Business Size: Small Business

Contract Administrator: Sonia Foster

**CUSTOMER INFORMATION:**

1a. Awarded Special Item Number(s):

<b><u>Special Item Number (SIN)</u></b>	<b><u>Descriptions</u></b>	<b><u>Pricing</u></b>
<u>260-99</u>	<u>Introduction of New Products and Services</u>	<u>See Price List</u>
<u>260-01</u>	<u>Boats, Powered</u>	<u>See Price List</u>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract: See Price List

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles with experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided:

**PRINCIPAL MARINE DIRECTOR**

Description: Has direct profit/loss responsibility for Company business activities and the authority to commit Company resources to achieve required contract objectives. Possesses a broad range of expertise and capability in managing marine engineering projects, coupled with personnel management and client interaction skills. Provides executive level expert advice, guidance, and direction to single or multiple program areas. Manages complex organizations and teams by integrating skills into client-focused, results-oriented consulting solutions.

Education: Master's Degree

Experience: 15+ years of experience

**NAVAL ARCHITECT SENIOR**

Description: May plan, conduct, supervise, and/or manage most projects for ship design, evaluation, or procurement support including stability, strength, loads, performance, or related systems under minimum supervision, conferring with supervisor on unusual matters. Assignments are broad in nature requiring originality and ingenuity. May train or supervise junior and mid-level personnel. Has substantial latitude for unsupervised decision and action. May have overall responsibility for project financial and technical management.

Education: Bachelor's Degree

Experience: 15+ years of experience

### **NAVAL ARCHITECT III**

Description: May plan, conduct, supervise, and/or manage most projects for ship design, evaluation, or procurement support including stability, strength, loads, performance, or related systems under minimum supervision, conferring with supervisor on unusual matters. Assignments are broad in nature requiring originality and ingenuity. May train or supervise junior and mid-level personnel.

Education: Bachelor's Degree

Experience: 10+ years of experience

### **NAVAL ARCHITECT II**

Description: Performs tasks for ship design, evaluation, or procurement support including stability, strength, loads, performance, or related systems that are varied and that may be somewhat difficult in character, but usually involve limited responsibility. Instructions are typically detailed.

Education: Bachelor's Degree

Experience: 7+ years of experience

### **NAVAL ARCHITECT I**

Description: Performs assigned tasks for ship design, evaluation, or procurement support including stability, strength, loads, performance, or related systems, working under immediate supervision, using established procedures. Work is typically routine and instructions are detailed.

Education: Bachelor's Degree

Experience: 3+ years of experience

### **MARINE ENGINEER VI**

Description: Has full technical responsibility for interpreting, organizing, executing, and coordinating assignments. Plans and develops engineering projects concerned with unique or controversial problems which have an important effect on major organization programs. This involves exploration of subject area, definition of scope and selection of problems for investigation and development of novel concepts and approaches. Maintains liaison with individuals and units within or outside the organization with responsibility for acting independently on technical matters pertaining to the field. Work at this level usually requires extensive progressive experience.

Education: Bachelor's Degree in engineering from an ABET accredited curriculum, or equivalent, plus appropriate continuing education.

Experience: 15+ years of experience

### **MARINE ENGINEER V**

Description: Applies intensive and diversified knowledge of engineering principles and practices in broad areas of assignments and related fields. Makes decisions independently on engineering problems and methods, and represents the organization in conferences to resolve important questions and to plan and coordinate work. Requires the use of advanced techniques and the modifications and extension of theories, precepts and practices of the field and related sciences and disciplines. The knowledge and expertise required for this level of work usually result from progressive experience.

Education: Bachelor's Degree in engineering from an ABET accredited curriculum, or equivalent, plus appropriate continuing education.

Experience: 10+ years of experience

### **MARINE ENGINEER IV**

Description: As a fully competent engineer in all conventional aspects of the subject matter of the functional area of the assignments, plans and conducts work requiring judgment in the independent evaluation, selection, and substantial adaptation and modification of standard techniques, procedures, and criteria. Devises new approaches to problems encountered. Requires sufficient professional experience to assure competence as a fully trained worker.

Education: Bachelor's Degree in engineering from an ABET accredited curriculum, or equivalent, plus appropriate continuing education.

Experience: 7+ years of experience

### **MARINE ENGINEER III**

Description: Independently evaluates, selects, and applies standard engineering techniques, procedures, and criteria, using judgment in making minor adaptations and modifications. Assignments have clear and specified objectives and require the investigation of a limited number of variables. Performance at this level requires developmental experience in a professional position or equivalent graduate level education.

Education: Bachelor's Degree in engineering from an ABET accredited curriculum, or equivalent, plus appropriate continuing education.

Experience: 5+ years of experience

### **MARINE ENGINEER III/I**

Description: This is the entry level for professional work. Performs assignments designed to develop professional works, knowledge and abilities, requiring application of standard techniques, procedures, and criteria in carrying out a sequence of related engineering tasks. Limited exercise of judgment is required on details of work and in making preliminary selections and adaptations of engineering alternatives.

Education: Bachelor's Degree in engineering from an ABET accredited curriculum, or equivalent, plus appropriate continuing education.

Experience: 3+ years of experience

### **PROGRAM MANAGER**

Description: Highest company line project management level. Plans, supervises, manages, and may participate technically in all marine related projects within the operating unit. Typically supervises multiple senior and mid-level project managers. Trains and supervises junior and mid-level program managers. Has authority for unsupervised technical and financial decision and action.

Education: Master's Degree

Experience: 15+ years of experience

### **PROJECT MANAGER**

Description: Plans, supervises, manages, and may participate technically in one or more marine related projects. May supervise one or more mid-level project managers. Trains and supervises junior and mid-level personnel. Has authority for unsupervised technical decision and action.

Education: Bachelor's Degree

Experience: 10+ years of experience

### **CONSTRUCTION MANAGER**

Description: Plans, supervises, manages, and may participate technically in one or more marine related projects. Trains and supervises junior and mid-level personnel. Has authority for unsupervised technical decision and action

Education: Bachelor's Degree

Experience: 7+ years of experience

### **TASK MANAGER**

Description: Plans, supervises, manages, and may participate technically in one or more marine related projects. Trains and supervises junior personnel. Has limited authority for unsupervised technical decision and action

Education: Bachelor's Degree

Experience: 3+ years of experience

### **CRAFTMASTER II**

Description: A Coast Guard licensed Master (minimum of not more than 100 gross tons upon near coastal waters), or Navy-trained equivalent with Craftmaster designation, or minimum of fifteen years on-water experience. Craft Master will be responsible for the safe navigation and welfare of any assigned crew to the assigned vessel. Craft Master must be able to pass the standard Coast Guard-approved physical.

Education: Bachelor's Degree

Experience: 15+ years of experience

### **CRAFTMASTER I**

Description: A Coast Guard licensed Master (minimum of not less than 25 gross tons upon near coastal waters), or Navy-trained equivalent with Craftmaster designation, or minimum of three years on-water experience. Craft Master will be responsible for the safe navigation and welfare of any assigned crew to the assigned vessel. Craft Master must be able to pass the standard Coast Guard-approved physical.

Education: Bachelor's Degree

Experience: 3+ years of experience
