16. EXPORT PACKING: N/A
17. TERMS AND CONDITIONS OF GOVERNMENT PURCHASE CARD ACCEPTANCE: American Warehouse Systems will accept Government Purchase Cards for any orders placed under this contract.
18. TERMS AND CONDITIONS OF RENTAL, MAINTENANCE, AND REPAIR: N/A
- 19a. TERMS AND CONDITIONS OF INSTALLATION: Customers should contact American Warehouse Systems for installation instructions.

For orders under SIN 361-32, Installation and Site Preparation, Customers are responsible for defining the scope of work required for installation and complying with the appropriate construction contract clauses and Davis-Bacon regulations. The following services have been accepted under the contract for this SIN:

- 1) Mechanical Installation – Mechanical installation of material handling equipment including mezzanines, rack, wire partitions, conveyor, storage cabinets, lockers, wire cages, forklifts, workbenches, dock loaders, material lifts, hoists, work platforms, ladders, forklift extensions, make ready, product unloading, staging, and cleanup.

- 2) Electrical installation – Installation of electrical components including lighting systems, conveyor controls, electrical hookups, existing systems upgrades, make ready, staging, and cleanup.
- 3) HVAC Installation – Installation of AC systems, HEPA filtration systems, clean room HVAC, make ready, staging, cleanup.
- 4) Concrete Installation – Installation of concrete structures including footings, curb, platforms, slabs, mezzanine decks, make ready, staging, cleanup.

19b. **TERMS AND CONDITIONS OF INSTALLATION:** Customers should contact American Warehouse Systems for installation instructions.

For orders under SIN 357-98, Installation and Site Preparation, Customers are responsible for defining the scope of work required for installation and complying with the appropriate construction contract clauses and Davis-Bacon regulations. The following services have been accepted under the contract for this SIN:

- 1) Mechanical Installation – Mechanical installation of material handling equipment including mezzanines, rack, wire partitions, conveyor, storage cabinets, lockers, wire cages, forklifts, workbenches, dock loaders, material lifts, hoists, work platforms, ladders, forklift extensions, make ready, product unloading, staging, and cleanup.
- 2) Electrical installation – Installation of electrical components including lighting systems, conveyor controls, electrical hookups, existing systems upgrades, make ready, staging, and cleanup.
- 3) Plumbing Installation – Installation of sprinkler systems, make ready, staging, and cleanup.
- 4) HVAC Installation – Installation of AC systems, HEPA filtration systems, clean room HVAC, make ready, staging, cleanup.
- 5) Concrete Installation – Installation of concrete structures including footings, curb, platforms, slabs, mezzanine decks, make ready, staging, cleanup.

20a. **TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICES:** N/A

20b. **TERMS AND CONDITIONS FOR ANY OTHER SERVICES:**

For orders under SIN 361-30, Ancillary Services customers are responsible for defining the scope of work. This SIN excludes construction. The following services have been accepted under the contract for this SIN:

- 1) Structural Design – This service allows us to take government designs and specifications and create a real world system specific to the Government specifications supplied. As a result of this our final systems will meet federal, state and local building and safety codes. Structural design is a necessary element in taking a design from paper to steel.
- 2) Seismic and Geotechnical Research – Seismic and Geotechnical levels vary depending on the exact location of the project. Our seismic and geotechnical research service allows us to ensure our structures are manufactured to match these critical areas by engineering this information into the structure before the manufacturing process.
- 3) Computer Assisted Drafting – With this service, we are able to take Government provided drawings and “translate” then into approval drawings, schematics and “shop drawings” required to manufacture our products.
- 4) Systems Integration– With this service, we are able to take a particular scope of work containing many different GSA provided products and provide a single integrated system. Our design team assesses the Government SOW and determines the best means to provide the requested system by basing our integrated designs on the GSA products and services we can provide on contract. Through this service we also provide individual project management and scheduling for all Government projects.
- 5) Safety Inspections – When a material handling system is installed in a particular facility, safety is paramount. We provide a pre-construction site visit to locate any potential hazards that relate specifically to the awarded project. Upon completion we provide the Government with an awareness document detailing any potential facility hazards.
- 6) Field Measurements/Site Survey – After the award of most material handling systems, a site visit must be made to determine the exact measurements and condition of the project location. This service ensures the Government provided SOW will physically fit the requested location and verifies Government provided site information.

