For more information on ordering from Federal Supply Schedules click on the GSA Schedules link at www.fss.gsa.gov

About Us

Company Overview

Trust is the cornerstone of the security business — Securit was founded in 2002 by trusted and tested security professionals, each with an average of 20 years' experience in successful law enforcement. We've built careers on our integrity, discretion, respect for confidentiality, professionalism, investigative skill, and sound judgment. We have earned our clients' trust by applying these essential qualities to the protection of human life, property, and merchandise under the most demanding and sensitive situations. Our successful government, industrial, and corporate security solutions have reinforced that trust.

CPP Designation

For years the world has recognized a need for competent professionals who can effectively manage complex security issues that threaten people and the assets of corporations, governments, and public and private institutions. As the emphasis on protecting people, property, and information increases, it has strengthened the demand for professional managers. To meet these needs, the ASIS International administers the Certified Protection Professional program.

Nearly 10,000 professionals have earned the designation of CPP. This group of professionals has demonstrated its competency in the areas of security solutions and best-business practices through an intensive qualification and testing program. As a result, these men and women have been awarded the coveted designation of CPP, and are recognized as proven leaders in their profession.

Meeting Government Security Needs

Heightened homeland security concerns make the protection of Government assets critical. Government installations are not only repositories of sensitive, possibly secret data, but are also likely targets for our Country's enemies.

Securit, as a woman-owned, small business and holder of GSA Schedule Contract GS-07F-6084P, is proud to serve the Federal Government's security needs and our professionals include former Federal law enforcement personnel. We offer our Federal clients solutions tailored to their specific needs, potential threats, and vulnerabilities. Our services include armed and unarmed security officers, employee background investigations, and adjudication support services.

Securit differentiates itself by maintaining the highest industry standards for our personnel. We keep our staff trained in the latest advancements in technology and industry best proven practices. Our management stays involved at every level to assure quick responses to your needs and prevent deviation from your total security.
