Stanley Convergent Security Solutions, Inc.
Federal Supply Schedule
GS-07F-9298S

CUSTOMER INFORMATION:

1a. Awarded Special Item Number(s):

334220 – Surveillance Systems, Wearable Body Cameras and Vehicular Video - Includes surveillance systems, wearable body cameras, and vehicle videos, including video storage and services as part of a total solution.
NOTE: Subject to Cooperative Purchasing

334290 – Security and Detection Systems- Includes security and detection systems and devices, such as gas detectors, pressure level monitoring, patient/detainee monitoring systems, etc. NOTE: Excludes vehicular alarms.
NOTE: Subject to Cooperative Purchasing

334290L – Physical Access Control Systems (PACS) – Legacy SIN - Includes physical access control systems (PACS), such as card-controlled access, biometrics, security barriers, etc. Includes non-FIPS physical access control systems. NOTE: Subject to Cooperative Purchasing

334512 – Total Solutions Support Products for Facility Management Systems - Includes products to support facilities management systems, such as repair parts, surveillance systems, security functions, energy functions, building comfort systems, etc. NOTE: Subject to Cooperative Purchasing

238910 – Installation and Site Preparation - Include installation and site preparation services ordered in conjunction with buildings and structures, building materials, storage tanks/systems, services for alternative energy solutions or power distribution equipment, and fuel dispensing and management systems purchased under this schedule contract. For ordering limitations and information, refer to the Special Ordering Procedures/Ordering Guide posted on www.gsa.gov NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

541330L – Security System Integration, Design, Management and Life Cycle Support - Includes services involving the security integration/management discipline, which supports security products and systems throughout their lifecycle. Services may include, but are not limited to: testing, production, fielding, process improvement, disposal, etc. NOTE: Subject to Cooperative Purchasing

OLM – Order Level Materials - **OLMs** are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. **OLM** pricing is not established at the Schedule contract or BPA level, but at the order level. Since **OLMs** are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all **OLMs**. **OLMs** are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be

Stanley Convergent Security Solutions, Inc.
Federal Supply Schedule
GS-07F-9298S

included and priced at the order level. **OLM** SIN-Level Requirements/Ordering Instructions: **OLMs** are: - Purchased under the authority of the FSS Program - Unknown until an order is placed - Defined and priced at the ordering activity level in accordance with GSAR clause 552.238-115 Special Ordering Procedures for the Acquisition of Order-Level Materials. (Price analysis for **OLMs** is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to **OLMs**) - Only authorized for use in direct support of another awarded SIN. - Only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN) - Subject to a Not To Exceed (NTE) ceiling price **OLMs** are not: - Open Market Items. - Items awarded under ancillary supplies/services or other direct cost (ODC) SINs (these items are defined, priced, and awarded at the FSS contract level) **OLM** Pricing: - Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF). - The value of **OLMs** in a task or delivery order, or the cumulative value of **OLMs** in orders against an FSS BPA awarded under an FSS contract, cannot exceed 33.33%. NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

1b. Lowest Priced Item: See pricing section.

1c. Labor Categories & Hourly Rates: Please refer to our Labor Section

2. MAXIMUM ORDER THRESHOLD:

SIN 334220 - \$250,000 per SIN/per Order

SIN 334290 - \$250,000 per SIN/per Order

SIN 334290L - \$250,000 per SIN/per Order

SIN 334512 - \$250,000 per SIN/per Order

SIN 238910 - \$250,000 per SIN/per Order

SIN 541330I - \$250,000 per SIN/per Order

SIN OLM - **OLMs** The value of **OLMs** in a task or delivery order, or the cumulative value of **OLMs** in orders against an FSS BPA awarded under an FSS contract, cannot exceed 33.33%. NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

3. MINIMUM ORDER: \$100

4. GEOGRAPHIC COVERAGE: 50 United States and Washington DC, Puerto Rico and U.S. Territories

3. PRODUCTION POINT: Vancouver, British Columbia, Canada, North York, ON, Canada, Springfield, MO, Carrollton, TX; Van Nuys, CA; Lancaster, PA; Minnetonka, MN; Kimball, NE; Irvine, CA; Louisville, CO; Campbell, CA; Manchaug, MA; Torrance, CA; Woburn, MA; Londonderry, NH, Vernon Hills, IL,

Labor Category Descriptions

Program Manager (SIN 541330L, 334512)

Program Managers serve as the primary point of contact with the client and is responsible for program planning, risk management, business development, new and emergent technology procurement and overall systems management and staff supervision. He/She manages assigned contracts to ensure that implementation and prescribed activities are carried out in accordance with specified objectives: Plans and develops methods and procedures for implementing program, directs and coordinates program activities, and exercises control over personnel responsible for specific functions or phases of program. Selects and assigns personnel according to knowledge and experience. Outlines program objectives and individual responsibilities for tasks and phases associated with the contract. Directs and coordinates personally, or through subordinate managerial personnel, activities concerned with implementation and carrying out objectives of program/contract. Reviews reports and records of activities to ensure progress is being accomplished toward specified program objective/deliverables and modifies or changes methodology as required redirecting activities and attaining objectives. Prepares program reports and controls expenditures in accordance with contract budget allocations.