20c. TERMS AND CONDITIONS FOR ANY OTHER SERVICES:

For orders under SIN 357-98, Ancillary Services customers are responsible for defining the scope of work. This SIN excludes construction. The following services have been accepted under the contract for this SIN:

- 1) Structural Design – This service allows us to take government designs and specifications and create a real world system specific to the Government specifications supplied. As a result of this our final systems will meet federal, state and local building and safety codes. Structural design is a necessary element in taking a design from paper to steel.
 - 2) Seismic and Geotechnical Research – Seismic and Geotechnical levels vary depending on the exact location of the project. Our seismic and geotechnical research service allows us to ensure our structures are manufactured to match these critical areas by engineering this information into the structure before the manufacturing process.
 - 3) Computer Assisted Drafting – With this service, we are able to take Government provided drawings and “translate” then into approval drawings, schematics and “shop drawings” required to manufacture our products.
 - 4) Systems Integration– With this service, we are able to take a particular scope of work containing many different GSA provided products and provide a single integrated system. Our design team assesses the Government SOW and determines the best means to provide the requested system by basing our integrated designs on the GSA products and services we can provide on contract. FEDERAL SUPPLY SCHEDULE 56

BUILDINGS AND BUILDING MATERIALS / INDUSTRIAL SERVICES AND SUPPLIES

FSC 54 PRE-ENGINEERED / PREFABRICATED BUILDINGS AND STRUCTURES

FSC 39 WAREHOUSE EQUIPMENT AND SUPPLIES

American Warehouse Systems is a material handling systems integrator, specializing in turn-key design to implementation solutions for the United States Federal Government. With our vast array of products available on GSA Contracts we are able to complete virtually any scope of work including High Bay Storage Systems, Storage Aid Systems, Mobility Systems, and Defense Distribution Depots. Contact us Today.

Setting the Standard for Building Safety™

American Warehouse Systems is proud to supply the following quality products to our GSA customers.

Schedule
Contract GS-07F-6106P

American Warehouse Systems supplies the following products on GS-07F-6106P;

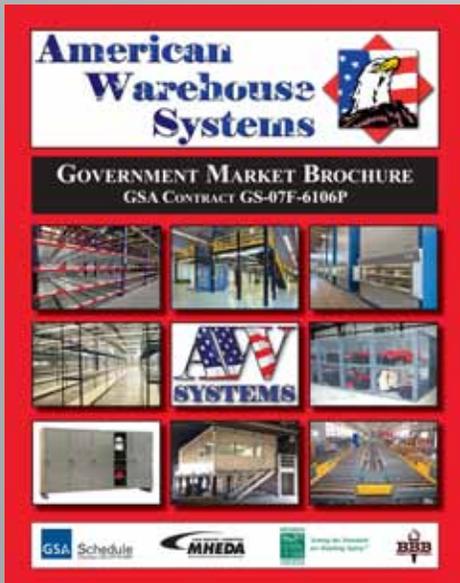

Custom Structural Mezzanines
VRC Material Elevators
Speciality Steel Structures
Equipment Platforms
High Bay Storage Systems
Pallet Rack Systems
Speciality Racking Systems
Wire Partitions and Lockers
TA-50 Gear Lockers
Flight Line Tool Cabinets
Modular Drawer Cabinets

Conveyor Systems and Controls
Mobility Storage Systems
Automated Storage and Retrieval
Storage Cabinets and Workstations
Modular Buildings
In Plant Structures
Industrial Grade Shelving Systems
Multi-Level Picking Systems
Mobile-Aisle Shelving Systems
Industrial Security Caging
463L Pallet Conveyor and Racks

American Warehouse Systems provides the following ancillary services on GS-07F-6106P in conjunction with the above products;

Structural and Seismic Engineering
Systems Consultation / Integration
Drafting / CAD Design
Systems / Project Management
Forklift Maintenance and Parts
Mechanical Installation / Repair
Electrical Installation / Repair
Plumbing - Sprinkler Installation / Repair
HVAC Installation / Repair
Concrete Installation / Repair
International Logistics - Shipping / Packaging
