Retriev Technologies Inc. is registered

## RETRIEV TECHNOLOGIES INC. BATTERY RECYCLING

Retriev Technologies Inc. (Retriev) offers certified recycling for all alkaline, lithium, lead, mercury, nickel-cadmium, nickel-metal hydride, magnesium, silver zinc, and other batteries.

### Retriev's Big Green Box Program (all inclusive)

#### **The Big Green Box**

The Big Green Box will recycle mixtures of any consumer batteries including household Alkaline, rechargeable Li-Ion, non-rechargeable Lithium (no more than 10 lbs. per container), Nickel Cadmium, Nickel-Metal Hydride, Sealed Lead Acid, and other types commonly available to the public. The price includes shipping, to the customer and back to our recycling facility, sorting, and certified recycling.

#### **Big Green Box for Non-Rechargeable Lithium Batteries**

Non-rechargeable Lithium batteries are far more expensive to recycle than other common battery types. For that reason, customers recycling more than 10 lbs. of non-rechargeable lithium batteries (LiSO<sub>2</sub>, LiMnO<sub>2</sub>, LiSOCl<sub>2</sub>) must purchase this container. The additional costs involved with this container are used to pay for the increased costs of certified recycling for non-rechargeable Lithium batteries. All other aspects of the program remain the same. The price includes shipping, both to the customer and back to our recycling facility, sorting, handling, and certified recycling.

The Big Green Box has a 40-pound capacity.  
If you have questions or your type batteries please contact us.

The Big Green Box (for standard consumer batteries)

- The Big Green Box (each) \$61.21
- The Big Green Box (package of two) \$116.37
- The Big Green Box (package of five) \$281.11
- The Big Green Box (package of twenty) \$1,110.83
- The Big Green Box for Non-Rechargeable Lithium Batteries \$160.43

#### **Methods of Payment**

We accept Government Credit Cards, Checks, and Purchase Orders.

#### **Please contact us for additional information or to place an order**

The Service Contract Act (SCA) is applicable to this contract as it applies to the entire 899: Environmental Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and / or when the Contractor adds SCA labor categories / employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract."