Senior Program Manager

Minimum Experience: 8-10 years experience in a security-related field.

Minimum Education Requirements: Masters Degree or a level of experience that commensurate with the rigors of an advanced degree.

Program Manager

Minimum Experience: 5-8 years experience in a security-related field.

Minimum Education Requirements: Bachelors Degree or a level of experience that commensurate with the rigors of an advanced degree.

Project Manager (SIN 541330L, 334512)

The Project Manager serves as the main liaison with the customer. He or she works with engineering and technical personnel. Plans, directs, and coordinates activities of staff involved in developing procedures, equipment, and techniques to solve problems. Schedules and assigns duties to engineering and technical staff based on evaluation of their knowledge of specific disciplines. Confers with project engineers to formulate installation plan, coordinate project activities, and establish reporting procedures. Prepares project feasibility and progress reports. Coordinates activities of personnel conducting successive phases of problem analysis, solution proposals, and testing. Reviews technical aspects of project to assist staff and assess productivity. Reviews project operations to ensure coordination of efforts and timely submission of reports. Analyzes reports to evaluate program effectiveness and budgetary needs. Approves expenditures necessary for completion of project. Coordinates planning, testing, and operating phases to complete project.

Project Manager II

Minimum Experience: 5-10 years management experience.

Minimum Education Experience: Bachelors Degree or a level of experience that commensurate with the rigors of a diploma.

Project Manager I

Minimum Experience: 3 -5 years management experience.

Minimum Education Experience: High School diploma or a level of experience that commensurate with the rigors of a diploma.

Administrative Support (SIN 541330L, 334512)

Administrative support duties range from clerical reporting to accounting activities that relate to receivables invoicing and payables activities directly related to projects. Duties may also include submitting financial reports, arranging travel, receiving and dispatching all correspondence and maintain program and project managers' schedules and calendars.

Minimum Experience: 0-3 years in a related field.

Minimum Education Requirements: High school diploma or a level of experience that commensurate with the rigors of a diploma.

Electronic Security Engineers (SIN 541330L, 334512)

The Senior Engineer is responsible for the overall scope of an integrated security solution. The SE will implement the protocols required for the integration of multiple security disciplines to include infrastructure, connectivity, hardware and software. The SE is responsible for the overall selection of manufacturer and equipment required to implement the design solution. The SE develops requirements and specifications, and serves as overall solution analyst, responsible for planning coordinating and controlling engineering operations. The SE also is responsible for testing and validating system performance.

Minimum Experience: 5-8 years experience in a related field.

Minimum Education Requirements: Bachelors degree or a level of experience that commensurate with the rigors of an advanced degree.

The Systems Design Engineer is responsible for processing conceptual security solutions and applying them to a technical design plan and layout. The SDE is responsible for assuring that specifications of equipment and software will meet the conceptual requirements accounting for the intended or existing infrastructure and connectivity available, ensuring that a product will work with proposed devices, by testing theoretical designs evaluating whether they will perform consistently in specified operating environments. The SDE performs mission needs analysis, operational requirements analysis, specification review, design analysis, simulation and staging, material engineering, system reliability, maintainability, security, configuration management, software development and subsystem support. The SDE is the senior programmer responsible for the overall software configuration and hardware integration. He/she supports senior field engineers, and maintenance technicians.

Minimum Experience: 5-8 years experience in a related field.

Minimum Education Requirements: Bachelors degree or a level of experience that commensurate with the rigors of an advanced degree.

Senior Field Engineers assist in supervising field employees assigned to a particular installation. He/She also assist in evaluation and solution of potential field problems, referring them to Sr. Engineers or Project Managers. Field Engineers provides technical engineering information and interpretation of blue prints, plans, detail sheets and specifications for contractors. This position finds solutions to conflicts in design drawings and specifications by conferring with the engineering team then coordinates agreed upon solutions with the various sub-trades. Also responsible for reporting accurate quantities for labor cost reports, accurately monitors material ledgers to determine if quantities remaining in the estimate are sufficient to complete the project in the field. As a member of the Project Site Team, the Sr. Field Engineer coordinates inspections with consultants and authorities as required by the contract, inspects for conformance to design drawings, assists Project Managers by enforcing quality control and expediting subcontractors, reviews shop drawings for conformance with the contract and ensures information is communicated to engineers and project managers. The Sr. Field Engineer's input is critical to the development of the final as-build drawings.

