### Professional Services Schedule (PSS)

The Rehancement Group, Inc. (TRG) provides world-class management consulting services to the federal government and commercial clients. Through our services we seek to enhance the value of our client organizations, our people, and our nation as a whole. We drive sustainable results through tested solutions, penetrating insight, and a passion for results. Our growth is fueled by the success of our clients.

We are a Small Business focused on client satisfaction. Our consultants, who average more than 18 years of experience in their field of expertise, bring a unique blend of public, private and industry experience ensuring our clients receive solutions formed from experience, intelligence, insight, confidence and trust.

TRG's core capabilities enhance your organization's effectiveness and efficiency by realizing measured results. We approach each engagement with a full situational awareness. Using iterative problem-solving, we monitor success by evaluating our strategy and actions constantly, making sure we enhance our client's mission by achieving agency performance goals and objectives.

We are focused on what we do. As a result, we do not attempt to do all things for all organizations. TRG's capabilities are supported through the expertise of our staff and our passion for excellence. We fully realize that our clients trust us because of our commitment to what we do and who we are. TRG supports the mission of our clients with the following capabilities under Special Item Numbers (SIN): 874-1/1RC, Integrated Consulting Services , 874-6/6RC Acquisition Management Support, and 874-7/7RC Program and Project Management.

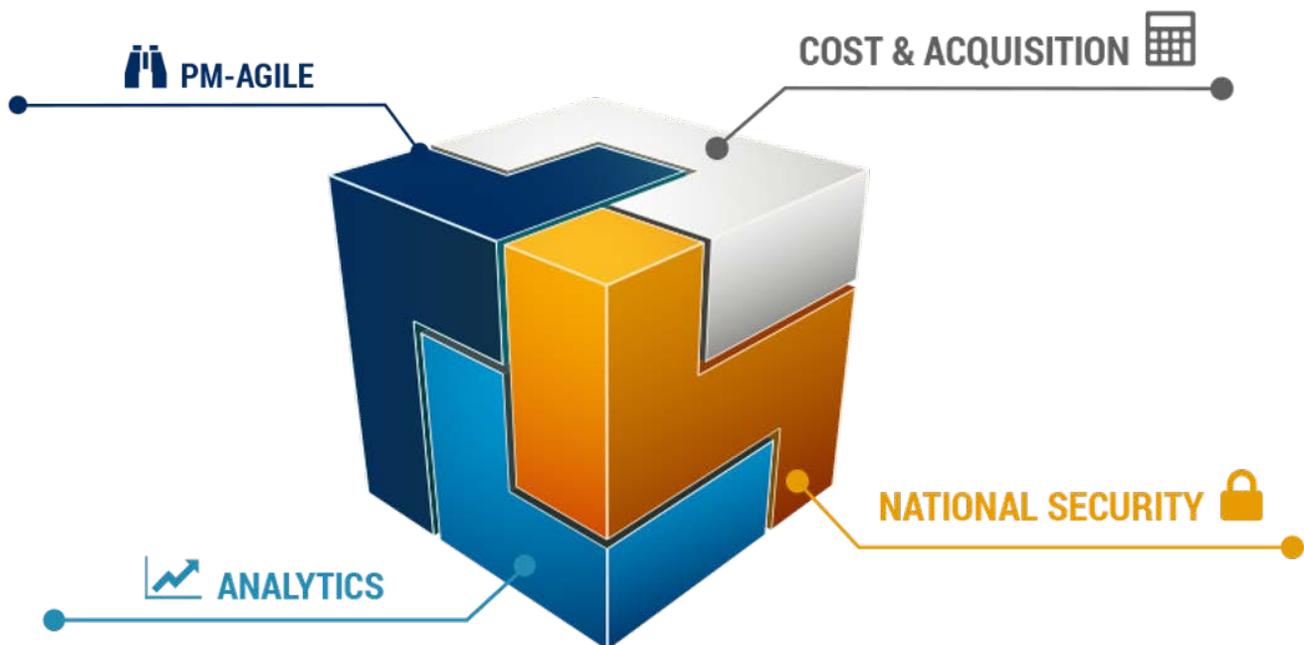

Figure 1: TRG's Core Capabilities

As shown in *Figure 1*, TRG's core capabilities include the following:

- **Cost and Acquisition** – TRG understands the accountability and transparency requirements of our government clients. Our business experts and Certified Cost Estimators bring a wealth of experience and knowledge in delivering financial analysis, economic impact studies, cost benefit analysis (CBA), predictive modeling, econometric modeling, forecasting, budget development & monitoring, cost estimating, cost recovery, and cost allocation studies.
- **Program and Project Management / Agile** – Our management approach minimizes bureaucracy and emphasizes direct communication between our team, Government counterparts, and key stakeholders. TRG exceeds traditional PM best practices, applying Agile iterative and incremental principles to program and project management. Our certified Project Management Professionals (PMP®), PMI Agile Certified Practitioners (PMI-ACP)®, and Certified Scrum Masters (SCM) manage requirements planning, development, and fielding across agencies, procurements, and programs.
- **Analytics** – TRG leads complex data analysis and metrics management efforts, including contract and program performance metrics development and standardized reports development. TRG uses database experience across federal agencies to extrapolate information necessary to support each client's mission. TRG can develop standardized tools and templates to maximize a client's analytical capabilities to help customers maximize efficiencies. TRG's analysts become Subject Matter Experts in their field and are trained on a wide array of closed and open sourced databases to seek out the whole picture. They use advanced research techniques to extract identifiers and provide near to "real time" data that current and accurate.
- **National Security** – TRG provides a responsive, sophisticated, delivery of intelligence support services to local, state and federal law enforcement agencies as well as our military. Already operating in the Intelligence Community (IC) environment, TRG's recognized IC performance demonstrates our understanding of the strategic and operational needs required to support national security objectives and all source intelligence policies, instructions and regulations, standards, and procedures. TRG supports federal intelligence programs with all of our cornerstone capabilities, including data analysis, policy development, and acquisition support analyses.

**Service Contract Act:** The Service Contract Act (SCA) is applicable to this contract and as it applies to the entire Professional Services Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29CFR 5413.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and/or when the Contractor adds SCA labor categories / employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and applicable wage determination (WD) number. Failure to do so may result in cancellation of the contract.
