CUSTOMER INFORMATION

- 1a. **Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).**

SIN 874-501 and 501 RC Supply and Value Chain Management Services

SIN 874-505 and 505 RC Logistics Training Services

- 1b. **Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.**

Not applicable

- 1c. **If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate "Not applicable" for this item.**

Analyst / Logistician

Functions and Responsibilities: Enhances product workflow by analyzing and developing logistics plans that affect production, distribution, and inventory. Creates and reviews procedures for distribution and inventory management to maximize customer satisfaction and minimize cost. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. Leads and directs the work of others. A wide degree of creativity and latitude is expected. May report to an executive or a manager.

Education: Position requires a degree from an accredited four year educational (college or university) institution.

Certifications: NONE

Minimum Experience: Five to eight years of relevant experience in this field is required. Three additional years of task related experience (a total of eleven years) may be used in lieu of a bachelor's degree from an accredited college or university.

Entry Level Analyst / Logistician

Functions and Responsibilities: Analyzes changes of product design to determine the effect on the end product design and function and determines and prepares documentation necessary for change. Coordinates with customers and manufacturers to determine a process for change reporting. Reviews released engineering change data and changes documenting activities to ensure adherence to configuration management procedures and policies. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Typically reports to a supervisor.

Education: Position requires a degree from an accredited four year educational (college or university) institution.

Certifications: NONE

Minimum Experience: Three to six years of relevant experience in this field is required.

Entry Level Technical Specialist

Functions and Responsibilities: Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision. A certain degree of creativity and latitude is required. Typically reports to a supervisor or manager.

Education: Position requires High School diploma or its equivalent. Entry Level Technical Specialists are High School Graduates with technical/military school experience. Entry Level Technical Specialists may be required to possess specialized certifications.

Certifications: NONE

Minimum Experience: One year of relevant experience in this field is required.

Journeyman Analyst / Logistician

Functions and Responsibilities: Analyzes changes of product design to determine the effect on the end product design and function and determines and prepares documentation necessary for change. Coordinates with customers and manufacturers to determine a process for change reporting. Reviews released engineering change data and changes documenting activities to ensure adherence to configuration management procedures and policies. Familiar with standard concepts, practices, and procedures within a particular field. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complex tasks. Works under general supervision. A certain degree of creativity and latitude is required. Typically reports to a supervisor or manager.

Education: Position requires a degree from an accredited four year educational (college or university) institution.

Certifications: NONE

The Service Contract Act (SCA) is applicable to this contract. This contract includes SCA applicable labor categories. The prices for the indicated SCA applicable labor categories are ceiling rates based on the U.S. Department of Labor Wage Determination identified below. Should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the prices offered will be discounted accordingly.

Wage Determination Number 05-2007 (rev -8)

State – Alabama, Tennessee. Areas – Alabama counties of Colbert, Franklin, Jackson, Lauderdale, Lawrence, Limestone, Madison, Marion, Marshall, Morgan, and Winston. Tennessee counties of Giles, Lawrence, Lincoln, Moore, and Wayne.