Minimum Experience: 3-5 years experience in a related field.

Minimum Education Requirements: Bachelors degree or a level of experience that commensurate with the rigors of an advanced degree.

Engineering Technician (SIN 541330L. 334512)

Electronic Engineering Technicians help design, develop, test, manufacture, and repair electrical and electronic equipment. Electronic engineering technicians generally work under the supervision of Sr. Field Engineer and Project Managers. Technicians perform a wide variety of different tasks depending on the needs of the project. Technicians will monitor control units to make sure that the electronic solution and systems are operating efficiently. He/She test and inspect equipment to verify that it meets the required specifications. They often use their knowledge of electrical engineering technology to diagnose electrical problems. They may make repairs themselves or direct other electrical workers to do them. They consult with engineers and offer advice on power and connectivity. They may plan, direct, and record tests done on electrical equipment, or recommend changes in equipment that is not operating efficiently. Engineering technicians perform a variety of tasks to assist the engineers, such as assembling and testing experimental electrical and electronic parts or making changes in parts according to an engineer's instructions. They also prepare wiring diagrams, layout drawings, or engineering specifications for new equipment. Once a design for new equipment has been perfected, electrical and electronic engineering technicians may direct the crew of workers who produce or install it.

Minimum Experience: 3-10 years experience in a related field.

Minimum Education Requirements: High school diploma, technical training or a level of experience that commensurate with the rigors of a diploma.

CAD Specialist (SIN 541330L. 334512)

CAD Specialists prepares engineering drawings manually and on computer aided design (CAD) software, which may involve limited design, to establish complete and accurate data necessary in building and renovation of facilities. Prepares detailed drawings of building alterations and additions including plans, sections, and elevations. Gathers supporting data and prepares detailed maps of institutional property which show dimensions and specifications of building, water lines, sewers, drains, and related information. Makes pictorial and isometric drawings for reports; plots charts and curves from data. Prepares detailed layout, assembly, and working drawings; files and indexes drawings. Participates in making field surveys, determining locations and elevations for drawings. Performs related work as required.

Minimum Experience: 3-5 years experience in a related field.

Minimum Education Requirements: High school diploma, technical training or a level of experience that commensurate with the rigors of a diploma.

Technicians (541330L, 334512, 238910)

Technicians maintain and support operational security/facility management electronic systems with supervision. installs, maintains, and operates electronic security equipment. Implements system testing and preventive maintenance programs. Performs routine technical security integration functions related to the support of the development of security engineering activities such as set-up, operation, maintenance, modification, circuit testing, calibration and trouble shooting and repair of electronic or electro-mechanical systems, experimental design circuitry, prototype models or specialized test equipment. Works from the following: schematics, logic diagrams, written and verbal descriptions, layouts, and plans. Both installation and maintenance technicians are responsible for providing end user training. Technicians may be responsible for conduit, cable and fiber optic infrastructure removal and installation. Performs testing troubleshooting, aligning and adjusting of complete electronic and computer systems, equipment, or components. Experience in performing field installation, troubleshooting, repair and on-site operation and maintenance of electronic, electromechanical, and/or mechanical systems, subsystems and components, along with associated software and data/communication networks. Works independently to install, operate, maintain, troubleshoot and/or repair highly complex mechanical, electronic or integrated systems. Applies working technical knowledge to perform routine or complex tasks in troubleshooting and repairing equipment and performing such activities as taking test measurements, performing test/calibration procedures, observing results, and recording information for evaluation. Possesses technical knowledge and experience to solve complex problems and trains end users.

Technician I

Minimum Experience: 0-3 years experience in a related field.

Minimum Education Requirements: High school diploma, technical training or a level of experience that commensurate with the rigors of a diploma.

Installation Technician I

Minimum Experience: 0-3 years experience in a related field.

Minimum Education Requirements: High school diploma, technical training or a level of experience that commensurate with the rigors of a diploma.

Installation Technician II

Minimum Experience: 3-5 years experience in a related field.

Minimum Education Requirements: High school diploma, technical training or a level of experience that commensurate with the rigors of a diploma.

Installation Technician III

Minimum Experience: 5-10 years experience in a related field.

Minimum Education Requirements: High school diploma, technical training or a level of experience that commensurate with the rigors of a diploma.

Installation Technician IV

Minimum Experience: 10 + years experience in a related field.

Minimum Education Requirements: High school diploma, technical training or a level of experience that commensurate with the rigors of a diploma.

Maintenance Technician I

Minimum Experience: 3-5 years experience in a related field.

Minimum Education Requirements: High school diploma, technical training or a level of experience that commensurate with the rigors of a diploma.

Maintenance Technician II

Minimum Experience: 6-10 years experience in a related field.

Minimum Education Requirements: High school diploma, technical training or a level of experience that commensurate with the rigors of a diploma.
