GEOLOGICS OVERVIEW

GeoLogics was founded in 1989 as a disadvantaged small business. Since then, GeoLogics has provided a range of business and engineering services in support of the Department of Defense (DoD) and other government agencies. We have served the U.S. Environmental Protection Agency (EPA) for close to 20 years, and the Space and Warfare Systems Center GeoLogics was founded in 1989 as a disadvantaged small business. We graduated to large business in 2002 and continue to grow.

GeoLogics provides a range of business and engineering services in support of DoD and other government agencies. Our experience and expertise are in program management, business process reengineering (BPR), financial and data management, DoD certified acquisition and logistics engineering, supply chain certified expertise, information technology, software development, Software Engineering Institute (SEI) Capability Maturity Model (CMM) Advancement and Certification Assistance, Six Sigma professionals and IT product implementation and improvement capabilities. From business operations management and support to IT and software requirements and development, GeoLogics provides the expertise and the commitment to accomplish MOBIS tasks with complete satisfaction.

Two of GeoLogics' longest-term government clients are the Space and Warfare Systems Center (SPAWARSYSCEN) and the U.S. Environmental Protection Agency (EPA). Since 1999, GeoLogics has provided program/project management and acquisition management support to federal government agencies via SPAWARSCEN. Since 1994, GeoLogics has provided consulting, facilitation, and technical support services to EPA. GeoLogics also has had long-term contracts (over 10 years) with Raytheon, Northrop Grumman, Boeing, and United Space Alliance to provide consulting and program/project management services. Other clients include, but are not limited to, DISA, Lockheed Martin, NASA, CSC, NOAA, Orbital Sciences, L-3 Communications, USDA, WorldSpace, DIRECTV, and NSA.

SPECIAL ITEM NUMBER (SIN) DESCRIPTIONS

SIN 874-1: Integrated Consulting Services

Contractors shall provide expert advice and assistance in support of an agency's mission-oriented business functions. Services covered by this SIN include:

- Management or strategy consulting, including research, evaluations, studies, analyses, scenarios/simulations, reports, business policy and regulation development assistance, strategy formulation, and expert witness services
- Facilitation and related decision support services
- Survey services, using a variety of methodologies, including survey planning, design, and development; survey administration; data validation and analysis; reporting, and stakeholder briefings
- Advisory and assistance services in accordance with FAR 37.203

NOTE: Consulting services where the preponderance of work is specifically covered under other GSA Schedules are not permitted under this SIN; please refer to the Scope of Work in Part I of the MOBIS solicitation for further information.

SIN 874-7: Integrated Business Program Support Services

Contractors shall provide services to assist agencies in managing their mission-oriented business projects or programs and achieving mission performance goals. Services covered by this SIN include:

- All phases of program or project management, from planning to closeout
- Operational/administrative business support services in order to carry out program objectives

NOTE 1: Program support services where the preponderance of work is specifically covered under other GSA Schedules are not permitted under this SIN; please refer to the Scope of Work in Part I of the MOBIS solicitation for further information.

NOTE 2: Administrative support services are authorized under this SIN; however, they must be provided in conjunction with other professional business services covered under this Schedule and must be performed under the supervision of the contractor's Project or Program Manager. Personal services as defined in FAR are prohibited under MOBIS.

Service Contract Act: The Service Contract Act (SCA) is applicable to this contract as it applies to the entire Mission Oriented Business Integrated Services (MOBIS) Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and / or when the contractor adds SCA labor categories / employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

LABOR CATEGORIES & QUALIFICATIONS*

GeoLogics offers 11 labor categories to respond quickly to the client’s requirements. Please see the following table for a brief explanation of the labor categories. Visit our website at www.geologics.com for more information.

Table 2. Labor Categories

Labor Category	Minimum Education and Experience Equivalent	Position Duties/Responsibilities
Program Manager	Minimum of 10 years’ experience and Master’s Degree	Provides oversight and executive level management to overall contract operations often involving multiple projects/tasks and groups of personnel at multiple locations. The Program Manager maintains and manages relationships with senior level management within the client organization. The Program Manager is responsible for managing multiple contract operations, ensuring quality standards and work performance on all task orders, projects, and plans, and organizing, overseeing and assigning work efforts and resources.
Senior Project Manager	Minimum of 10 years’ experience and Bachelor’s Degree	Performs day-to-day management of contract support operations, possibly involving multiple tasks and groups of personnel at multiple locations, on a single project. Responsible for staffing, project planning, project financials, and staff direction and oversight.
Project Manager	Minimum of 7 years’ experience and Bachelor’s Degree	Assists Project and Program Manager in directing financial management and administrative activities of a MOBIS project, such as budgeting, manpower and resource planning, and financial reporting.
Functional / Subject Matter Expert	Minimum of 12 years’ experience and Master’s Degree	Senior expert with extensive, enterprise-wide knowledge and experience in one or more designated functional and/or domain areas. Provides insight and advice concerning strategic direction and applicability of up-to-date industry standard solutions. The Functional/Subject Matter Expert is typically a former high-ranking military or civilian official and recognized by industry as an expert in their specific field.
Functional Specialist 2	Minimum of 10 years’ experience and Master’s Degree	Senior expert with extensive knowledge in designated field or discipline. Provides insight and advice concerning task or project strategic direction and outcomes. Directs the activities of Specialists 1 and 2, or other staff as necessary on activated related to the specified field or discipline.

Table 2. Labor Categories

Functional Specialist I	Minimum of 7 years' experience and Master's Degree	Possesses demonstrated knowledge in designated field or discipline. Possesses significant experience providing solutions to an organization's challenges through the application of knowledge gained through similar prior engagements.
Analyst 5	Masters plus 9 years' experience	Works as Team Leader/Member in providing reengineering of complex management and technical processes. Applies process improvement and reengineering methodologies and principles to conduct process modernization projects and performs enterprise strategic systems planning, enterprise information planning and business area analysis. Provides facilitation, interviewing, training, and provides additional forms of knowledge transfer.
Analyst 4	Masters plus 6 years' experience	Applies specific and diversified knowledge of management principles and practices in program area. Works as Team Leader/Member in providing reengineering of complex management and technical processes. Provides facilitation, interviewing, training, and provides additional forms of knowledge transfer.
Analyst 3	Minimum of 5 years' experience and Bachelor's Degree	Senior analyst with extensive knowledge and experience developing and applying analytic methodologies and principles, and is recognized as a leader within MOBIS functions. Demonstrated managerial and supervisory skills.
Analyst 2	Minimum of 3 years' experience and Bachelor's Degree	Possesses demonstrated knowledge and experience applying analytic methodologies and principles to address client needs. Works closely with Analyst 2, Task Leads, or Project Manager. Directs the activities of junior staff as necessary.
Analyst I	Minimum of 0 year experience and Bachelor's Degree	Possesses knowledge of applying analytic methodologies and principles to address client's needs.

***Experience Substitutions**

Bachelors: Associates plus 2 years' related work experience or High School Diploma or GED plus 4 years related work experience

Masters: Bachelors plus 2 years' related work experience

PhD: Bachelors plus 4 years' related work experience or Masters plus 2 years' related work experience
