems related to requirements, design, development, testing, operation and deployment. Support full identification, credential and access management program lifecycle phase support with independent expert engineering, policy, legal, standards expertise required by Identity Credentialing and Access Management programs.

**Education:** A Bachelor’s degree.

**Biometric Consultant:**

**Experience:** The Biometric Consultant has a minimum of 1-2 years of experience and active engagement in the identification or credentialing fields and is familiar with either: a) Identification system components and related business processes and operations, or b) Secure credentialing used in identification (and related technology, standards and operational employment, or c) Cyber Security.

**Functional Responsibility:** Provide identity, identity management, credentialing, smart card credential and access management professional consulting services in their support of personal identification programs and systems related to requirements, design, development, testing, operation and deployment.
deployment. Support full identification, credential and access management program lifecycle phase support with independent expert engineering, policy, legal, standards expertise required by Identity Credentialing and Access Management programs.

**Education:** (Minimum) A High school diploma.
